Visordrelthinkingordrel, Thinkflexsense, and Soundordrel Religion or Ordreldiscoverercreatorimproversolver Guide or Ordreldiscoverycreationimprovementsolutionreligion Guide

● I won't and will never join the public and private military and military contracts (unless it is for harmful and addictive and non-medical drug prevention and eradication), and I will join, partner, support, and network with only humanitarian organizations (like Americorps, Peace Corps, United Nation, USAID, …) , organizations offering and providing free educational content and free positively impactful software (Wikipedia, U.S. Census Bureau, MIT OCW, Coursera, Global Health Media, Linux and GNU and BSD related softwares, …), and organizations enabling employees and consumers to be independent (Abled, Physically Disabled, and Mentally Disabled Consumer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Independence Organizations, Products, Person, and Businesses)

● Independence enabling technology knowledge requirements: electricity and electrical components and construction methods, robotics components and construction methods, sensors components and construction methods, computers components and construction methods, wireless communication components and construction methods, transportation components and construction methods, machine learning algorithms components and construction methods, software development components and construction methods, simple machines components and construction methods

● Create an account for every ledger technology (especially blockchain and hedera hashgraph)

● Save money to have and live in your own car or expedition vehicle. When living by minimum wage, you can either afford to live in a car or live in an apartment or other cheap housing but can't afford your own car; when living in a car you need a mailbox from a

local federal mail office account mailbox (like U.S. Postal Office) to store your mailed bills, a cellular data membership and mobile or WiFi hotspots, have portable and secure or encrypted Satellite Internet (like the ones used in RVs and Expedition vehicles), use local laundry mat or a manual powered washing machine plus the sun to dry washed items, use toilets in local restrooms mainly in gas stations and supermarkets and large stores and fast food restaurants and/or have your own portable toilet bucket covered in heavy duty trash bags and pee bottle plus disinfecting wet wipes for cleaning, and have gym membership for body showering and exercising.

● Make sure to only advertise, promote, and share Visordrelthinkingordrel, Thinkflexsense, and Soundordrel religion, organization, corporation, and I-pathetical Justice

Table of Contents for Patterndiscoverycreationimprovementsolutio document

Slogan/Motto best describing my religion:

"The most accurate, precise, positively impactful, and continuously improving and always improving invention in history."

Patterndiscoverercreatorimproversolver's only allowed desires:

"To discover or create and establish positively impactful results, effects and causes, and/or solutions; to discover or create and establish accurate and precise patterns or orders and relations along with its applications; to discover or create and establish sustainable independence for all to be able to accomplish any positively impactful actions on their own or individually; to discover or create and establish improvements enabling easier and/or faster accomplishments, results, applications, techniques, and/or methods; to discover or create and establish positively impactful freedoms for all to not restrict others in doing positively impactful actions for others and themselves."

Goal for the follower of this religion:

"To daily and constantly improve physically by becoming stronger and faster and more sensually and thoughtfully accurate and precise through the application of evolving and technique exercises; to improve mentally, I must become wiser by learning from my and other people's problems, accurate and precise solutions and patterns and ordrels, and mistakes and not repeating my mistakes and other people's mistakes, and become consciously smarter through the application of vispthinkingpat and thinkflexsense and soundpat in the application of efficient learning methodology, efficient patternology methodology, efficient guiding methodology, efficient vispthinkingpat methodology, efficient thinkflexsense methodology, and efficient soundpat methodology; to improve morally by applying I-pathy or treating others like the way I want them to treat me and by applying empathy or including the other person's, object's, organism's, and creature's perspectives, solutions, and thoughts into my way of treating that other thing to teach others

positively impactful and useful and accurate and precise information and help others by doing positively impactful actions; to improve environmentally by applying learning methodology, patternology methodology, efficient vispthinkingpat methodology, efficient soundpat methodology, efficient thinkflexsense methodology, efficient guiding methodology, and creating and using products enabling abled and disabled consumers to accomplish positively impactful tasks and solutions independently."

Patterndiscoverycreationimprovementsolutio Anthem:

"My nervous system, especially the brain, is my instructor and movement enabler. My senses are my guide. My thoughts are my instructions. My memory is my knowledge. My body and environment are tools I must take great care of through protecting them and learning from them. My purpose is to discover and solve problems by creating or discovering and applying or establishing mostly positively impactful, accurate, and precise patterns, ordrels, or orders and relations. My quantity and quality of solutions, effects, and results define my significance. Others' quantity and quality of solutions, effects, and results define their significance. My atoms, causes, and effects will always exist and occur."

Patterndiscoverercreatorimproversolver 's Creed:

"I am a Patterndiscoverercreatorimproversolver. My mission is to constantly improve and keep improving mentally, physically, morally, and environmentally. To improve and keep improving mentally, I must become wiser by learning from other people's and my problems, accurate and precise solutions and patterns, and mistakes and not repeating my mistakes and other people's mistakes, and I must become consciously smarter by applying vispthinkingpat, thinkflexsense, and soundpat through the application of efficient vispthinkingpat methodology, efficient thinkflexsense methodology, efficient soundpat methodology, efficient learning methodology, efficient patternology methodology, and efficient guiding methdology. To improve and keep improving physically, I must become faster and stronger by applying technique exercises and evolving exercises To improve and keep improving morally, I must become kinder by applying I-pathy or treating others like the way I want them to treat me and applying empathy or including the other person's, object's, organism's, and creature's perspectives, solutions, and thoughts into my way of treating that other thing to teach others positively impactful and useful and accurate and precise information and help others by doing positively impactful actions. To improve and keep improving environmentally, I must be a problem solver by applying efficient learning methodology, efficient patternology methodology, efficient guiding methodology, and creating and using products enabling abled and disabled consumers to accomplish positively impactful tasks and solutions independently."

Patterndiscoverercreatorimproversolver's duty and life or living purpose:

"Live to discover and solve the world's problems and improve oneself and the environment; if not, then I am worthless and don't deserve to live, because I will just create problems and not solve them."
"I live only to solve problems, establish solutions or mostly positively impactful impacts or effects, and physically, mentally, morally, methodically, technically, technologically, environmentally improve; if I

don't, then I am a worthless being due to just creating problems and not solving them, and, as a Patterndiscoverercreatorimproversolver, I can never be such a thing."

Motivational Speech for Patterndiscoverercreatorimproversolvers:

"Who are we? We are Patterndiscoverercreatorimproversolvers! Who are Patterndiscoverercreatorimproversolvers? Patterndiscoverercreatorimproversolvers are the best physically, mentally, morally, and environmentally! Hoorraah! Patterndiscoverycreationimprovementsolutionsrel!"

To-Do List for Improving Religion:

● Types of shapes I need to test for landing and moving motions: Ring shape or torus shape, rectangle shape, spherical shape, filled and no inner hole circular shape, twisted surface and rectangular like shape, twisted surface and torus or ring like shape, screw like shape, drill bit like shape

●
●
● Accurate and precise ordrel about false confessions and lying interrogators: false confessions are caused by interrogators falsely stating or lying by stating they would reward whoever confesses, even if the confession is stated by the wrong person

●
●
● Add this to my Ordreldiscoverercreatorimproversolver history: I solved the problem of the shape of how everything moves (stationarymovement: rotation, contacts, sliding, angling, bending), the shape of how every object and material looks like (blocks, rods,

tubes, rings, strands, sheets found in every object including plants and living cells and tissues) and of all universally applicable descriptions (combinations, order, relation, ordrel, separations, distance, size, etc.), best economic system (causeffectism), best model of problem solving business and products (mentally disabled, physically disabled, abled consumer independence ...), Efficient Guiding Methods (majority positive/negative effects), what every living and sensing creature wants (ipathy), how humans learn "Visordrelthinkingordrel, Thinkflexsense, Soundordrel), the most accurate and precise and continuously improving invention in human history and more accurate and precise ordrels that will keep being added to Ordreldiscoverycreationimprovementsolutionsreligion or Visordrelthinkingordrel, Thinkflexsense, Soundordrel Religion

●
● Try to incorporate the following components of fitness into stimulating synchronizing exercises: muscular strength, muscular endurance, cardiovascular and respiratory endurance, flexibility, body fat composition; additionally, stamina, strength, flexibility, power, speed, coordination, agility, balance, accuracy

●
● Types of visible and invisible objects: sheet, rod, block, tube, strand, and ring; light seems to display all the types of objects from the way it moves to the spacing

●
● Add "archive all maintenance and repair service manuals and databases and internal and external view of models related to independence enabling technologies"

●
● Add: "Unverified ordrel to reasons the body feels congruent pain from the other similar body part similar to the wounded body part: when a person is wounded in some area, the body part uses the genetic information from the other similar and not wounded body part to heal correctly heal the body; for example, when there is scratch on the left leg, the body uses the genetic information on the right light similar to the wounded left leg part to heal the left leg correctly, which requires nerves to become active in the other not wounded but similar region for the unconscious body to be able to identify the correct region

●
● Add "Accurate and precise ordrel about negatively impactful or unnecessary dependence enabling products and unnecessary packaging: purchasing negatively impactful or unnecessary dependence enabling products equals unnecessary packaging, which causes wasting resources on creating the negatively impactful or unnecessary dependence enabling products, package used for packaging such products, and energy used to transport such product"

●
● Add: "Accurate and precise ordrel about reasons causing Ibrahim B. Rammaha violating copyright towards the ancient mainetenancr and repair service manuals created by the no longer existing "Penton Media": as the world moves on to renewable energy through electrically powered technologies, ancient independence enabling technologies using non renewable energies like gasoline and diesel will no longer exist, and Ibrahim B. Rammaha wants to freely archive the designs of those ancient, nonrenewable energy powered, independence enabling products to be studied and appreciated as the beginning of the independence enabling movement (these products existed long before refrigerators and other renewable independence enabling products), and Penton Media no longer exists and the authors of these manuals no longer make them

●
● Add "Support protective cloths enabling movement and not restricting the body's natural movements Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel"

●
● Add need to create exoskeleton suits for sitting and standing long term replacing chairs

●
● Add to positively impactful "exoskeletons for movement stabilization, diamond used in capacitors, diamonds used as cutters"

●
● Add to vocabulary: "mental disability: slowed or non existent cognitive or mental processes caused by waste of brain cells from memorizing in, believing or worshipping in, and acting upon

inaccurate information (such as perfect things, god, magic, and other inaccurate information) or from malformation in the nervous system; people who memorizing in, believe in, and pray or waste resources by doing "sacrifices" to inaccurate ideologies are mentally disabled due to wasting their brain cells and resources on such things causing them to be cognitively or mentally slow when it comes to the truth and doing things based on accurate ideologies or information"

●
● Accurate and precise ordrel about causes of stomach pains: a stomach disease, stomach ulcer, eating too much, eating too fast (especially when haven't eaten for a while prior eating very fast), eating very fatty foods, and/or eating during stressful situations may result in stomach pain

●
● Add "Stop wasting brain cells memorizing and believing in and acting on inaccurate information and ideologies ordrel ////

●
● Add "Accurate and precise ordrel ////: acidic foods and ingredients react with aluminum when combined (whether cooked or not cooked together) and leach into the food or ingredient, and results in aluminum contaminated foods and food poisoning for the consumer (whether the consumer feels it or not)"

●
● Add "Never combine aluminum with acidic food (such as tomatoes and lemons) and eat such aluminum contaminated foods Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel"

●
●
●
● Add to universally applicable "slot(s), periodic/period(s), timeline(s), stability, reversal(s)/reverse(s), midpoint(s), focal(s), sheet(s), rod(s), block(s), tube(s), strand(s), ring(s), object(s), axis(es), reachability, dual(s), circle(s), triangle(s), cross(es), image(s), intersection(s), cell(s), repetition(s), avoidance(s), predecessor(s), successor(s), consistency, node(s), priority, date(s), Plant(s), premise(s), joint(s)/joining, plane(s), head(s), fluid(s), thermodynamic(s), matter(s), dynamic(s), mechanism(s), gear(s), kinematic(s), Occurring, happening, every, all, always, never, each,

copy, regulator, generator, housing, mark(s), match(es), near/nearer, alphabet(s)/alphabetical, letter(s), variation(s)/variable(s), style(s), thing(s), outermost, average, mean/median/mode/range, removal(s), installation(s), station(s), adjustment(s), gap(s), innermost, attachment(s), detachment(s), link(s)/linkage(s), far/further, start/starter, stop, main(s)/maintenance(s), front, rear, model(s), root(s), route(s), access/accessing/accessible/accessed/accessory/accessories, identity/identities/identification(s), tightness, looseness, underside, stretched, squeezed, slack, firm, pair(s)/repair(s)"

●
●
● Add need to create: free animations and simulations containing all independence enabling products, including atomic structure of vegetable seeds, internal parts and external design of tractors and earth movers, hardware tools, lawn mowers, computer electronics, refrigerators, ovens, dishwashers, and other household products enabling people to be independent; I am using library's repair and maintenance database to see all the parts within communication, agricultural, and kitchenware Independence Enabling products

●
● Add "casinos, eating candy and artificial sweeteners, eating detergent and soap, diamonds wasted on jewelry, drinking highly carbonized and sugary and artificially processed sodas, chewing and swallowing gum, chewing tobacco, vaping, cursing or saying bad words causing increase in inaccurate bias, inaccurate bias, not educational and user bodily Improving amusement Parks and carnivals, sexual pleasure supporting and/or violence supporting entertainment, pornography or porn, brothels" to list of negatively impactful

●
● My latest perspective towards what to do with the word "religion": Keep "religion" or change with something
● more congruent with my definition of religion

●
● Add "If a product is mostly negatively impactful to consumer then it is a waste of resources and must not be supported Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel:

If a product is mostly negatively impactful to consumer then it is a waste of resources and must not be supported"

-
- Add "Accurate and precise ordrel about many imported and improperly stored foreign farmed raw foods: many imported and improperly stored foreign farmed raw foods are more likely to contain invisible to human eye pests and contaminants in the raw food"

-
- Add "Mostly negatively impactful products to consumers can be used in ways to become mostly positively impactful products by changing the product environment and use universally applicable and always occurring Ordrel: Mostly negatively impactful products to consumers can be used in ways to become mostly positively impactful products by changing the product environment and use; for example, there are types of bombs used for military warfare, making them mostly negatively impactful, and then those same types of bombs became used for safe building demolition and mining operations, making them mostly positively impactful to consumers by changing the environment and use for those same types of bombs used in old military warfare

-
- Add "Accurate and precise ordrel towards parents forcing their children to work in hazardous environments: there are parents who force their kids to work in hazardous environments, like in mining and construction environments, and such parents do so to avoid working and pursue negatively impactful pleasurable and addictive activities, products, and actions, such as ingesting harmful drugs, fornication, etc."

-
- Add "Accurate and precise ordrel towards the best types of ground wheeled vehicle transportation and storage: trucks and vans are the best types of ground wheeled vehicle transportation and storage"

-
- Add "Best types of tractors, vans, trucks

-
- "Accurate and precise ordrel for why gay or homosexual people and fat fuckers are the cause of all the preventable social problems

in humanity's existance: gay people perpetuate and negatively influence others to pursue fornication or having sex for sexual pleasure instead of sexual reproduction and harmful cosmetics to represent their desired body change towards resembling the opposite gender, and fat fuckers perpetuate and negatively influence others to pursue ignorance of the truth, ignorance of their own health, ignorance of other people's health needs and are obsessed about and addicted to negatively impactful activities, products, and actions, such as eating junk food, pursuing sex for sexual pleasure instead of sexual reproduction, watching inaccurate entertainment, being lazy and forcing others to clean up and fix their own mistakes and problems, etc."

●
● Add "Accurate and precise ordrel towards significance of electrical energy to provide independence enabling and rechargeable products: electrical energy and electrically powered and rechargeable products enables consumers to be independent through providing the consumer the ability to electrically energize their own products, so household electricity and solar rechargeable electrical cars enable consumers of such cars to be independent in transportation"

●
● Add "Accurate and precise ordrel about insects and permitting insects in households: insects are dirty and contain many harmful pathogens and permitting any insect in houses will allow the insect's parasites and dirt to spread throughout the house making the house dirtier and require cleaning

●
● Acccurate and precise ordrel about a way to reduce packaging waste pollution through independence enabling products: reducing packaging waste pollution requires people to enable others to be independent, create independence enabling products, and create their own product within their living shelter or home, such others using household 3D printers, household vegetable garden, and other independence enabling products.

●
● Accurate and precise ordrel about significance of sports and sport competitions: sports is only for finding improvement methods and athlete improving diets, techniques, and training towards improving

in the sport, and significance of sport competitions are towards comparing the strengths or advantage, disadvantages or weaknesses, accuracies, and precisions between different methods, techniques, trainings, and procedures

●
● I created a way to use basic mathematical algebraic operations and formulas like identifying harmful effects as negative and beneficial effects as positives and using the total combined and added harmful and beneficial effects to find the positive or negative result or sum and use that for guiding in decision making, and inverse negative to positive reciprocals for guiding in decision making; I call these mathematical and algebraic based morals and decisions, which will be used by Ordreldiscoverercreatorimproversolvers and decision making and moral robots

●
● Accurate and precise ordrel for how to utilize other animals containing better sensory and/or physical abilities for practical applications: practical applications towards utilizing other animals containing better sensory and/or physical abilities should be based on result or product discovery and navigation, and physical or sensory action or product accurate discovery, assessment, measurement, and evaluation (like horsepower, sniffing explosives and other harmful and dangerous products, safely understanding side effects of ingesting or exposing chemicals and potentially harmful environments without killing the animal and not violating ipathy, using their physical abilities and attached sensors to record places or their habitats difficult or hard for humans to stay in for a long period of time such as deep oceans or caves, and understanding how other animals become infected with parasites and spread the parasites to create preventive methods before their parasites start infecting humans)

●
● Add "Identified (majority space containing Negatively Impactful Effects)/(minority space containing Positively Impactful Effects) must be changed by changing the use of product and action or avoided to reciprocate (majority space containing Positively Impactful Effects)/(minority space containing Negatively Impactful

Effects), or Identified majority space containing all Negatively Impactful or harmful Effects dominating minority space containing all Positively Impactful or beneficial Effects must be changed by changing the use of product and action or avoided to reciprocate majority space containing all Positively Impactful or beneficial Effects dominating minority space containing all Negatively Impactful or harmful Effects Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Identified (majority space containing Negatively Impactful Effects)/(minority space containing Positively Impactful Effects) must be changed by changing the use of product and action or avoided to reciprocate (majority space containing Positively Impactful Effects)/(minority space containing Negatively Impactful Effects), or Identified majority space containing all Negatively Impactful or harmful Effects dominating minority space containing all Positively Impactful or beneficial Effects must be changed by changing the use of product and action or avoided to reciprocate majority space containing all Positively Impactful or beneficial Effects dominating minority space containing all Negatively Impactful or harmful Effects"

●
● Add "Must never support mostly negatively impactful products, behaviors, and actions and always support mostly positively impactful products, behaviors, and actions Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Must never support mostly negatively impactful products, behaviors, and actions and always support mostly positively impactful products, behaviors, and actions"

●
● Use negative and positive fractions based on dominant numerator over denominator (mostly negatively impactful defined fraction with negative numerator larger than denominator, and mostly positive impactful defined fraction with positive numerator larger than negative denominator) or positive and negative ratios with reciprocity and reciprocals to determine when to do good things using "mostly" in guiding technique

●
● Add all food safety methods into laws
●

● Add ordrels using the "mostly" in "When something is mostly messy and unorganized, then organize it Ordreldiscoverercreatorimproversolver ..."

●
● Add "... consumer ... independence enabling, single user and/or self repairable and maintained, ...

●
● Add "lack of transparency and free educational and accurate information about organization" to list of negatively impactful

●
● Add "Never waste resources on negatively impactful products, and never support negatively impactful products and actions Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Never waste resources on negatively impactful products, and never support negatively impactful products and actions"

●
● Add to create: holograms or holographs that can safely manipulate objects or move physical objects

●
● Add "Always cook meat and seafoods to kill pathogens and parasites in animal product and cook legumes to destroy natural toxins within the legume Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Always cook meat and seafoods to kill pathogens and parasites in animal product and cook legumes to destroy natural toxins within the legume"

●
● Add "Always wash and disinfect or clean hands after excreting to prevent pathogens and germs found in excretion to spread to and infect others Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Always wash and disinfect or clean hands after excreting in the bathroom to prevent pathogens and germs found in excretion to spread to and infect others"

●
● Add "sliding/contacting" to "stationarymovement"

●
● Add: motor home, forklift, off-road caravan, expedition vehicle, camper van, cargo van and trucks, submarine, cargo ship, international space station, mars rover laboratory and sampling and

drilling, garbage truck, ambulance medical structure, and firefighter truck designs combination for sustainable independence vehicle

●
● When feeling only stomach pain while sitting, leaning forward reduces only the stomach pain; when experiencing heart palpitations while sitting down or laying, leaning upward and forward reduces heart palpitations; when experiencing only stomach pain while laying down, raising the knees upwards reduces stomach pain

●
● Replace "stimulating exercise" with "stimulating synchronizing exercise or evolving exercise"; also replace "stimulating stationary exercise" with "stimulating synchronizing stationary exercise"

●
● Add: types of main products for task accomplishing products and industrial products: sheet (chip, pad), block, ring, strand (rope, wire, string), tube (cone, cup, cylinder tube), rod, pole; these are not universally applicable but are types of products for industrial applications

●
●
● Accurate and precise ordrel about the elements of a story, stories, and their universal applicability and occurrence: stories are universally applicable due to being defined based on the elements of a story, and the elements of a story are plot (the series of steps in the story), narrator (the storyteller or the one who shows the story or series of steps), conflict (there will always be an equal and opposite st the same time), point of view (there will always be a perspective based on the way the series of steps are shown), theme (there will always be a main idea or general idea occurring throughout everything due to inductive reasoning and supersets and their subsets), and setting (there will always be a surrounding or environment within the shown story or series of steps).

●
● Have to edit all universally applicable sets to ensure that acronym occurs at the same time like instead of "descent/ascent" it should be "descent, ascent"

●
● Find the elements of instructions and define like the elements of a story and add those elements into universally applicable

●

● Keep or add "sheet, selection(s), grid(s), polygon, entering/entrance, exiting/exit, top, over, start, stop, beginning, ending, under, bottom, Center/central, sinking, floating, balance, middle, total, result, least, most/mostly, inverse, majority, minority, dominance, ratio, fraction, numerator, denominator, slope, negative, positive, reciprocal/reciprocity, cycle/recycle/recyclable, usable/reusable/usage/use(s), record/recordable, visible, invisible, trace/traceable, track/trackable, vector, scalar, ray, direction, position, rationalism, empiricism, realism, naturalism, instruction, practical/practicality, part, apart, separated, combined, back, up, down, forth, descent, ascent, climbing, lowering, rising, coordinate(s)/coordination(s), numeral/number, language, unclear/clear/clearness, transparency, idea, theme, symbol, character, plot, narrator/narration, creation/creator, perspective, point-of-view, graph, setting, conflict, story, duration, occurrence, expansion, contraction, contact, frame, block, ring, filter, template, space/spacing, parameter, systematic, length, environment, position, information, use(s), disk, past, present, future, incorporation, lensing, extraction, form/deformation, search, simulation, region, dependence/independence, pressure, density, mass, interaction, test, comparison, difference, sense, sensory, describing, uniqueness, uncertainty, simulation, consistency, constructed, change, deformation, want(s), spectrum, response, crucial, analytical, inner, outer, body, constraint, conclusion, assumption, era, age, theoretical, inference, dominated, error, statistical, advantage, discovery, creation, including, numerical, long, short, problem, evolution, difficulty, initial, with/without, few, correction, reduction, recycle/cycle, revolution, orbit, room, quick, problem, correction, calibration, waveform, satisfaction, proposal, given(s), violation, fitting, finding(s), end, practical, practice, extension/extending, progression, one, two, translation, recent, ruling, improving, infinite/finite, question, fundamental, reference, origination, group, light, axiom, around, pole, rotation, angular, close, summation, consumption, challenge, short, analytical, need, producing, sensitivity, merger/post-merger, late, early, soft, compact, event, result, heaviest, distant/distance, lightest, response, vector, angle, resource, subclass, orbital, quantity,

measurable, perpendicular, ratio, binary, plane, point, principle, further, account, formalized, data, longer, strand, tube, rod, pole" to universally applicable

●
●
● Add all Canadian, United Kingdom, Australian government sites and national governmental institutes sites, especially national postal and government administration and transportation sites

●
● Add "... consumer ... independence enabling, user sensory (including eyes, ears, nose, and mouth) and respiratory and mentally and bodily safe and non-hazardous, ..."

●
● Add all first aid and emergency medical techniques and procedures to religion's guide

●
● Add all sites for every countries national institutes of health and national governmental organization of science, engineering, and medicine

●
● Add "Don't waste brain cells on believing proven and known inaccurate information Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Don't waste brain cells on believing proven and known inaccurate information"

●
● Add "lies to prevent truth from being known and lying to prevent others from learning the truth, messy and unorganized children playing with modeling clay, modeling clay used in ways causing a mess and dirtying or polluting the environment with modeling clay" to list of negatively impactful

●
● Add "Accurate and precise ordrel about Public Broadcasting Service Kids or PBS Kids and Disney Channel: Public Broadcasting Service Kids contains educational, positively influential, and mostly accurate animations and media, while Disney Channel contains mostly inaccurate animations and media, not educational, and negatively influential media perpetuating inaccurate ideologies that are bad for children due to making children watching such content believe in the existence of inaccurate ideologies, like witches and magicians, and causes stupidity in children watching such content

for believing in inaccurate ideologies, so parents should not allow the stupidification of their children by having them watch inaccurate content, which are content that won't help them improve their problem solving and self and environmentally improving skills"

●
● Need to create: a media ranking based on media accuracy ("rated accurate" and "rated inaccurate"), so inaccurate medias (like fake news, inaccurate animations, inaccurate games, inaccurate simulations, medias in Disney and Pixar shows displaying inaccurate ideologies like witches and magic existing in real life) are rated inaccurate and viewers know they are seeing inaccurate medias to not waste their brain cells and life by believing in the existence of such inaccurate ideologies as real and accurate, while accurate medias are rated accurate and viewers know they are seeing accurate medias

●
● Add all the universally applicable words found in table of contents in Crc handbook of chemistry and my chemistry textbooks to list of universally applicable

●
●
● Add: "... consumer digital or virtual and physical, measuring, recording, calculating, educating, visualizing or animating, testing, experimenting, communicating, mapping, and simulating accurate and precise technologies independence enabling, ..."

●
● Combine all the accurate and precise topics and techniques in science, engineering, mechanics, machining, logic, philosophy, analytics, technology, mathematics, geometry, organization, cleaning, subsetting and supersetting, ordering and relating, naturalism, realism, rationalism, skepticism, and empiricism and in all universally applicable and always occurring topics or words to create Ordreldiscoverercreatorimproversolver method and technique

●
● Add all geometric shapes into universally applicable and add all universally applicable words into consumer independence enabling; like "... consumer [all universally applicable words] independence enabling,..." and all universally applicable and always occurring

throughout human history and before and after previous words between "consumer ... independence" into universally applicable like "communication, manufacturing, transportation"; I feel like living creatures are nothing but the conscious aspect of the way particles work and unconscious particles operate in similar ways just unconsciously through stationarymovement, association, organization, and other universally applicable and always occurring activities conscious species can currently rationalize and observe due to the thousands of years human's have lived and similar activities and tasks occurring throughout those activities even through advancements of just accomplishing the task faster or easier

●
● Communication is universally applicable: types of communications are thermal (energy association and reflection), physical (image, sound association and reflection), biological, and chemical communication types

●
● Add "scale, type, product, application, language, form, name, reference, state, fractal, long-term, term, short-term, portion, entering, leaving, exiting, lifting, lowering, rising, funnel, cover, message, geometric, manufacturing, transportation, mining, construction, deconstruction, communication, network(s), simple/simplicity, altered, restoration, another/other(s), instant, individual, regular, breakable, sending/sent, reflection, isolation, development, group/grouping, many, acknowledgment, new/newer, old/older, persuasion, abundance, modification, yes, never, always, made, added/addition, relative, vastness/vast, with/without, itself, more, depth, assessment, dominant, particular, ignorant, missed, significant, active/inactive, routine, fatal/fatality, effective/ineffective, prevention/preventative, cycle, preorder, prior, potential, over, under, control, inward/in, trial, support, useful, clear/unclear, taken, head/heading, focused, and/or, had/having, showed/showing, importance, on/onward/onset, off/offset, against, underlying/under/undertaken, over/overlying/overtaken, laying, leaning, depending/dependance, description, treatment, unknown, working/worked, face/facing, emphasis, screening, abandoning, understanding, last, few/fewer, based/basis, detail, high, low,

measuring, stick, situation, collection, event, broadness, useful, unforeseen, better, devising, nearby, half, top, bottom, falling, rising, realization, condition, imbalance/balance, virtue, excess, deficiency, vice, improve, regulation/regulated, imperative, process, direct/direction/director, connected, known, coming/came, impact, establishment, documentation, first, accordance, protocol, program/programmable, correspondence, past, present, future, second, left, right, decision, various/variation, part, position, big, small, great, test, system, operation, principle, innovative, important, made/making, did/doing, again, repetition, unlike/like, damage, block, before, led, distribution, upward/up, down/downward, met/unmeet, on/onward, not/no, cannot/can, unable/able/disable/enabling, close/closer, far, further, change, complexity, single/singular, special, unfamiliar/familiar, found/finding, conservation, practical, set, advancement, basic, management, curable, spiral(s), way, conical(s)/cone(s), bit(s), generating, symmetric, asymmetric, symmetry, map(s), ring, general, board, arragnement(s), shape(s), pad(s), chip, valve(s), block(s), instrument, phenomena, standard(s), machine(s), metrology, hardness, flatness, smoothness, roundness, depth, curve, edge, corner, surface, field, converter(s)" to universally applicable

●
● Add "eating pork and ham and bacon and other pig meat products, being very fat or overweight or obese, cosplay, wasting resources on producing useless clothes and negatively impactful apparel, wasting resources on producing useless products and negatively impactful products, dresses, jewelry, luxury, skirts, ingesting hazardous metals and not biodegradable plastics, creating and drinking alcoholic beverages, tuxedos, drinking and creating beer, vaping and e-cigarettes, obesity" to list of negatively impactful

●
● Blocks, wires, rings, cones, tubes, and other universally applicable and always occurring tools I mention seem to be both physical and visible things and physical and invisible things, like how nature connects and accomplishes tasks (like the neurons resembling wires, rings in trees, blocks used in every technological device, tools, instruments, maps, etc.)

●

● Add "Unverified ordrel about human killing robots caused by decision making and moral thinking or conscious robots based on understanding effects and causes and calculating the amount of total result of combined negatively impactful and positively impactful effects and their causes: human killing robots (caused by decision making and moral thinking or conscious robots based on understanding effects and causes and calculating the amount of total result of combined negatively impactful and positively impactful effects and their causes) would only kill or terminate mostly negatively impactful humans and won't kill mostly positively impactful humans"

● Add all the sites found on this site: https://www.researchstash.com/resource/ and https://fairsharing.org/communities

● Add all the sites found in this site: https://www.foodrisk.org/search?categories=2

● Add "Accurate and precise ordrel about all inaccurate characteristics displayed in "Iron Man" films by Marvel Comics: the smartest humans in the universe do not fornicate and do not have sex for sexual pleasure over sexual reproduction because they are smart enough to use the effects of an action and product to make their decisions based on mostly positively impactful effects and pursue mostly positively impactful actions and products and avoid mostly negatively impactful actions and products (like fornication, junk food, ingesting alcoholic beverages, sex for sexual pleasure), and do not eat sticky foods that can't be washed away with only water (like cheese, butter, and artificial oils) because they know their body is mostly made of water and honey (the most naturally stickiest and edible substance on earth and has the longest shelf life than any other natural product) can be washed away with water, so no human should watch such inaccurate displays of smartest humans in the universe"

● Add "Virtually conserve and archive all physical and ancient positively impactful products (especially ancient versions of independence enabling products like hardware tool and automotive models) and methods for historical studies and preservation Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel"

● Add "Never support clothes not shielding the temperature body parts (like the stomach) by exposing temperature body parts to the surrounding environment ordreldiscoverercreatorimproversolver behavior and action ordrel"

● Add "Accurate and precise ordrel towards ways to decrease packaging pollution: to decrease packaging pollution which causes most of the pollutions, there has to be ways to enable others to be independent to accomplish their health and educational needs (such as creating and supplying independence enabling products for consumers, like household do-it-yourself vegetable gardening products and continuously filtered and cleaned housing tap water and household water filtration systems) and stop profits of negatively impactful products (through doing it the causeffectist way and making creators of such mostly negatively impactful products to consumers to be in debt to and pay for those who buy and use their negatively impactful products, or do it the capitalist way and impose taxes and government restrictions on those negatively impactful products to consumers to make consumers less likely to buy them) and all mostly negatively impactful products are packaged (beer cans, soda cans, glass bottles in alcoholic beverages, chip bags, junk food restaurant packaging, candy packaging, etc.)

● Add all sites of positively impactful business (including both for profits and nonprofits and independence enabling and dependence enabling product creating and supplying organizations) all over the world and currently exist, and rate their transparency, free educational content, and global impact scale, and add all negatively impactful businesses and their websites to list of negatively impactful organizations and sites (including all harmful drug and tobacco creating orgs and sites, pornographic orgs and sites, jewelry orgs and sites, resource wasting orgs and their sites, junk food orgs and their sites); have a list of positively impactful orgs and sites, and list of negatively impactful orgs and sites

● Add all free and not free academic, research, education and scholarly publishers and databases and their parent organizations in all countries and languages into list of educational sites

● Replace "edutainmnet" with "accurate education", so should be "accurate education and information media" and in the law make

sure it states "accurate education and information media" and not "edutainment"
● Add " inaccurate entertainment and media, inaccurate religions and beliefs, inaccurate enforced ideologies" to list of negatively impactful
● Children born with red hair from parents who don't have red hair are more likely to experience hair color gene mutation causing them to uncontrollably hit their head against things for physical head pain stimulation, and when that occurs then the child has developed autism or does painful and harmful things (like head banging, rolling round objects against the thumbs to feel pain in thumb joint, biting their tongues, chewing the inner cheek layer of the mouth, chewing the gum of the mouth, grinding their teeth, and chewing their lips) for physical stimulation.
● Children who develop autism need to have creative storytelling autism to be able to develop communication and speech skills, so the child needs to be thinking about stories while doing the autistic behavior, which is what I did when I had autism. To develop creative storytelling autism, the child needs to be forced to read, memorize, and communicate stories. In my case, I was forced to read, memorize,   and communicate inaccurate arabic stories found in quran, and I would think about the quran while I did my autistic behavior or mostly banging my head against something until I passed out or   fainted.
●
● Add to negatively impactful: "believing in god due to being inaccurate, believing in perfection and no way to improve due to being inaccurate, monarchies due to being ignorant of representing and freely educating minority and majority populations and conducting fair and total population participation and education in governing affairs"
● Add "accurate and precise ordrel about bad "professional educators" and their bad teaching methods: bad "professional educators" use non-visual teaching methods, which are bad methods due to disabling their students from visual thinking (which is required to understand any taught topic), to teach their students causing their students to not understand and appreciate the topic

being taught due to not being able to visualize the topic based on their bad teacher's non-visual or visually disabling teaching methods.

● Add "Accurate and precise ordrel about the most useful types of books for information processing and learning readers or students: accurate, step-by-step visual and educational books are the most technically and practically useful types of books for information processing and learning readers or students (visual, technical, accurate, and educational books are more useful than "student's guide" books).

● People with autism and other learning disabilities must not take neurological medications due to many neurological medications cause side effects hindering the brain's natural process of producing neurotransmitters, to help them improve in their learning disabilities. I never took medications for my autism, and I had extreme obsessions towards hitting my head against many things to feel pain yet I was able to talk at a very young age caused by my parents forcing me to memorize stories and my obsession to think about those stories while I did my autistic behavior or painfully stimulating behavior till I fainted

●
● Add to unverified ordrel about the cause of autism in Ibrahim B Rammaha: I had autism since I was born and I think it is due to the cells in my head, mainly my hair gene or MCR1 gene mutation causing red hair to become brown, and it explains why I used to bang my head, especially as a child when my hair started to naturally change color, a lot caused by the hair genetic mutation from red hair color to golden brown hair color; my parents had brown hair, yet one of them must have carried the red hair gene (I think my dad did since he has a brother who has red hair), and I carry the red hair gene even though my hair color changed from red to golden brown, which means I am more likely to have a child who will go through the same mutation causing them to bang their head during the process of hair color mutation causing them to have autism

●
● Add to unverified ordrel: I think the reason I used to hit my head against solid objects a lot during hair color gene mutation from red

to golden brown or yellow brown is during the gene mutation process, there was stronger electromagnetic radiation or faster wavelengths which made the electrical currents stronger causing my desire to vibrate intensely by hitting my head against other things to satisfy the desire caused by stronger electromagnetic currents in my brain from the hair gene color mutation; The reason I think this way is due to red colors having slower electromagnetic wavelengths while yellow colors have faster electromagnetic wavelengths showing my brain had to produce faster electromagnetic wavelengths to have a successful hair color genetic mutation

●
● Add "Never be aggressive, be emotionally angry, and have aggressive emotions and thoughts, and to avoid experiencing such emotions and thoughts always be rational or use logical reasoning and think in terms of sequencing or ordering and relating both total quantities of negatively impactful and positively impactful effects and causes of each effect resulting in a problem and solution Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Never be aggressive, be emotionally angry, and have aggressive emotions and thoughts, and to avoid experiencing such emotions and thoughts always be rational or use logical reasoning and think in terms of sequencing or ordering and relating both total quantities of negatively impactful and positively impactful effects and causes of each effect resulting in a problem and solution

●
● Add "charge, sector, drill/drillable, cutter/cuttable, spatial, information, data, material, energy, little, up/upper/upside, down/downside, lower/low, region, higher/high, reduction/reducer, big, expression, perimeter, area, absorber, reflector, motion, portable, problem, solution, polarization/polar, inverse, lateral, obscurity, bundle, change, imaginary/image, unit, course/intercourse, origin, beginning, end, rise, fall, difference, slab, loop, alternation, indirect, direct, south, primary, secondary, north, repulsion, pulse, attraction, opposition inner, magnetic/magnetized/magnetism/magnetizable/magnet, outer, dissection, bisection, strand, deflection, reflection" to universally applicable

-
● Relation between long term violent thoughts and patients with Alzheimer disease: my grandpa has alzheimer and every time I used to talk to him, he would bring violent statements about physically beating Jews and physically beating business competitors, so I think Alzheimer patients have mostly violent thoughts plaguing their thinking ability; violent thoughts could have been caused by alzheimer due to not being able to do many things and having to rely on others to help him and those others are aggressive towards him, or violent thoughts caused Alzheimer since my grandpa is a Palestinian Muslim who at the time of his Alzheimer beginnings was retired and did nothing else but follow Islam to the fullest, watch the news, and sleep so he must have had aggressive thoughts about people and would think aggressively most of the time in a daily basis every time he thinks about Jews conquering Palestine to become Israel on the news and how in Islam Jews have to be removed from Palestine; unhealthy foods and diets might not be the cause of Alzheimer because my grandfather with Alzheimer ate like my grandmother and yet my grandmother doesn't have Alzheimer; getting hit in the head and getting a concussion might not be the cause of Alzheimer because I hit my head so many times (at least 500 times) that I should have had Alzheimer if that were the case but it hasn't happened, and footballers, rugby athletes, gymnasts, martial artists, freerunners, and breakdancers who have hit their heads at least 500 times and have had so many concussions would have had Alzheimer during their career but that hasn't happened; so having mostly angry and violent thoughts, being in a constant and continuous state of anger, aggressive and hatred thoughts and emotions taught in the family (like extreme followers of Islam and how they teach their children to hate Jews in due to them being listed in the Quran as an enemy of their god called Allah, and therefore an enemy to muslims) could be the cause of mutation in the brain causing all the excess proteins or plaque "blocking" (I believe the plaque is blocking for shielding the synapses from melting at such irregular and extreme high frequencies) the synapses to forcefully cool the brain, protect the synapses from melting, and stop aggressive thoughts from

constantly and continuously occurring (which doesn't work most of the time, since my grandfather still thinks mostly aggressively) to protect the person from their own aggressive emotions internally producing and increasing the heat energy in the brain which can melt the neurons if not for the plaque blocking the synapses as a shield or barrier protecting the neurons, since anger and aggressive emotions are associated with undesired, not synchronizing, extremely excessive heat energy and high pressure and temperature and higher frequency of wavelengths in the brain which if continuously occurring would cause a genetic mutation in the brain for the brain to resynchronize and reharmonize with the heat energy, temperature, pressure, and frequency of the brain during continuous and constant aggressive emotions and anger by using the plaque and blocking proteins to reduce the frequency and act as a cooling agent for resynchronization and harmonization back to the normal frequency state the brain needs to function properly in all locations of the brain, so plaque or proteins blocking synapses or acting as a shield in this type of scenario for the synapses to protect them from melting at such higher frequency during continuous and constant anger and aggressive emotions and thoughts by acting as a frequency reducer and temperature and pressure cooler to a frequency the brain needs to function properly during such constant and continuously excessively internally produced high temperature, frequency, and pressure during continuously and constant aggressive emotions and thoughts and anger;

●
● Accurate and precise ordrel towards anger as a cause of Alzheimer and treatment of Alzheimer through stimulating stationary and upper bodily synchronizing exercise: continuously and constantly internally and excessively produced abnormal amounts of synchronization and harmonization disabling high wavelength frequency, pressure, heat energy, and temperature in the brain from mostly being angry or having mostly aggressive emotions causes alzheimer disease due to the brain requiring the production of plaque or proteins blocking synapses as way to shield the one synapse from another synapse containing such high frequency waves, temperature, pressure, and heat energy and as a cooling

agent to keep the brain's normal temperature, wave frequency, pressure, and heat energy to synchronize and harmonize in all parts of the regions in the brain during continuous and constant internal and excessive production of

● abnormal amounts of synchronization and harmonization disabling high wavelength frequency, pressure, heat energy, and temperature in the brain from mostly being angry or having mostly aggressive emotions, and to remove the plaque or proteins blocking the synapses, there must be a release in neurotransmitters enough to remove the plaque from the synapse and the best way to do this is through doing the most healthiest addictive activity for releasing neurotransmitters, stimulating stationary exercise (mainly upper body stimulating stationary and bodily synchronizing exercises), stretching, and flexing

●
● Add "ingesting alcohol, being aggressive, being emotionally angry and having aggressive emotions and thoughts, excessive use of disinfectants and rubbing alcohol on a bodily injury or scratch, negatively impactful pleasurable activities, continuously and constantly being angry and have aggressive emotions and thoughts most of the time every day, negatively impactful stress coping behavior, smoking marijuana, smoking hooka, smoking, sex for sexual pleasure over sexual reproduction, romance and flirtation, homosexuality, chewing part of your own body, chewing and biting your nails, chewing and biting your lips" to list of negatively impactful

●
● Add all lissajous figures or curves

●
● Accurate and precise ordrel towards removing addictions to negatively impactful pleasurable activities: first, become addicted and obsessed about positively impactful, problem solving, and self and environmentally improving behaviors by combining physically stimulating exercise and flexing with the positively impactful activity, such as creating, discovering, and learning accurate and precise ordrels or orders and relations; second, shape your thoughts or have thoughts about seeking the negatively and positively impactful effects of a product or action and finding the total positive or

negative result, then utilize a product or action that is mostly positively impactful and abandon and don't support products and actions that are mostly negatively impactful

●
● Add: "... consumer ..., independence enabling, single user and/or self improvable or upgradable, single user and/or self renewable, single user and/or self recyclable, single user and/or self reusable, ..."

●
● Experiment with different types of ways to fold an inflated or deflated closed ziplock plastic bag

●
● Add all hardware and construction, demolition, agricultural, manufacturing, mining, transportation, waste management, /// tools and types and purposes to universally applicable; from ancient to modern times, many purposes and tasks in manufacturing, drilling, mining, mapping, transportation, cleaning, agriculture, /// have stayed the same due to these purposes and tasks being always occurring and universally applicable and I must add them as such

●
● Add: "Sex should only be for sexual reproduction not for sexual pleasure and during a time period when the lovers are capable of mentally and physically caring for their child's or children's health and become a successful problem solver and improver of oneself and their environment, and pleasurable activities should be based on positively impactful and problem solving activities improving oneself and environment Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Sex should only be for sexual reproduction not for sexual pleasure and during a time period when the lovers are capable of mentally and physically caring for their child's or children's health and become a successful problem solver and improver of oneself and their environment, and pleasurable activities should be based on positively impactful and problem solving activities improving oneself and environment

●
● Add "Homosexuality or having homosexual sex is a negatively impactful desire and action due to desiring sexual pleasure over sexual reproduction and due to always resulting in at least sexual transmitted infections since doing such behavior violates body's

own reproductive systems and will not be permitted Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Homosexuality or having homosexual sex is a negatively impactful desire and action due to desiring sexual pleasure over sexual reproduction and due to always resulting in at least sexual transmitted infections since doing such behavior violates body's own reproductive systems and will not be permitted"

●
● Add "Fornication and cheating on a loved one is not permitted due to violating ipathy and high risk contracting and transmitting sexually transmitted diseases Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Fornication and cheating on a loved one is not permitted due to violating ipathy and high risk contracting and transmitting sexually transmitted diseases"

●
● Add all the measuring instruments and scientific experiments performed in professor julius sumner miller's lectures and try to find or create cads and animations for them and simulations for them (he uses harmful items like asbestos and cigarette smoke)

●
● Add "Inhaled asbestos, inhaled cigarette smoke, inhaled smoke of burning vegetation and coal" to list of negatively impactful

●
● Add all types of logical reasoning, analysis, analytics, measurement, calibration, metrology, and analytical reasoning techniques and methods

●
● Add all the extreme survival situations that occurred with the survivors mistakes, solutions, and methods helping in increasing their chances of survival

●
● Add the tracking methods of native and primitive methods using only human senses and nature's signs and hints or tips, and add the tracking methods using sensory technology (especially thermal imaging cameras in drones and visual scopes) and mapping technology

●
● Add all the universally applicable terms found in logic, mathematics, economics, engineering, science, and technology (so terms in each topic applicable to all topics) and one's I wrote in

required daily activities and types of businesses I need to create that contain universally applicable terms and the physical quantities of fundamental units in measurement that can measure photons and objects and all terms found in mathematical, technology, engineering, logical, and scientific characterizations, Laws, Theories, theorems, postulates, Properties, diagrams, and models

●
● Add: "Imperfections, Improvements, trends, specializations, and Incompleteness are cyclical universally applicable and always occurring ordrel: discovering and creating Imperfections, discovering and creating Improvements, discovering and creating efficiency and focused trends, discovering and creating specializations for more efficient combinations and separations towards a certain improvement, and discovering and creating Incompleteness creates a cycle of continuous Imperfections, Improvements, trends, specializations, and Incompleteness

●
● Add or check: "gaining, wire, rod, target, fitting, isolation, node(s), tube(s), parallel(s), perpendicular(s), coupler(s), conduit(s), fulcrum, input, output, function, machine(s), lever(s), string(s), ruler(s), sheet(s), pole, ratio, slope, harmonization, synchronization, pitch, depth, frequency, sound(s), wave(s), vibration(s), side, on/onward, off/offward, surface, back/backward, front/frontward, up/upward, down/downward, left, right, internal/interior, external/exterior, inside/in/inward, outside/out/outward, inflation(s), deflation(s), cold/colder, turn(s), hot/hotter, natural/nature, thermal, electrostatic, acoustic, mechanical, electric, magnetic, nuclear, electromagnetic, version(s), conversion(s), subject, topic, expansion, shrinkage, radiation, thermometric(s), resistance(s), map(s), light/lighter, heavy/heavier, fast/faster, slow/slower, strong/stronger, weak/weaker, long/longer, short/shorter, smaller/small, larger/large, navigation(s), instruction(s), altitude(s), elevation(s), horizontal, vertical, diagonal, row, column, longitude, latitude, source, higher/high, low/lower, trends, specialization(s), imperfection/imperfect, improvable/improvement(s), incomplete/incompleteness/incompletion, flow, path(s)/pathway(s), condition(s), error, alteration, accuracy, precision, arithmetic(s), symbol(s), sign(s), comparison, contrast, rate, rank, equal(s),

final(s), initial(s), energy/energies, opposite(s), induction(s), diminishment(s), deduction(s), sum(s), losing, sending, receiving, absorbing, releasing, increasing, decreasing, system(s), transfer(s), state(s), chemistry/chemical, physical/physics, materialism, thermodynamic(s), electricity/electricities, surrounding(s), class, subclass, set, subset, superset, section, subsection,

● segment, part, component, division, piece, portion, length, element, module, unit, constituent, bit, slice, fraction, fragment
● " for universally applicable
●
● Add cooking to required daily activities; add all soup recipes
●
● Add all types of scientific and engineering methods and experiments and simulations
●
● Add all types of motors, rotors, generators, and engines; "... consumer motor, rotor, generator, and engine Independence Enabling, ..."
●
● Add all types of stabilizers and propellants or fuels and propulsion systems; liquid, solid, and gas propellants or fuels, engine stabilizers, center of gravity per geometric shape using median intersections, electro propulsion systems, ///; "... Consumer propellant, propulsion systems, and stabilizer independence enabling,..."
●
● Add all the types of manufacturing processes and additive manufacturing to add the types into the religion; "... Consumer process manufacturing, discrete manufacturing, lean manufacturing, additive manufacturing, //// independence enabling, ..."
●
● Types of physical connections for combining two products: locking, charged particles, pipes, brazing, cable ties, pins, clamps, clippers, heat shrinks, wires, power plugs and sockets and outlets, electrical ports, adhesives, coils and springs, chains, signaling, telecommunicating, plastering, inserting product in a tube, rubber banding, pushing air out of another product by using 180 degree flexible cups that transforms to flat products when combined against another product, string stitching, knitting, quilting, sewing, rope

and/or cable knotting and twisting, magnetizing, taping, gluing, coating, welding, construction fastening, and soldering

●
● Add all the locking, charged particles, pipes, brazing, power plugs and sockets and outlets, electrical ports, cable ties, pins, clamps, clippers, heat shrinks, wires, plugs, tubes, coils and springs, chains, adhesives, signaling, telecommunicating, plastering, rubber banding, pushing air out of another product by using 180 degree flexible cups that transforms to flat products when combined against another product, string stitching, knitting, quilting, sewing, rope and cable knotting, magnetizing, taping, gluing, coating, welding, construction fastening, and soldering tool and tech manufacturers, suppliers, and free tutorial and lesson makers and their educational sites

●
● Add "... Consumer locking, pipes, charged particles, brazing, power plugs and sockets and outlets, electrical ports, cable ties, pins, clamps, clippers, heat shrinks, wires, plugs, tubes, coils and springs, chains, adhesives, signaling, telecommunicating, rubber banding, string stitching, pushing air out of another product by using 180 degree flexible cups that transforms to flat products when combined against another product, knitting, quilting, sewing, plastering, rope and cable knotting, magnetizing, taping, gluing, coating, welding, construction fastening, and soldering independence enabling,..." to the Laws, etc.

●
● Add next to "sustainable independence vehicle" exercising facilities, technologies, equipment, ... (necessary for space living due to bone density decreasing from lack of gravity)

●
● Add: need to create a household 3D printer or additive manufacturing technology 3D prints in an enclosed area to produce the product faster; the fastest growing products are products being produced within a specialized enclosed space not exposed to external environment until product is complete, like the extreme growth of magma in volcanoes and infants in a mother's stomach and plants grown in specialized greenhouses and tanks aimed towards improving the specific plant

●

● Add: need to combine the international space station organization structure, rover structure and movement, nasa's dragonfly and mars helicopter scout and bird flying structure and movement for sustainable independence vehicle organization structure and movement (using iss movement in space, nasa's dragonfly and mars helicopter scout and bird flying movement in air, rover's movement in ground, just need to figure out a way for flying from the ground of any moon and planet and into space)

●
● Add "diamond jewelry, paper money" to list of Negatively Impactful

●
● Add "filter papers, papers for drawings, measurement papers, diamond cutters, diamond based conductors, paper models, useful origami models, educational paper made toys and games" to list of positively impactful

●
● Change "religion" to a word combining words used in my definition of religion

●
● Add: "harder/hard, change(s), next, transition(s), floating/floated, sinking/sunk, softer/soft" to universally applicable

●
● Add: need to create a recording, sensory, measuring, sharing, and simulating software and technology that can safely record the internals and externals of anything and accurately identify and measure the size of the known parts of any internals and externals of recorded object and automatically create a simulation or animation containing all the parts of the object and uploaded it to the internet to ensure free access to discovery

●
● Add: "Create interactive and movable visuals or images such as in animations, videos, and simulations for educational content, instead of only still visuals or images not movable and interactive by user or learner Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Create interactive and movable visuals or images such as in animations, videos, and simulations for educational content, instead of only still visuals or images not movable and interactive by user or learner"

-
- Add: "cosmetic nails and nail polish, cosmetic hair gels, cosmetics, ingesting sticky foods and beverages that can't be removed by washing with just water, inaccurate animations and visual and sound effects, inaccurate and negatively influential entertainment and media" to list of Negatively impactful

-
- Add "Accurate edutainment, accurate animations and visual and sound effects, accurate and positively influential entertainment and media"

-
- Add: "Imperovbel(s) (noun): people who believe everything is imperfect due to everything always lacking somethings, and believe everything can be improved due to everything can be combined and separated towards a trend enabling improvements towards the trend, and are logical reasoning and scientific atheists or atheists who believe no god exists due to the definition of god, which is a perfect and uncaused being, is logically and scientifically impossible to occur in real world.

-
- Add: "..., independence enabling, single user portable and controlled, single user and/or self repairable, single user and/or self cleanable, single user and/or self //////all the nouns that can match previous statement//////, safely single user and/or self recyclable, ..."

-
- Add: "ipathy, empathy" to list of universally applicable

-
- Add: accurate and precise ordrel towards the only way to legally copy and distribute information contained in copyrighted information: The only way a person can legally copy the copyrighted educational content is by creating free and open source simulation game and test and copying all of the copyrighted content into the simulation and/or creating free step by step procedural instruction videos (can be animated or not animated) copying the methods and material types in the copyrighted content to the public and/or creating stories containing information from copyrighted materials.

-
- Add: "Can violate copyrighted educational documents for only improving the accuracy of Ordreldiscoverycreationimprovementsolutionsreligion's guide, but

must reward the discoverers and creators of such educational documents according to the effects of such documents Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Can violate copyrighted educational documents for only improving the accuracy of religion's guide, but must reward the discoverers and creators of such educational documents according to the effects of such documents

●
● Add "Never violate copyrighted educational document rights unless it is for improving the accuracy of Ordreldiscoverycreationimprovementsolutionsreligion's guide but must be able to reward the discoverers and creators of such educational documents, and, if unable to reward such people, then create free simulations, animations, stories, and free step by step instructional videos using information contained in copyrighted educational documents Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Never violate copyrighted educational document rights unless it is for improving the accuracy of Ordreldiscoverycreationimprovementsolutionsreligion's guide but must be able to reward the discoverers and creators of such educational documents, and, if unable to reward such people, then create free simulations, animations, stories, and free step by step instructional videos using information contained in copyrighted educational documents"

●
● Add: accurate and precise ordrel towards jokes and stories told to children encouraging negatively impactful behavior and children behavior: jokes and stories told to children encouraging negatively impactful behavior causes children to support such behavior; for example, I had a mother who used to tell jokes making fun of her teachers in school in Jordan, so I used to make fund of my teachers in Jordan at the time thinking it's okay due to my mother's negative influence

●
●
●
● Add: "Never judge a person based on their skin color and gender but based on their behavior, action, inaccurate beliefs, and negatively impactful effects towards their environment and never

permit discrimination towards a person based on the person's skin color and gender Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Never judge a person based on their skin color and gender but based on their behavior, action, inaccurate beliefs, and negatively impactful effects towards their environment and never permit discrimination towards a person based on the person's skin color and gender"

●
● Add: "If not having sex is too much, then don't have sex with someone until you are emotionally in love with and are able to physically and emotionally care for the person and married to the person, and can only have sex with your married partner Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: If not having sex is too much, then don't have sex with someone until you are emotionally in love with and are able to physically and emotionally care for the person and married to the person, and can only have sex with your married partner"

●
● Add: need to create: free virtual museums and libraries containing all accurate and precise discovered and created ordrels and inventions rewarding or paying for contributors according to the effect of the information

●
● Add: need to create bulletproof or bullet blocker and stab proof or durable clothing; to do this combine titanium plates with 5 time folded of minimum separate 20 sheets of paper above and/or below titanium plates

●
● Add need to create: shoes with pumps safe enough to increase speed and jumping height; this can be done by combining track and field toe tip design, basketball sole design containing air pumps and sponge, and soccer cleats into physical springing pumps

●
● Add "Accurate and precise ordrel to some causes of a child to become a bully or do bullying activities: a child who thinks screaming and physically pushing is fun or normal during play activities causes the child to be isolated, ignored, and neglected by other children due to being annoying to many other children causing the child to not care about others and think they are better than

those ignoring him or her causing the ideology of bullying activities being okay due to thinking they are better and wanting to show they are better than those ignoring him or her by demanding respectful attention through physically and/or verbally abusing other children, so to avoid a child to be bullied they must stop thinking being annoying during play activities to other children is okay by making the child be conscious about not yelling and physically pushing other children due to being annoying, disrespectful, and if another child does it to them they wouldn't like it, so they should stop doing it to other children"

●
● Add "Accurate and precise ordrel about Albert Einstein shuckling and having a colossal corpus callosum: Albert Einstein imitated Jewish shuckling by swaying, shuckling, or moving back and forth or from side to side while looking down and reading science, technology, engineering, and mathematics documents causing him to be obsessive and compulsive towards such topics due to combining shuckling with reading and learning about such topics, since shuckling or swaying causes the brain to release neurotransmitters making the person feel good (which is why babies calm down when a person sways back and forth while holding the baby to calm them down), and this slightly downward head titling position while reading and shuckling or moving back and forth caused colossal corpus callosum in Albert's brain"

●
● Add "Environment or material surroundings, thoughts, and actions interconnect in a cycle causing a person's behavior and personality, and not some living god, demons, and angels due to them not existing and being not real and inaccurate ideologies universally applicable and always occurring ordrel: Environment or material surroundings, thoughts, and actions interconnect in a cycle causing a person's behavior and personality, and not some living god, demons, and angels due to them not existing and being not real and inaccurate ideologies"

●
● Accurate and precise ordrel to the cause of picky eating in people's behavior: picky eating is caused when people are introduced to foods containing ingredients with a lot of salt, fats, and

sugars releasing neurotransmitters to favor the food over the other foods containing less sugar, fats, and salt due to not containing the minimum experienced amount of sugar, fats, and salt to release the neurotransmitters; for example, picky eating in children is caused by children being exposed to processed "infant" foods high in sugar, fats, and salt causing the children to favor those foods over foods with less sugar, fats, and salt due to not containing the minimum experienced amount of sugar, fats, and salt to release the neurotransmitters

●
● Add: "Accurate and precise ordrel towards swaying, moving back and forth or from side to side, or shuckling and autistic and obsessive compulsive behavior: autistic and obsessive compulsive behavior occurs when a person uses swaying, moving back and forth or from side to side, or shuckling while doing an activity, which that activity will be what the person is mentally obsessed to think about due to the swaying motions causing a release in neurotransmitters making the person feel good while thinking and doing the activity

●
● Add "Accurate and precise ordrel about swaying, shuckling, or moving back and forth or from side to side while doing an activity and the release of neurotransmitters causing mental obsession towards the activity due to swaying: swaying, shuckling, or moving back and forth or from side to side releases neurotransmitters, and combining swaying, shuckling, or moving back and forth or from side to side while doing an activity with an activity like reading about or thinking about certain subject will cause a mental obsession towards that activity to do the swaying behavior that was combined with that activity, and swaying in a learning activity can be used to make the person enjoy and be obsessed about the learning activity, and this can be dangerous and harmful if the learning activity contains teachings and communication of mostly inaccurate information (like theism supporting information) or can be beneficial if the learning activity contains teachings and communication of only accurate information (like science, technology, engineering, logic, reasoning, safety, healthy behaviors, realism and problem solving art, and mathematics)"

-
- Add "Never feed infants and children processed foods and beverages containing amounts of processed sugar, fats, and salts causing the child to become a picky eater favoring the amounts of sugar, fats, and salt in processed unhealthy foods over edible raw fruits and vegetables Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Never feed infants and children processed foods and beverages containing amounts of processed sugar, fats, and salts causing the child to become a picky eater favoring the amounts of processed sugar, fats, and salt in processed unhealthy foods over edible raw fruits and vegetables"

-
- Accurate and precise ordrel about diverse competitions based on differing products and methods competing to accomplish same task but result in different rates: diverse competitions based on differing products and methods competing to accomplish same task but result in different rates, like one is slower while other is faster at accomplishing task, are important due to showing which product or method is better than the other at accomplishing a certain task

-
- Add to need to create under edutainment media: free simulation game and simulation for testing in virtual accurate real world applications combined containing measuring tools, technologies, instruments, and equipment, and all engineering and science simulation softwares and physical and virtual calculators (including cad designs and free and open source code of scientific and graphing calculators), and all Consumer Construction, Transportation, Agriculture, Energy Production, Mining, Medical, Virtual Communication and Media Accuracy, Demolition, Simulation, Recording, Mapping, Exploration, Navigation, Waste Management, Storage and Preservation, Recycling, Cleaning, and Manufacturing Products and Methods, and Animal species types and mapping of dna, cells, interior, and exterior structures; the simulation game and testing software is for people to test past or ancient inventions compared to current inventions and appreciate and understand both applications and capabilities, and for anyone to be able to test their ideas real world applications using all the products to create their ideas and test their ideas accuracy virtually, and the people who

discovered or created the products virtually present their discovered or created products likes computerized player (this will archive all the significant discoverers and creators or inventors to show appreciation towards the great things they have done in an educational way by having them virtually educate their significant products to users of the simulation game and test by being computer players guiding the causes and effects of their discovered or created products); the simulation game and testing software or app requires electrical wearable controller gloves and socks for movement and using hands in simulation or only touchscreen controllers for simulation; can use EBSCO Host's Home Improvement Database and Motor Direct Database from Hearst Publishing to develop the free simulator game and test; include all the underground, cave, ocean, chemical, mineral, biological, and space explorers, navigators, and mappers and their techniques, Accurate maps, and safety methods

●
● I need to archive and draw cads for all measuring tools, technologies, instruments, and equipment, and archive all engineering and science simulation softwares and physical and virtual calculators (including cad designs and free and open source code of scientific and graphing calculators), and all Consumer Construction, Transportation, Agriculture, Energy Production, Mining, Medical, Virtual Communication and Media Accuracy, Demolition, Simulation, Recording, Mapping, Exploration, Navigation, Waste Management, Storage and Preservation, Recycling, Cleaning, and Manufacturing Products and Methods, and Animal species types and mapping of dna, cells, interior, and exterior structures (must be in a healthy and safe manner and follow the ipathetical law)

●
● Add "Physically abled Ordreldiscoverercreatorimproversolvers must not do sitting position of stimulating stationary exercise without applying learning methodology or patternology (which will be replaced by ordrelology) methodology and can only do standing position stimulating stationary exercise without doing learning methodology and ordrelology methodology due to causing retarded behavior slowing the improvement and problem solving process of

an Ordreldiscoverercreatorimproversolver's required duties Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Physically abled Ordreldiscoverercreatorimproversolvers must not do sitting position of stimulating stationary exercise without applying learning methodology or patternology (which will be replaced by orderology) methodology and can only do standing position stimulating stationary exercise without doing learning methodology and orderology methodology due to causing retarded behavior slowing the improvement and problem solving process of an Ordreldiscoverercreatorimproversolver's required duties"

●
● Add "latex balloons" to negatively impactful

●
● Add "curve(s), sequel(s), outcome(s), prequel(s), antecedent(s), reason(s), strength(s), weakness(es), strain(s), demand(s), stress(es), proper, suitable, appropriate, fitting(s), apt, apposite, circumstance(s), edge(s)" to list of universally applicable

●
● Add: accurate and precise ordrel about how all professional athletes make money: all professional athletes make money by doing advertisement and sports brand contracts for sports products designing, creating, and selling corporations and/or by having a salary by joining a money contracting sports teams and organizations funded or contracted by sports corporations

●
● Add: "in order for causeffectism to work, the effects need to be accurate, and the only way to determine the effects are accurate is if the causes and effects of the products and actions are recorded and shown to the public for free and an algorithm or logical methods figures out all the recorded positive and negative effects of a product and/or action and lists them and combines them to get the total result making the effect price of the product or action; so recording technologies, media technologies, and communication technologies are necessary to discover accurate effects and make causeffectism work sustainably and impossible to be corrupted (unless the person uses fake and false yet realistic looking animations and visual effects, which can be prevented through standards and certifying the videos through using a special

recording software disabling people to use false animations and visual and sound effects)"

●
● Add all formulas, terms, diagrams, and techniques from mechanics, kinematics, fluid mechanics, and thermodynamics

●
● Add "Abled, physically disabled, and mentally disabled Consumer Physiological needs, psychological needs, safety needs, Breathing needs, nutrition needs, food needs, water needs, sleep needs, homeostasis needs, excretion needs, health needs, social needs, education needs, learning needs, Construction, Transportation, Agriculture, Energy Production, Mining, Medical, Virtual Communication and Media Accuracy, Demolition, Simulation, Recording, Mapping, Exploration, Navigation, Waste Management, Storage and Preservation, Recycling, Cleaning, and Manufacturing Independence Enabling, (add all the other ones you put in religion's required activities and business types I need to create) ... to be able to do anything individually and safely to discover and create accurate solutions to finding unknown ordrels, accurate ordrels, and accurate improvement solutions in all discovered locations Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: ////"

●
● Female children copy the way they see and hear their mother talks to a certain person.
● Add all the alphabetical order of all languages, especially Russian and Mandarin languages, into the list of free educational sites
● Add all educational sites found in
http://www.sherpa.ac.uk/guidance/instcontacts.html ,
http://sherpa.ac.uk/documents/rep_distrib.html ,
http://www.openarchives.org/Register/BrowseSites
● Replace "Effectism and effectist" with "causeffectism and causeffctist"

●
● Add to Edutainment Media "Construction, Transportation, Agriculture, Energy Production, Mining, Medical, Virtual Communication and Media Accuracy, Demolition, Simulation, Waste Management, Storage and Preservation, Recycling, Cleaning, and Manufacturing Technologies, Methods, and Tools Championships"

-
- Add: Rythmical Breathing Technique songs for exercising to "Edutainment Media", it's the only useful kind of music for endurance athletes, the album will be called "Breathing Techniques for Exercise and Endurance" and will contain Breathing techniques for climbing, running, swimming, biking, marathoning, and hiking; I can put a live recorder attached to the best endurance athletes and record their Breathing techniques then turn it into a educational Breathing song
-
- Add a 4th step within accurate and precise ordrel about creating a business "Business needs to meet current safety and health standards and obtain certificates certifying business' safety and health standards or if exceeding current standards then create its own certifications for being better certifiers than current other certifiers"
-
- Add a 3rd step within accurate and precise ordrel about creating a product "Product needs to meet current or exceed safety and health standards and obtain certificates certifying product's safety and health standards or if exceeding current standards then create its own certifications for being better certifiers than current other certifiers"
-
- Add accurate and precise ordrel about safety and health standards, educational and informative labels, and certifications: certifications are important to ensure current safety and health standards are met by organizations, especially businesses, to prevent preventable artificially caused catastrophic events and hazardous products from being sold, and educational and informative labels are important to ensure consumers are educated about the effects of a product or service to prevent uneducated and harmful consumer decisions
-
- Common symptoms of food poisoning: constant burping, stomach pain, kidney pain, painful diarrhea, constant feeling of wanting to vomit, nausea, shivering and jittering, and throat noises. Pain levels reciprocally correspond to hydration and electrolyte levels, so when pain level is high, hydration and electrolyte levels are low, and when

pain is low, hydration and electrolyte levels are high; so to decrease pain, hydration and electrolyte levels need to be high through drinking a lot of water and other clear fluids, such as soda, and eating mostly soft interior fruits, like berries and grapes and bananas and watermelons and more, and drinking lemon fluids. When in pain during laying down position, raising the knees upwards and forming an acute angle shape of leg position while laying on the back reduces the pain and helps relieve gas within the body causing desire to excrete due to improved intestinal and bile pressuring for releasing excrements

●
● Don't ever eat beans and lentils that are crunchy or aren't soft on the inside due to not being thoroughly cooked and poisonous

●
● There are two known ways to transact based on effectism: one way is to sell the product based on total combined negative and positive effect price, while the second way is to lease a product through a contracted and agreed period of time and have the consumer pay based on a single positive effect each time the consumer uses the product; so if the consumer will use a product a lot, buying would be cheaper than leasing, while if a consumer won't use a product a lot then renting the product based on amount of times the product was used would be cheaper than buying over time. For leasing: lease a product through a contracted and agreed period of time and have the consumer pay based on a single positive effect each time the consumer uses the product; if the consumer uses a product continuously or non-stop for more than one day, such as 5 days of continuous usage like refrigerator, then the product will be charged a single effect per day of usage out of the days used continuously; and each product will contain a contract for minimum amount of usage by end of time of contract, so the person has to meet the minimum amount of usage by end of contracted time (minimum amount of usage will equal to amount of total combined effects of a product; so if the effect price of a product is +10 then the person has to use the product at least 10 times before the end of contracted time period)

●

● Add accurate and precise ordrel about ipathy and guilt in every intelligent living organism: every intelligent living organism wants to be respected therefore when they disrespect they feel guilty and therefore guilty feelings can occur within any wrongdoer or disrespecter

●
● Accurate and precise ordrel about children who play very orally loud and like to play hide and seek: children who play very orally loud, such as shouting and yelling, and like to play hide and seek are immature and lack the knowledge towards playing nicely and non-violently and play and/or create physically challenging and/or academically challenging games and activities, and such children are more prone to bullying and making fun of others due to being annoying and thus outcasted by other children for being annoying

●
● Make sure to add "visual and sound effects" for the law stating "visual effects and animations" have to be depicting accurate events

●
● I have to find all types of ways universally applicable ordrels apply, including types of stationarymovements, relations, sequences, recordings, applications, etc., which are all infinite due to infinitely many types. So one of the purposes of Ordreldiscoverercreatorimproversolvers is to continuously explore different types of all universally applicable ordrels. For example there are infinitely many types of stationarymovements: types rotating, angling, bending/folding/unfolding, sliding, pulling/absorbing, and pushing/removing then subtypes 45-degree angling, and/or 100 rotations with gas and/or liquid pushing and pulling, and infinitely much more types

●
● Add "Never permit and create fake news and use animations and visual effects for creating false, inaccurate, and not real worlds and actions like magical worlds, demonic worlds, and alchemy, and can use animations and visual effects to create realistic, accurate, and true worlds that require animations and visual effects to be used in order to display such worlds in the media Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Never permit and create fake news and use animations and visual effects for creating false, inaccurate, and not real worlds and

actions like magical worlds, demonic worlds, and alchemy, and can use animations and visual effects to create realistic, accurate, and true worlds that require animations and visual effects to be used in order to display such worlds in the media"

●
● Add "Witchcraft, witches, magic, wizards, alchemy, and magical chants do not work, and medias showing false or not true worlds using animations to display such false phenomena, like magical chants and alchemy, as real instead what they truly are will not be allowed due to causing confusion and depression in viewers who watch such content and realize it is not real Ordreldiscoverercreatorimproversolver Behavior Action Ordrel: Witchcraft, witches, magic, wizards, alchemy, and magical chants do not work, and medias showing false or not true worlds using animations to display such false phenomena, like magical chants and alchemy, as real instead what they truly are will not be allowed due to causing confusion and depression in viewers who watch such content and realize it is not real"

●
● Add to need to create: Need to find a way to make commodities, especially agricultural commodities and mineral commodities, into an effectist economic system provided freely to children, priced based on effects of commodity, and mining operations are freely available to freely informative innovations

●
● Add to need to create: Need to make freely accessible procedural or step-by-step Guiding informative videos of topics covered in minerals, agriculture, transportation, chemistry, geometry, Virtual communications, and physics handbooks and documented or pdf guides found in premium or not free educational publishers like DK, CRC handbooks publishers, McGrawhill, etc.

●
● Need to add smithsonian publications site, DK publication site, firefly publication site, royal botanic gardens kew site, houghton mifflin harcourt publication site

●
● Add: accurate and precise ordrel for significant reasons why war still exists: war still exists due to cultural differences, cheaper and unrestricted way of experimenting with chemicals and drugs or

medicine on humans by experimenting them on captured enemies and bribing poverty living people, and material and territorial resource disagreements and conflicts

●
● Add "pulling and pushing" to stationarymovement, so "rotating, angling, bending/folding/unfolding, sliding, pulling/absorbing, and pushing/removing" are the causes of movement or how things move electrically, chemically, and physically
● Check and/or add for "row(s), column(s), source(s)" in universally applicable
● Add "Non-sexual reproduction within same family and incest will never be allowed Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Non-sexual reproduction within same family and incest will never be allowed"

●
● Add"Polygamy, harems, and cheating on your loved one are not allowed due to violating i-pathy Ordreldiscoverercreatorimproversolver Action...:///"

●
● Add "Unverified ordrel about decay causing universe to grow and add then replace the decayed products into the universe: the decaying particles cause the universe to expand or move outward, then some unknown natural phenomena uses these newly added particles to replace the decaying particles similar to the newly added particles"

●
● Add "ipathy/ipathetic, type(s), movable, shareable, defendable, controllable, obstacle(s), comparison(s), domain(s), range(s), classification(s), alignment(s), conformation(s), validation(s)/validity, categorization(s), insertion(s), intrusion(s), extrusion(s), extraction(s), extrication(s), preservation(s)/preservable, sample(s), specimen(s), model(s), replacement(s), thickness, interaction(s), input(s), output(s), function(s), residual(s), purpose(s), form(s)/formation(s), amount(s), spot(s), collaboration(s), synthesis/synthesize, remnant(s), remainder(s), remain(s), copy/copies, decay, empathy/empathetic, similar/similarities/similarity, different/difference(s), volume, length, width, many, track(s), majority, minority, large/larger, small/smaller, bulk, heighten/heightened/heightening, stability/stabilization(s),

supporting/supporter(s), arrangement(s), opposing/opposition(s), automation(s), improvement(s), enhancement(s), contrasting, contracting, correction(s), filter(s), detector(s), capturing/captured, containment(s), image(s), elongation(s), process(es), termination(s), label(s), description(s), definition(s), evidence(s), example(s), analysis/analyses" to universally applicable noun ordrels

●
● Look at all scientific measurements and formulas that can be used all the time or is always applicable, like volume.

●
● Add "coalitions'" to accurate and precise ordrel of creating a product and business

●
● Add "luxury watches to list of negatively impactful" and "sport and smart watches" to list of positively impactful

●
● Replace "... universally applicable and always occurring laws and rules" with "... universally applicable and always occurring ordrel or order and relation"

●
● Add "contains accurate and precise diagrammatic methods, especially Euler diagrams for argument validation" in visual language requirements

●
● Replace "Our atoms, causes, and effects ... will always exist ... Law" with "Our particles, matter, causes, and effects will always exist universally applicable and always occurring Law: /////"

●
● "all universally applicable and always occurring ordrels or order and relation will and must always exist universally applicable law:///"

●
● Add: Accurate and precise ordrel describing or defining hacking: hacking is a way to connect into another product or target and manipulate and/or monitor the other product or target by accessing, acquiring, destroying, constructing, and/or improving the product or target

●
● Add: Don't support pirated educational content or content not rewarding the creators of the copyrighted educational content unless you create and provide free educational content and will support the creators of the copyrighted educational content that

became pirated Ordreldiscoverercreatorimproversolver Behavior and Action Law:

●
● Accurate and precise ordrel for best way to understand non-visually defined and described information through visual thoughts and drawings: When watching non-visually defined and described information the best way to understand but not memorize the information is to visually draw or visually think about the meaning or visual representation of non-visually represented description or definition of information

●
● Add: "Warning signs towards respiratory disease caused by foreign particles causing air contamination: whistling nose when breathing especially during inhaling (which is a sign the nose is trying to block potentially harmful foreign particles), excessive dry mucus being produced and swallowed, constant tickling in the throat and sometimes burning sensations along with tickling when you think deep about the throat and try to flex to feel it a bit better, and feel there are things in the chest causing blocked airways or feelings that make you think there are blocked airways due to these things you feel; most environments causing this are harmful carpeted environments, polymer products containing surface fibers that are flyable and easily removable, and environments containing paints, coatings, and other forms of layering onto objects that cause or release hazardous air contaminants that are inhalants or can be inhaled if not removed or not protected respiratory against such thing"

●
● Check: "Never forgive to never forget to always learn from the cause of the problem and mistakes and to have a solution for them so you may never intentionally repeat the same problems and mistakes"

●
● Add: using bad vacuums for vacuuming carpets can cause sneezing and not vacuuming for a long time, such as at least for a month, can cause respiratory, nasal, and throat problems due to allergic and immune responses of excess carpet caused dust from housing mites and bacteria causing excessive dry mucus buildup

● Add "Kayaking, mountaineering, acrobatics, gymnastics, controlling, moving to the desired location, sharing, and defending an object from foreign obstacles sports, and swimming, horse riding, climbing, hiking, biking, throwing and catching sports, juggling sports, balancing and moving sports, safe attacking and dodging and blocking sports, jumping and kicking sports, stick hand moving sports, ovens, refrigerators, freezers, fridge, cooking pots and pans, " to positively impactful

●
● Accurate and precise ordrels of carpet Negatively impactful effects: carpet fibers easily tear and become airborne, produces more dust and allergens than non-carpeted flooring areas, carpets cause at least 50% of indoor air pollution, and requires safe HEPA filtered vacuum and safe and efficient air purifier to clean the carpet and the air of the room within the carpeted region

●
● Add universally applicable ordrels: include all universally applicable nouns, gerunds, verbs, adjectives, adverbs, prepositions, etc.

●
● Add "soccer, carpets and carpeting, rugs, ingesting metals, ingesting chewing gum, microwaving foods and beverages for human consumption, basketball" to list of Negatively impactful due to being a waste of time and energy to learning useless techniques
● Add "Accurate and precise ordrel towards how dumb or stupid people argue: when an intelligent person continuously or always disproves the dumb person's not accurate statements with the correct answers supported by accurate evidence and logical reasoning, the dumb or stupid person attacks the intelligent person verbally through insults and/or physically then states the intelligent person is wrong, doesn't know what their talking about, and/or insane, and states he or she is right without supporting their opinion with accurate evidence and logical reasoning; the best way to deal with arguing with a dumb person who has done all the previous dumb actions is to question how do they know that by making them define and support their statements with accurate, precise, and logical definitions and evidence"
● Add "jewelry" to list of Negatively impactful products

● Add "instruction(s), warning(s), inner, outer, central, slide(s), rotation(s), bend(s), angular/angling, fold(s), notification(s), alarm(s), alert(s), fabrication(s), application(s), production(s), strand(s), thread(s), preparation(s), fiber(s), filament(s), containment(s), alignment(s), scope(s), photonic(s), material(s), excitation(s), matter, particle(s), bond(s), subatomic, spectrum, color(s), atom(s), turn(s), rise/rising, lowering, low/lower, high/higher, elevation(s), detection(s), thing(s), something(s), other(s), another, gap(s)" to universally applicable

●
●
● Add "step by step ordrel accurate and precise visually detailed instructions" to accurate and precise ordrel for necessary things for learning and into efficient learning methodology and patternology methodology

●
● Add: "Improvement requires more of at least one mostly positively impactful thing and less of at least one other mostly negatively impactful thing Universally Applicable and Always Occurring Law: Improvement requires more of at least one mostly positively impactful thing and less of at least one other mostly negatively impactful thing"

●
● Add the basics of a healthy diet: eating more foods the body can digest raw (such as eating more edible raw fruits and vegetables) than foods and ingredients requiring cooking (like animal products, grains, and legumes), avoiding sticky foods that can't be removed with just water (like butter, canola and Mazola oil, American cheese and mozzarella, natural foods combined with artificial and non natural products causing the natural food to require more than just water to be washed or rinsed away), avoiding food products processed too much that it contains little to no nutrients or nutritious value, avoid eating foods causing fatigue (such as foods containing simple or highly refined and processed carbohydrates and highly refined and processed sugar causing spike in or fast increase in blood sugar levels) and gastrointestinal acid reflux, and getting or ingesting the minimum macronutrients and micronutrients
● Sticky foods, especially foods containing high fats and sugars, we eat must be able to be removed with just water when rinsing,

cleaning, or washing away due to our body containing mostly waterh

●
● When you buy a prepared food sauce or paste that when applied onto something requires more than just spraying water to remove then that sauce or paste contains artificial or non naturally occurring thing causing the sauce or paste to not be able to be removed with just spraying water, because all residue from naturally occurring foods and ingredients are removable with just water

●
● Combine the two reasons (our body is made of mostly water and honey is removable by only water to support why all sticky foods must be able to be removed by using just water)

●
● Add "Don't support jokes, curse or bad words, and inaccurate, incorrect, false, and bias statements and make jokes, curse or bad words, and inaccurate, incorrect, false, and bias statements about other people's created and discovered mostly negative impacts, mistakes, and problems, and instead always record, learn, and/or find solutions for preventing and/or improving such people from experiencing such negative events from their created and discovered mostly negative impacts, mistakes, and problems Ordreldiscoverercreatorimproversolver Behavior and Action Ordrel: Don't support jokes, curse or bad words, and inaccurate, incorrect, false, and bias statements and make jokes, curse or bad words, and inaccurate, incorrect, false, and bias statements about other people's created and discovered mostly negative impacts, mistakes, and problems, and instead always record, learn, and/or find solutions for preventing and/or improving such people from experiencing such negative events from their created and discovered mostly negative impacts, mistakes, and problems"
● Add all sites of schools, organizations, and businesses partnered with all MOOC sites, including edx, coursera, and Future Learn
● Add all educational sites from organizations found in https://www.who.int/workforcealliance/members_partners/member_li
● Add "Air fresheners producing harmful chemicals for user respiration and exposure, fragrances and perfumes producing harmful chemicals for user respiration and exposure"

● Add the 5S or 6S for lean or clean and safe manufacturing: sort, set in order, shine or clean, standardize, share or communicate, and safety

● Add "Never ingest and use sticky ingredients in foods that can't be rinsed away with using only water: Never ingest and use sticky ingredients in foods that can't be rinsed away with using only water like cheese, Mazola and canola oil, caramel, and butter are sticky and require more than rinsing with water to remove or rinse away"

● Add accurate and precise ordrel about when cargo vans are better than pickup trucks: cargo vans are more useful and safer than pickup trucks without trailers for product storage and equipment transportation on a paved road

● Add accurate and precise order about how residue of healthy foods must be able to be rinsed or removed with only water, and how foods that can't be rinsed with just water are bad for the body due to our body not being naturally or genetically accustomed to such foods: Natural Honey is sticky but can be rinsed or removed with just using water, so if honey is like that then nature shows that healthy foods must be able to be rinsed with only water due to the most naturally stickiest and edible product and most longest shelf life food and ingredient (doesn't expire in at least 100 years if not exposed to any other foods and water) called honey can be rinsed with only using water

● Add accurate and precise ordrel ////: Unconscious sounds in a person's head are caused by external and anatomically internal sounds (like mosquito buzzing, breathing, ticking, vibrating, and cracking noises) interpreted and used in the brain for mental sounds, especially unconscious voices; for example, a person hearing unconscious voices, and a mosquito is buzzing near the person's face and ears hears unconscious voices caused by the brain's unconscious misinterpretation of the mosquito's buzzing sound. So to solve unconscious voices in a person's thoughts or brain, the person must understand that he or she is hearing only noises and the brain is just unconsciously misinterpreting these noises into it's own voice, so be conscious and force the brain to consciously interpret the noise for what it accurately is instead unconsciously misinterpreting it into voices

● Accurate and precise ordrel of increased chances of accidents caused by eye related attacks from hair and flying insects: A car accident can occur when a flying bug or insect comes into a person's car and flies into the driver's face, and when the driver's eyelids or eyebrow falls into the person's eye and causes pain reducing the driver's desire to turn or move their eyesight

● Accurate and precise ordrel ///: Unconscious sounds in a person's head are caused by external and anatomically internal sounds (like mosquito buzzing, breathing, ticking, vibrating, and cracking noises) interpreted and used in the brain for mental sounds, especially unconscious voices; for example, a person hearing unconscious voices, and a mosquito is buzzing near the person's face and ears hears unconscious voices caused by the brain's unconscious misinterpretation of the mosquito's buzzing sound. So to solve unconscious voices in a person's thoughts or brain, the person must understand that he or she is hearing only noises and the brain is just unconsciously misinterpreting these noises into it's own voice, so be conscious and force the brain to consciously interpret the noise for what it accurately is instead unconsciously misinterpreting it into voices

● Add all educational sites to companies found in https://www.stafda.org/pages/2018-Directory.php and https://www.jcnf.org/partners/

● Add "Always provide safety procedures in every activity conducted, recorded, and shared to the public to ensure the viewers of such content do not attempt to do such activities without knowing the safety procedures required of doing such activities Ordreldiscoverercreatorimproversolver Behavior and Action Law: Always provide safety procedures in every activity conducted, recorded, and shared to the public to ensure the viewers of such content do not attempt to do such activities without knowing the safety procedures required of doing such activities"

● Add "Always wear eye protection during welding Ordreldiscoverercreatorimproversolver Action Law" add all safety laws and procedures in every industrial occupation, especially all in manufacturing, medical or healthcare, construction, transportation, water and food preservation and production and storage, waste

treatment, hazardous chemical preservation and handling and storage, hazardous pathogen preservation and handling and storage, water treatment, laboratory assignments, demolition, and agriculture occupations

● Add all the food poisoning prevention tips and recommended food safety practices by the fda, food safety site, and disease prevention site and turn them into laws Ordreldiscoverercreatorimproversolvers must follow such as never leave fruits, animal product, and vegetables in room temperature unless you plan or want to eat the fruit, animal product, and vegetable on the exact same day as it was left in room temperature

● Add "boilers and boiling for cooking" to list of positively impactful

● Add "eating baked meat products not cooked through boiling process prior baking process" to list of negatively impactful

● Accurate and precise ordrel about chewing lips, gum bleeding, and pathogens causing sore throat: any behavior in causing your own blood to be in your mouth like bleeding gums and chewing lips causes bacteria in your mouth to become pathogenic and cause sore throat

● Add "cleanable, selection(s), obtainment(s), source(s), guide(s)/guidance(s), axis/axes, assessment(s), hidden, shown, " to universally applicable

● Add all international centres providing free educational content containing "international centres for ..." in their titles

● Add all national and international councils', agencies', banks', foundations', funds', alliances', groups', organizations', world platforms', economic forums', societies', unions', centers', centres', institutes', and associations providing free educational content

● Add "Problem solving educating and accurate ordrel containing story creating and communicating"

● Add "Accurate and precise ordrel about combining garlic, lemon, ginger, water, flu medications known to work, and green or herbal tea during sickness: combining garlic, lemon, ginger, water, flu medications known to work, and green or herbal tea for ingesting improves the immune system, digestive system, and excretory system to fight any nasal congesting, fever and nausea causing, and sore throat causing disease"

● Add "moveable, cover(s)" to universally applicable
● Rank all organization transparency based on their website and rank transparency of all educational organization sites
● Add all sites found in https://www.usa.gov/federal-agencies/ , https://www.einvestigator.com/list-of-u-s-government-agencies/ , https://www.federalregister.gov/agencies , http://www.allgov.com/departments , https://mastersinpublicadministration.com/top-50-city-government-blogs
● Add all laboratories and facilities in https://www.federallabs.org/
● Add "iwaspoisoned.com: https://iwaspoisoned.com , NewsWeek: https://www.newsweek.com , TheDailyMeal: https://www.thedailymeal.com , Newland and Newland Llp: https://www.illinoisfoodpoisoningattorney.com , FoodPoisoningNews: https://www.foodpoisoningnews.com , FoodSafetyNews: https://www.foodsafetynews.com , NJ.com: https://www.nj.com "
● Accurate and precise ordrel about the difference between natural tomato sauce and canned tomato sauce containing preservatives: natural tomato sauce is rinsable with water and does not stick to the plate while canned tomato sauce containing preservatives is not rinsable with just water and sticks to the plate requiring excessive force and soap to remove the entire tomato sauce
● Stavibs are caused by other stavibs, and both vibrate using all the types of stationarymovements (sliding, bending/folding, rotating/spinning, and vibrating). I have to map all those movements using points, lines, rays, vectors, and scalars
● add "single(s), high/higher, low/lower, summation(s), subtraction(s), couple(s), partner(s), individual(s), collection(s), group(s), singular(s), plural(s), team(s), frame(s), plan(s), space(s), spatial(s), zone(s)" to universally applicable nouns
● Add to daily requirements "sensed ordrels for when to start cleaning or cleaning time". So every activity listed to daily requirement must have ordrels necessitating when to do the required activity. No more using"at least 5 times" because that is only good for memory but not for doing required daily activities in

the long term and is not useful as to reasons for starting the activity or when to do the activities during the day

● Check for types of stationarymovement to include sliding, angling/bending/folding, and rotating/spinning

● Accurate and precise ordrel for when and what to clean and organize: Remove things that should not be there due to causing negatively impactful effects in its present location

● Add "majority/majorities, minority/minorities, main(s)/mainly, common(s), most/mostly, fewer/few, more, lesser/less, little, large/larger, small/smaller, big/bigger, stronger/strong, weaker/weak, slower/slow, faster/fast, tiny/tinier" to universally applicable .... Need to add pronouns, adverbs, quantifiers, determiners, and prepositions

● Efficient guiding statement "[Present tense verb for solving problem] when you sense mostly [problem defining adjectives and nouns]

● Add to religion's daily requirements and efficient guiding methodology "Clean when you see something is mostly dirty, dusty, polluted, and/or contaminated. Organize when you see something is mostly unorganized and messy. Educate and teach accurate and precise ordrels or patterns when you see something lacking education in accurate and precise ordrels or patterns. Feed when you see something lacking nutrients or is malnourished. Eat and drink when you feel mostly hungry, dehydrated, tired, and/or starved"

● Add "Accurate and precise ordrel about daily importance of storytelling, logical reasoning, supersetting and subsetting, organizing, visualizing, problem solving, technique or method exercise repetition for unconscious memorization, accurate and precise ordrel or pattern discovery and creation for solutions, testing for accuracy and precision scope in or applying created or discovered solutions, and questioning: storytelling, logical reasoning, supersetting and subsetting, organizing, visualizing, problem solving, technique or method exercise repetition for unconscious memorization, accurate and precise ordrel or pattern discovery and creation for solutions, testing for accuracy and precision scope in or applying created or discovered solutions, and

questioning are the most essential or necessary activities towards brain development, self improvement, improvement in thought or cognitive processes, and improving environment and each of those activities interconnect with each other and are essential for each other, and the brain of a learner or student memorizes and understands best when storytelling, logical reasoning, supersetting and subsetting, organizing, visualizing, problem solving, technique or method exercise repetition for unconscious memorization, accurate and precise ordrel or pattern discovery and creation for solutions, testing for accuracy and precision scope in or applying created or discovered solutions, and questioning are combined, and lacking doing any such activities causes non-physically malforming mental disorders like depression and unnecessary stress and anxiety disorders"

● Use the audio recording containing the solution towards autistic children who can't talk or socialize and add it "accurate and precise ordrel towards creative storytelling autism for problem solving, being put in an environment forcing oneself to improve and be independent, and enabling autistic people who can't talk and socialize talk and socialize: /////"

● Add "Story creating and communicating activity time" to required activities for religion

● Accurate and precise ordrel towards malnutrition: malnutrition is caused by lack of nutritious foods and/or excessive intake of non-nutritious foods causing the digestive system and immune system to weaken making it harder for the body to absorb nutritious foods if given any

● Add "Creative storytelling autism: being autistic or obsessed over bad things and actions to feel good, like head banging to feel the numbing pain, but at the same time thinking about stories and jokes" and "Creative storytelling obsessive compulsive: being obsessed with creating original stories"

● Add to religion's vocabulary "Autism: mental disorder caused by obsessive compulsive behavior towards bad things or person being obsessed with bad things or bad behavior, like banging their head against objects to feel numb and physically satisfied"

● Add to religion's " Copyright or Copying Notification Law: When you copy from someone else's work and share the information to others, always share the creator's or creators' name(s) and their created article(s), site(s), video(s), image(s), and/or document(s) and organization(s) used for copying and sharing"

● Add "You can't follow parts of this religion or you become disabled or autistic and obsessive compulsive towards bad things and physically weak and mentally slow and/or lack many known accurate knowledge for problem solving, you must follow the entire religion, which will make you super abled or a savant; this is the reason why only 1 out of 10 autistic people become savants"

● Add procedures for "storytelling, logical reasoning, supersetting and subsetting, organizing, visualizing, problem solving, accurate and precise ordrel or pattern discovery and creation for solutions or order and relation methodology statement or patternology methodology statement structure, and questioning" for currently patternology methodology and efficient learning methodology (try to find ways to combine them with memorization, understanding, recording, acting, etc.)

● Replace "sitting" with "sitting and standing" for unconscious thought creating

● Add "interior, exterior, anterior, posterior, medial, stopper(s), releaser(s), starter(s), holder(s), enabler(s), disabler(s), lateral, mechanical/mechanic(s)/mechanism(s), formula(s)/formulation(s), map(s), generation(s)/generator(s), circuit(s), chemistry, physics, electricity, material(s), part(s), series, conversion(s), unit(s), rule(s), component(s), emphasis/emphasized/emphasizing, service(s), tool(s), schematic(s), advantage(s), advancement(s), disadvantage(s), failure(s), success(es)/successor(s), story/stories, pro(s), worthiness, priority/priorities, rank(s), dominance, influence, usefulness, several, severe/severity/severities, intensity/intensities, temporary, chronic, transition(s), switch(es), mild, milder, set(s), negative(s), positive(s), con(s)" to universally applicable

● Add "not practical and dangerous sports, paragliding, skydiving for entertainment, high diving, bull riding, fencing" to list of negatively impactful

● Add "practical and useful sports, mixed martial arts technique improving and exercising, hang gliding technique improving and exercising, parkour or free running improving and exercising, sprinting improving and exercising, swimming improving and exercising, horse riding, archery, climbing, marathons, triathlons, pole vaults, high jumps, hurdles, track and field, shot puts, long jump, javelin throw, jogging, cross country running, throwing and catching sports, juggling, endurance running"

● Add "parachute for atmosphere high drop falling protection exercise and products" to list of positively impactful

● Add "using paragliders or paragliding for human user transportation" to list of Negatively impactful products

● Add "above, below" to universally applicable prepositions

● Add "experience(s), last, first, past, present, future, exposure(s)" to universally applicable nouns

● Check if fractals are always occurring especially if fractals form points or dots and lines to add them onto universally applicable laws and universally applicable nouns

● Add "believing in a flawless and perfect thing" to list of Negatively impactful

● Add sticky foods and beverages for human consumption not removable by only water and requiring soap and applied pressure for removal while rinsing to remove from container after the foods and beverages have been in the container to list of negatively impactful products

● Add to need to create technologies enabling a zero waste and carbon dioxide emitting household through Reusing and recycling all the waste products and carbon dioxide emissions from household manufacturing

● Add list of healthy Mediterranean foods "Shorbat Adas or lentil soup, Cousa mahshi, phasolia, chicken and meat Kabob" and all the other meditarranean foods I looked up and stored on safari web browser

● Add all the products in http://content.time.com/time/specials/packages/article/0,28804,1991 to list of Negatively impactful products

● Do standing stimulating stationary exercise instead of sitting stimulating stationary exercise for long term stimulation due to being better for the body than doing it in sitting positions (which causes physical malformation by doing it daily for long term stimulation for at least a year)

● I believe vibrations are caused by stationarymovements, so sliding, bending/folding, and rotating/spinning cause vibrations, and I think vibrations are the effect of stationarymovements (sliding, bending/folding, and rotating/spinning). If I am accurate and precise, I have to remove vibration from stationarymovements and order it as the cause of vibrations and oscillations, and this is important because I would have discovered that sliding, bending/folding, and rotating/spinning is necessary for and causes synchronization. Practical examples: rotating pistons in engines produce vibrations, folding and unfolding aortas or heart chambers produce blood flow or vibrations in blood to move

● Stationarymovement causes stavibs

● Add "... Consumer ... Independence Enabling, Single User Controlled Portable and/or Autonomously Self Portable, ..."

● Accurate and precise or ordrel to why an effectism economy prevents criminal activity and promotes good activities: In an effectism economy, prices and profits are based on total result of combining all the accurately and precisely known negative effects or bad effects and positive effects or good effects of a product, service, and facility; therefore, when a person creates a mostly negatively impactful product, that product will have a negative price or profit so if a person sold such a product, the person owes the buyer the negative price, and physiologically no one wants to be in debt; also, when a person makes a mostly positively impactful product the buyer will be the one to owe the seller and creator of the product due to having a positive price, and if another product is more positively impactful than some product, then that more positively impactful product is worth more, and people who make such products and buy and use such products will be worth more due to doing more positively impactful effects than they would have with cheaper product according to effectism not a cheaper product according to capitalism, and/or people who discover and create a

more known mostly positively impactful product than any other previous product based on set usage will be richer and allow others to be richer which motivates them to buy the product

● Add "... Consumer Ordreldiscoverycreationimprovementsolutionsreligion Independence Enabling ..."

● Accurate and precise pattern or ordrel about the sensitivity levels and immunization levels: the stronger the immunization or immune system the more sensitive the immune system will be, which will make minor or mild infections feel like major or acute infections due to extremely more accurate pain sensitivity levels for locating infection and infection causer

● Add to vocabulary: "Story (noun): communicated and/or recorded event(s) and action(s) set in a specific setting, main idea or theme, and time frame

● Change "extreme education" to "enforced accurate education"

● Add to laws "Extreme Education or Death Penalty rule for criminal discplinary behavior Ordreldiscoverercreatorimproversolver Behavior and Action Law: the "extreme education" participants are only to those who do mostly bad things such as slavery, sex traffickers, criminals, creating illegal negatively impactful products, and those who force other people to do bad things; the "extreme education" is a freely shown to the public competition and curriculum comprising all criminal applicants to be forced to discover and create positively impactful facilities and products, while making profits based on the effects of the product or faciliy they create, so if one applicant makes a better or more positively impactful product (like a cleaning robot that works) or facility than the other applicant (like a manual cleaning product), that applicant will be richer; and with enough cryptorewardpoints, based on the severity of the crimes committed (the more bad stuff you did, the more cryptorewardpoints you must spend to pay out of extreme education), all extreme education participating applicants can pay out of extreme education using cryptorewardpoints and go back to civilian world."

● Add to laws "Virtually and accurately record ancient and less efficient techniques and methods, historically significant monuments

and older and less efficient and modernly or currently failing technologies and facilities due to much improved technologies and facilities and make them available in virtual space for free, and, after recording such products and places, remove and recycle the unnecessary physical monuments and older and less efficient and modernly or currently failing technologies and facilities"

● Add "Improve oneself or solve bodily problems and record discovered or created improvement techniques or solutions in religion's guide time: ////" to daily requirements

● Add "Improve environment or solve environmental problems and record discovered or created improvement techniques or solutions in religion's guide time: ///" to daily requirements

● Add "... Consumer Biomarkers, Markers, Warning Marking, Mapping, and Navigation Marking Independence Enabling…"

● Add the website and, if possible, the users who posted the content I used for uncategorized list of ordrels.

● Set up a rating of educational content and educational sites to show people which educational site is more educational about some topic than the other sites

● Add "showering and bathing in hot tubs or jacuzzis for entertainment and lazy behavior causing water waste and body damage" to list of negatively impactful products

● Add all stores in https://express.google.com/u/0/stores selling positively impactful products into list of free educational sites

● Add all the initiatives in "need to create " to be laws

● Add "Record and share all accurate positively and negatively impactful effects and the total addition of both effects together in all created and discovered products, actions, events, and living organisms Ordreldiscoverercreatorimproversolver"

● Add to vocabulary "Effectism or effectist economy: Prices or price amount, product value, costs or cost amount, rewards or reward amount, and payments or payment amount equal the total amount of effects created by adding all the accurately negative or bad impacts or effects and accurately positive or good impacts or effects"

● Add "Prices or price amount, product value, costs or cost amount, rewards or reward amount, and payments or payment amount equal

the total amount of effects created by adding all the accurately negative or bad impacts or effects and accurately positive or good impacts or effects Ordreldiscoverercreatorimproversolver Action: this law ensures those who do small amounts of good things or large amounts of bad things are poor and such products are not profitable, while those who do large amounts of good things are rich and such products are affordable to those who do mostly good things; the more good you do the richer you become, while the more bad you do the poorer you become; the more good a product is, the higher or larger the price of the product, while the more bad a product is, the lesser or cheaper the price or the product won't be allowed to be sold due to having a total negative price due to being mostly negatively impactful; this kind of financial economy will produce more innovation in technology and products doing more good than prior products for producers of the innovated product to become richer; Independence Enabling products do more positively impactful effects than dependence enabling products; in this type of economy, there will be cycle of people buying or creating the most positively impactful product to be able to accomplish or cause more good effects to become richer to buy or create more positively impactful products to be able to accomplish or cause more good effects to become richer in a continuous improvement cycle"

● Add all the suppliers providing equipment in
https://www.disabledsportsusa.org/
● Check for types of stationarymovement to include sliding, bending/folding, rotating/spinning, and vibrating
● Add to religion's daily requirements and efficient guiding methodology "Clean when you see something is mostly dirty, dusty, polluted, and/or contaminated. Organize when you see something is mostly unorganized and messy. Educate and teach accurate and precise ordrels or patterns when you see something lacking education in accurate and precise ordrels or patterns. Feed when you see something lacking nutrients or is malnourished. Eat and drink when you feel mostly hungry, dehydrated, tired, and/or starved"
● Efficient guiding statement "[Present tense verb for solving problem] when you sense mostly [problem defining adjectives and

nouns]

● Add "majority/majorities, minority/minorities, main(s)/mainly, common(s), most/mostly, fewer/few, more, lesser/less, little, large/larger, small/smaller, big/bigger, stronger/strong, weaker/weak, slower/slow, faster/fast, tiny/tinier" to universally applicable .... Need to add pronouns, adverbs, quantifiers, determiners, and prepositions

● Accurate and precise ordrel for when and what to clean and organize: Remove things that should not be there due to causing negatively impactful effects in its present location

● Add to daily requirements "sensed ordrels for when to start cleaning or cleaning time". So every activity listed to daily requirement must have ordrels necessitating when to do the required activity. No more using"at least 5 times" because that is only good for memory but not for doing required daily activities in the long term and is not useful as to reasons for starting the activity or when to do the activities during the day

● Add "All children must be taught how to do good things by themselves or independently to be able to live on their own and never restrict and always support an educated child towards becoming independent Ordreldiscoverercreatorimproversolver Behavior and Action Law"

● Add all the above statements into laws

● Add: "Everything required in Ordreldiscoverycreationimprovementsolutionsreligion is necessary to live a long, productive, positively impactful life, or else you will be living with preventable mental and autoimmune disorders, body weaknesses, mistakes, illnesses, injuries, diseases, polluting activities, malnutrition, harmful activities, and brain cells wasted on negatively impactful and dumb memories"

● Add "Memories are physically storing shapes consuming space universally applicable and always occurring Law"
  ○ To cure and prevent Alzheimer's disease, I must find the shapes patterns or ordrels of healthy, fast, and strong brain memory shapes, how they are created to form such shapes and how to prevent the shapes to transform into weaker and slower shapes

● Add all sites in http://www.martindalecenter.com/

● Need to create an online search tool containing all of the internet's free and nonfree educational sites and an organized list containing all the sites in categorized order for people to use, learn from, and know about these sites.

● Add all the free and nonfree educational sites, positively impactful product creating organizations and business sites along their product support site, and all independence enabling product creating orgs and businesses sites along with their product support site available on the world wide web.

● Add all organizations in https://www.waterwastewaterdirectory.com/ and https://buyersguide.mobilitymgmt.com/ and https://mrolinks.mro-network.com/exhibitordirectory and https://www.industrynet.com/companies/ into list of free educational sites

● Add all positively impactful organizations found in https://www.hr.com/buyersguide/company to list of free educational sites

● Add all the free whitepaper providing organizations found in http://www.findwhitepapers.com/vendor-directory

● Add "prepositions" to universally applicable

● Add all the magazines in https://www.freetrademagazines.com/ into the list of free educaitonal sites plus the organizaiton brands site creating each magazine

● Add all magazines in https://magazinegoldcard.com/catalog/

● Add "Profits, payments, rewards, and any form of transactions should be based on total amounts of positively impactful effects and causes of a positively impactful service or product Ordreldiscoverercreatorimproversolver "

● Add "List of all sites containing Ordreldiscoverycreationimprovementsolutionsreligion Guides: include all Facebook page sites and Internet Archive uploads for the guides"

● Add "Always and continuously improve Ordreldiscoverycreationimprovementsolutionsreligion forever

Ordreldiscoverercreatorimproversolver Behavior and Action Law and Rule"

● Add "All living creatures are mortals, and immortal living creatures are not real since every living creature must continuously improve themselves to stay healthy and keep on living or else they die due to having a weakened body not capable of preserving itself Universally Applicable and Always Occurring Law: all living creatures are mortals, and immortal living creatures are not real since every living creature must continuously improve themselves to stay healthy and keep on living or else they die due to having a weakened body not capable of preserving itself"

● Add "Accurate and precise ordrel about shapes in all alphabets, numerals, geometric polygons, and symbols in all languages and microbots: shapes in all alphabets, numerals, geometric polygons, and symbols in all languages can be used to create the skeletal structure of a microbot"

● Add "List of all shapes in all alphabets, numerals, geometric polygons, and symbols in all languages both ancient and current"

● Add "Shapes and shape formation and shape structure variation capabilities for transformation of all alphabets, numerals, geometric polygons, and symbols in all languages can be used to create accurate and precise visuals and images: for example, English capital letter "V" can be used to create angles and English letter "t" can be used to create 2 dimensional coordinates and English capital letter "Y" can be used to create Ecole Polytechnique Institute's microbot and three dimensional coordinates and English letter "o" can be used to create spheres and circles and English letter "c" can be used to represent a curved handle and English capital letter "Q" can be used to represent an inflated latex balloon"

● Accurate and precise ordrel for methods of creating unconscious thoughts and ways to improve brain's unconscious actions: Eye lids closed, sun shining towards eyes, sunlight physical barriers enabling the light to shine or be visible at the top of the barrier and into the eye lids and at the bottom of the barrier and into the eye lids when moving back and forth, and applying stimulating stationary exercise by moving backwards and forwards (This method makes the eyes see shapes and visuals so detailed that it is a great way to

examine shapes and visuals, especially fractals; this method requires sunlight shining through eye lids to create unconscious visual thoughts mostly about fractals); Sitting down with eyes closed or eye lids stopping sight of surrounding environment and moving upper body backwards and forwards while moving the head upwards and downwards and producing rhythmical breathing (This method does not require any light to create unconscious visual thoughts and can be done during the night); Being in a dark room with eyes open or eye lids opening sight of surrounding environment (This method must be in a dark place and will produce mostly unconscious still or stationary fractal images or visuals); Dreaming while sleeping"

● Add "Ways to create unconscious thoughts and ways to improve brain's unconscious actions:

○ Eye lids closed, sun shining towards eyes, sunlight physical barriers enabling the light to shine or be visible at the top of the barrier and into the eye lids and at the bottom of the barrier and into the eye lids when moving back and forth, and applying stimulating stationary exercise by moving backwards and forwards. This method makes the eyes see shapes and visuals so detailed that it is a great way to examine shapes and visuals, especially fractals

■ This method requires sunlight shining through eye lids to create unconscious visual thoughts mostly about fractals

○ Sitting down with eyes closed or eye lids stopping sight of surrounding environment and moving upper body backwards and forwards while moving the head upwards and downwards and producing rhythmical breathing

■ This method does not require any light to create unconscious visual thoughts and can be done during the night

○ Being in a dark room with eyes open or eye lids opening sight of surrounding environment

■ This method must be in a dark place and will produce mostly unconscious still or stationary fractal images or visuals

○ Dreaming while sleeping"

● Need to make list of free educational sites more accurate by categorizing based on "online free news, online free magazine, online free journals, online stores, online retailers, online manufacturers, online suppliers, online product support, free and open access articles, free courses, free educational videos, free educational texts, free educational images"

● Add "candy" to list of negatively impactful …

● Add "rewarding children with fruits" to list of positively impactful

● Add "List of communication technologies and free communication websites, mobile applications, softwares, and web application"

● Add "List of recording technologies and free recording websites (like internet archive), phone applications, softwares, and web applications"

● Add "Only employ Ordreldiscoverercreatorimproversolvers, and never unemploy Ordreldiscoverercreatorimproversolvers, because the organization becomes less positively impactful Ordreldiscoverercreatorimproversolver Behavior and Action Law:////"

● Add "Freedom of positively impactful choices Ordreldiscoverercreatorimproversolver Behavior and Action Law: ///"

● Add "Accurate and precise ordrel for mental state and thoughts occuring in marathon and triathlon competitors: mental state and thoughts occuring in marathon and triathlon competitors are rhythmical Breathing sounds with lyrics and songs corresponding to rhythmical Breathing mental sound

● Add "Exercising, eating only healthy or nutritious foods, and doing only positively impactful actions Ordreldiscoverercreatorimproversolver"

● Answer: "Do drought resistant crops produce more nutritious products for consumers to absorb or less nutritious products than weaker crops or non-drought resistant crops? Do drought resistant crops use more energy and nutrients to develop nutritious products than non-drought resistant crops?"

● Add "Consumer Hygiene and Cleaning Independence Enabling,....

● Add "cleaning, soap, shampoo, hygiene, toothbrushes, toothpastes, cleaning products, organizing" to list of long term

positively impactful

● Add all activities in "required daily activities into list of long term or short term positively impactful

● Add to need to create: 3D printable and safe toothbrushes design

● Add "Accurate and precise ordrel for causes of human deaths, injuries, diseases, illnesses, and sickness: harmful bacteria, viruses, ////

● Add "List for causes of human deaths, injuries, diseases, illnesses, and sickness: malnutrition, pathogens, cancer, tumor cells, gamma radiation, carbon monoxide, heat stroke from sun, dehydration, explosive chemical and/or electrical reactions, electric shock, being burned, being frozen creates frostbites,////"

● Add "List for all of living creatures (bacteria, fungi, animal, plant, and insect) deaths, injuries, diseases, illnesses, and sickness prevention methods, natural bodily regeneration and healing methods, naturally enhanced bodily regeneration and healing methods, artificially enhanced bodily regeneration and healing methods, natural body and health regulation and improvement methods, and artificial body and health regulation and improvement methods: ///"

● Add "Reconstructive surgery successes" to list of long-term positively impactful

● Add "Cosmetic surgery" to list of negatively impactful

● Add "Drugs should never be used to eliminate anxiety and stress, and people should eliminate anxiety and stress by using positively impactful behavior to eliminate the cause of stress and anxiety and solve the problems causing stress and anxiety Ordreldiscoverercreatorimproversolver Behavior and Action Law"

● Add "Consumer … Independence Enabling, **User and Self Controllable** , **Entirely User-portable and/or Self-portable** , …"

● Add "counterfeit products, crime, corruption, criminal activities in businesses, business injustices" to list of Negatively impactful

● Add "Never permit counterfeit products, crime, corruption, criminal activities in businesses, and business injustices, and every manufacturing and distributing process of all manufactured and supplied products must be visually recorded and shown publicly for free Ordreldiscoverercreatorimproversolver Behavior and Action

Law: Never permit counterfeit products, crime, corruption, criminal activities in businesses, and business injustices, and every manufacturing and distributing process of all manufactured and supplied products must be visually recorded and shown publicly for free, and this is possible by using cameras, computers, and the internet"

● Accurate and precise ordrel to prevent counterfeiting, corruption, business injustices, and criminal activities in businesses: to prevent counterfeiting, corruption, business injustices, and criminal activities in businesses, businesses must visually record the manufacturing and supplying process and post the records online for free for the consumers of their business to see"

● Need to edit: Assembly-or-construction (Assembly-or-construction <-> Types-of-construction-or-assembly <-> Physical-construction-or-assembly (Physical-construction-or-assembly <-> Physical-construction-or-assembly-types <-> Fastening (Fastening <-> Fastening-types <-> Screwing and Bolting)) and Chemical-construction-or-assembly (Chemical-construction-or-assembly <-> Chemical-construction-or-assembly-types <-> Gluing) and Biological-construction-or-assembly) and Disassembly-or-deconstruction (Disassembly-or-deconstruction <-> Types-of-disassembly-or-deconstruction <-> Physical-deconstruction-or-disassembly (Physical-deconstruction-or-disassembly <-> Physical-deconstruction-or-disassembly-types <-> Cutting and Drilling and Unscrewing) and Chemical-deconstruction-or-disassembly and Biological-deconstruction-or-disassembly)

● Add all 100 internationally best science, technology, mathematics, engineering, construction, manufacturing museum sites

● Add all sites from seed banks and gene banks containing free educational resources

● Add all 100 internationally best zoos and aquariums sites

● Add all sites for 100 internationally best hospitals, clinics, and medical centers and US nationally 100 best hospitals

● Add all freely educational sites from botanical gardens

● Add all technology corporations' technology and information technology freely educating "support" sites

● Add all sites from national public library per country

● Add all sites from international laboratories funded by their country's governement, and internationally best research and development and private laboratory organizations sites
● Add all search engine sites from the sites for 100 international top universities and 100 top national universities in United States
● Add all library sites and libguides or library guides from 100 international top universities and 100 top national universities in United States
● Add all independence enabling orgs from Inc., Times, Bloomberg, and Forbes containing sites with free educational content
● Review and edit for accuracy: "Colder or lower temperatures causes objects to become less movable and have less movement, while hotter and higher temperatures causes objects to become more movable and have more movement universally applicable and always occurring Law or Rule: Colder or lower temperatures causes objects to become less movable and have less movement, while hotter and higher temperatures causes objects to become more movable and have more movement". Check for temperature of space and vacuums, are space and vacuums cold? Are hotter objects more energetic than colder objects? How does quantum computers work?
● Add all IEEE 360 products to list of positively impactful and list of independence enabling …
● Add "Consumer Vacuum and Vacuuming Independence Enabling.."
● Add "Consumer … Independence Enabling, **Do It Yourself Capable** , **Self-reliant, Self-sustainable** ,…"
● Add "Abortion should not be permitted unless the pregnant person would die during giving birth, during labor, and during pregnancy due to the embryo disorders Ordrel… Law"
● Add "KhanAcademy, KhanAcademy Kids, cK12, PictureThis" to listof Free Educational phone apps
　　○ Glority LLC to Positively Impactful and Independence Enabling
　　○ Add all insect, plant, mathematical solving apps using camera inputs and outputs as positively impactful and

independence enabling products and include their orgs and developers into the list

○ Add all visual recording, sound recording, writing, note-taking, drawing, educational VR and AR, anatomy, mathematics, engineering, physics and chemistry simulators and calculator apps

● Add "Consumer Hydropnics Independence Enabling"

● Add "Hydroponics" to list of positively impactful and list of independence enabling

● Add all open access journals and the orgs, journal publishers, and people who authored them. Most of them can be found in https://www.ncbi.nlm.nih.gov/pmc/journals/

● Add all organisations in UK Research and Innovation (https://gtr.ukri.org/search/organisation?term=*&fetchSize=25&selectedSortableField=&selectedSortOrder=) to list of independence enabling and list of positively impactful orgs.

● Add "List of healthy foods and digestably raw, non-digestably raw or toxic and must be cooked ingredients, sauces, soups, salads, rice and vegetables with or without meat and legume protein dishes, and smoothie recipes"

● Add periods at the end of each appropriate sentence

● Add "Consumer Cutting, Heating, Cooling Independence…"

● Add "Consumer Welding, Fastening, Mixing, and Joining Independence …"

● Add "Consumer hardware tools, electronics, compacters and compacting, pumps and pumping, fans and fanning, mills and milling, grinders and grinding, hammers and hammering, pressure and pressuring, drill and drilling, nuts and nutting, ratchets, bolts and bolting, screwdriver and screwdriving, screw and screwing, and glue and gluing independence enabling"

● Add "hardware tools" to list of long term positively impactful

● Add types of Negative impacts (like "negatively impactful to [myself, environment, certain species, technology, //////]")

● When including "independence enabling products" add list of organizations, products, persons, and businesses creating,

manufacturing, mining and processing, distributing, and supplying such products
● Include all freely educational online magazines, news, television, documentary, and journal outlets in science, technology, engineering, and mathematics
● Add all IEEE suppliers and manufacturers for IEEE suppliers found here in Directory of Suppliers (https://www.globalspec.com/SpecSearch/SuppliersByName/Supplier) and copy and paste all IEEE sites (https://www.ieee.org/sitemap.html)
● Add "list of online free accurate and precise ordrels information creators, providers, communicators, sharers through including person, organization, product (including artificial intelligence), and businesses:
    ○ Add informa, IDG, edX, Coursera, Verdict, and all the ones creating the websites provided on list of free educational websites
● Add daily requirements "Visordrelthinkingordrel, thinkflexsense, and soundordrel, relaxing and calm, and problem-solving meditation (daily and at least 5 times)"
● Add "List of free positively impactful software" (make sure to include whether software is open source) and "list of free positively impactful phone and computer applications" and "list of free web applications
    ○ Kodi: https://kodi.tv/
● Add "YouTube Kids, YouTube" to list of educational apps and include all educational channels for kids (ones from YT Kids and reg YT)
● Add "List of Accurate and precise ordrels about non-accurate and precise ordrels"
● Add "lies, intentional communication of non-accurate and precise ordrels, fake news, dishonesty" in list of Negatively impactful products, etc.
● Add to accurate and precise pattern "Earth's 20th century to 21st century Climate Change is caused by excessive carbon dioxide emissions caused by carbon dioxide emitting human caused activities"

● Add "... Consumer … Independence Enabling, **Cleanable,**
● Add "provider and creator to freely given positively impactful products and accurate and precise information or solutions must be rewarded based on effects and causes or impacts of mostly positively impactful product and accurate and precise information or solutions Ordreldiscoverercreatorimproversolver Behavior and Action Law:///"
● Change "patternology" to "ordrelology"
● Add "All children or people under 20 years old must have free access to all positively impactful products, while the provider and creator to freely given positively impactful products must be rewarded based on effects and causes or impacts of mostly positively impactful product Ordreldiscoverercreatorimproversolver Behavior and Action Law:///"
● Define "Problem(s) (result noun): order and relation containing mostly negatively, harmful, dangerous, or bad impactful effects and causes or negative impacts"
● Define "Solution(s) (result noun): order and relation containing mostly positively, beneficial, or good impactful effects and causes or positive impacts"
● Add "When a discovered mistake, accident, and other unintentional or unintended problems occur, must record the unintentional or unintended problems, and solve the problems so the problem never occurs in the future and the solution makes it preventable Ordreldiscoverercreatorimproversolver Behavior and Action Law:////"
● Add "... Consumer Independence Enabling, **Multiple user and singular user capable** ,..."
● Add all Independence Enabling products in separate categories under "... Consumer [independence enabling product and/or result of using product like transportation, production, manufacturing, etc.] …"
● Add need to create "Ordrelanguage (Accurate and Precise Visual, Shape, Order, Relation, and Sound Navigation, Instruction, Creation, Organization, Improvement, Solution, Description, Detail, and Prediction or Easily Understandable and Memorizable and Predictable Language): combines the most accurate and precise

mathematical fractals, rules, theories, theorems, formulas, conjectures, terms, postulates, etc. (especially coordinate and dimensional geometry, mathematical logic, trigonometry, calculus, and linear algebra rules); the most accurate and precise logic rules, terms, etc.; the most accurate and precise visual language rules (especially the human anatomy of pronunciation types); the most accurate and precise language rules in all languages (including Japanese (especially since it is the language that started animations), mandarins, computer, Spanish, French, etc. languages); the most accurate and precise English language rules (mainly the useful, necessary, not confusing and not frustrating rules and my new version of English language establishing more accurate and precise rules); the most accurate and precise symbols, signs, shapes, pronunciation sounds, visuals, images, linguistics, hieroglyphs, networks, supersets and subsets, cause and effects, descriptions, details, definitions, combinations, separations, etc.; the most accurate and precise engineering, science, mineral, atomic models (including atomic orbitals), visuals, shapes, etc.; Human Rhythmical Vocal Sound and Anatomy Language: includes different types of human sound (including beatboxing sounds); animal vocal sound and anatomy language; machine and technology noise sound and anatomy language; the most accurate and precise sound oscillation, vibration, frequency, and wavelength models (including wave mechanics and wave nodes); the most accurate and precise measuring, drawing, sketching, designing, modeling, and recording methods, techniques, etc.; the most accurate and precise art, animation, cartoon, and simulation techniques, methods, etc.; the most accurate and precise cause and effect storytelling, subset and superset storytelling, order and relation storytelling methods, techniques, etc.; the most accurate and precise reading and writing techniques, methods, etc.; the most accurate and precise shapes, position, and direction of change (such as direction of effects, causes, movement, force, vibration, energy, pressure, and other types of change); the most accurate and precise axiom, set theory, number theory, category theory, numerals and numeral systems (has to look in a way that is graphable and visual), combinatorics, arithmetics, and topology

methods, rules, etc. (must find a way to make it visually Accurate and precise; also these are the foundations of mathematics so make sure these are the mathematical part of the foundations of this language); the most accurate and precise functions and input and output pairing methods (including bijection, injection, and surjection in a visual way); accurate and precise maps of all known visuals; accurate and precise ordrels in science, technology, language, mathematics, analytics, logic, health, nature, morals (including ipathy), engineering, and more; include all ways to improve language to be more accurate and precise; include all types of analytical, scientific methods and graphs and tables and charts and diagrams, engineering methods and drawings, analysis, observational, sensory, cognitive, cognition, evidence, and historical sources (primary and secondary sources); contain all accurate and precise mechanical designs and mechanisms, electrical circuit designs or schematics, chemical formulas, neural networks, DNA sequences, genome and cell maps or structures, molecular and subatomic and atomic structures"

- ○ The language has rules and two of those rules is "continuous improvement" and "visually and sound accurate and precise", and "visually and sound accurate and precise" means everything must be accurately visualized (is visually congruent and equal to definition) and contain a unique pronunciation. For example, letters are defined by their pronunciation, so use vocal anatomy pronunciation per letter to create vocal anatomy visual based letters, and numbers are defined based on quantity, so use shapes corresponding to the quantity defined in each number
- ○ This language must be computer programmable, can be used for instructing any technology (including manufacturing technology and Artificial Intelligence) and a better, easier, more precise, more accurate language than any other language including mathematical and logic language
- ○ Make sure this language has a "Continuously changing for improvement rule"
- ○ All has to be visual and sound accurate and precise

○ Might need to use accurately structured and grouped dashes and dots for numbers to correspond to the meaning of number and make it shorter than the current non-visually accurate shape of numbers

○ Must contain an archive recording of all ancient and current different languages, numeral systems, visuals, sounds, and measurements

● Add all English vocabulary and grammar rules and list them as "prior 22nd century English version" and add the "after Ordreldiscoverycreatioimprovementsolutionreligion version of English" including my own solutions to English language

○ For my version of English language, I must remove all silent letters found in result nouns; add the added endings for past tense verb, present tense verb, future tense verb, adjective type of result noun, plural type of result noun, singular and plural type of causer noun for result noun; change result noun word structure to comprise suffix, prefix, and root containing the word organization in significant words found in its definition; remove meaningless words or junk words and phrases or dumb words (such as the ones taught in College Composition to not be used due to having no meaning); get rid of words with the exact same meaning, such as words with way too many synonyms that mean the same thing or have the same definition

● Add: "... superset Law to subset rule" and "subset rule to superset law"

● Add: " Ordreldiscoverercreatorimproversolver's Religion" or "Ordreldiscoverycreationimprovementsolutionic Religion" or "Ordreldiscoverycreationimprovementsolutionsreligion"

● Remove "pattern" and replace with "ordrel"

● Define "ordrel(s) (noun): order and relation"

● Define "ordreler(s) (noun): orderer(s) and relationer(s)"

● Define "ordrelure (future tense verb), ordrelast (past tense verb), ordrelent (present tense verb), ordrelive (adjective)"

● Add "when creating a noun word make sure the noun word comprises suffixes, roots, and prefixes containing organized and grouped letters similar to the one in its definition

Ordreldiscoverercreatorimproversolver Behavior and Action Law: like thinkflexsense and ordrel"

● Add "Two types of nouns: "causer nouns" (the nouns with added ending in "...r", like causer, doer, creator, maker, etc.) and "result nouns" (the nouns with no added ending, ending in "ion" or "meant" like cause, creation, arrangement, organization, etc.)

● Add "when creating future tense verb, present tense verb, past tense verb, adjective, causer type noun for English result type noun make sure the noun has an added ending in "...ure" for future tense verb type of result noun, "...ast" for past tense verb type of result noun, "...ent" for present tense verb type of result noun, "...ive" for adjective type of result noun, and "r" or "er" for causer type of result noun, and "s" for plural type of singular result nouns and singular causer nouns.

● Add "Never create or do entertainment activities luxurious activities, and vacations because doing such activities won't improve anyone and the environment but harms and wastes the environment Ordreldiscoverercreatorimproversolver Behavior and Action Law: ////

● Add "Never create or support casinos, luxuries, spas, and resorts, because doing such activities won't improve anyone and the environment but harms and wastes the environment Ordreldiscoverercreatorimproversolver Behavior and Action Law

● Add "Hotels, lodging, hostel, motel" to List of short-term positively impactful Products, facilities, services, and Actions

● Add "Houses, housing" to list of long-term positively impactful Products, facilities, services, and Actions

● Add "casinos, luxuries, spas, and resorts" to list of Negatively impactful Products, facilities, services, and Actions

● Edit "visp" to visordrel" and "pat" to "ordrel" and "Vispthinkingpat" to visordrelthinkingordrel"

● Add "Recording, evidence, proof, I-pathetic violation observation, and accurate and precise argument or counter argument are required for criminal or wrongdoer trials, criminalizing anyone, and imprisoning anyone Patterndiscoverercreatorimproversolver's Behavior and Action Law"

● Add "Patterndiscoverycreationimprovementsolutionsrel follower title ranking by including specialization in universally applicable or always applicable nouns procedure: every person following this religion starts as "patterndiscoverercreatorimproversolver" and increases their titles name through specializing in universally applicable or always applicable noun topics like "sizer, informer, exerciser, technician, logician, techniquer, developer, evolver, etc."; for example, "patterndiscoverercreatorimproversolver-sharersizer-rewarder-separator-copier-establisher-applier-saver-protector-preserver-combiner-experimenter-tester-examiner-informer-...-etc."

● Add "Never Create Negatively Impactful Products Patterndiscoverercreatorimproversolver's Behavior and Action Law://///"

● Add "Negatively Impactful Products and Actions Are Problems Always Applicable Law://///"

● Add to need to create "Abled, Physically Disabled, and Mentally Disabled Consumer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Independence Organizations, Products, Person, and Businesses United Groups"

● Add "Gods, monsters, ghosts, demons, devils, witches, witchcraft, alchemy, magic, magicians, angels are imaginary creatures not existing in reality universally applicable law: Gods, monsters, ghosts, demons, devils, witches, witchcraft, alchemy, magic, magicians, angels are imaginary creatures and only myths."

● Add "Never support and conduct slavery://///"

● Add "Dimensional geometry and dimensional space patterns universally applicable and always occurring Law: //////"

● For identifiying and describing Patterndiscoverercreatorimproversolvers: first, include full legal name; second, include person's specializations and focus areas or topics using universally applicable nouns; third, include persons's accomplishments, such as completed projects, activities, problems solved, completed competitions, awards, and more; fourth, include

person's pattern or order and relation discoveries; fifth, include person's order and relation or pattern creations; sixth, include person's pattern improvements or changing and improving patterns for something easier, faster, and more accurate and precise pattern; seventh, include person's pattern or order and relation solutions

  ○ Add in alphabetical full name, specialization :"List of Patterndiscoverercreatorimproversolvers: currently only me (Ibrahim B. Rammaha, Patterndiscoverercreatorimproversolver-logician-informer-organizer-vispthinkingpater-thinkflexsenser- exerciser-observer-learner-patternologist-learningologist-teacher-educator-helper-combiner-separator-copier-recorder-constructor-"positively impactful and I-pathetical rule maker or ruler and lawyer"-geometer-vispenlogister-visualizer-thinker-accurater-preciser-"accurate-ologist, -ologist, precise-ologist"-orderer-relationer-ordreler-patterner: pattern creations <-> created vispenlogist; created the foundation for the most accurate, precise, continuously and always improving, positively impactful religion "Vispthinkingpat, Thinkflexsense, and Soundpat Religion" or "Patterndiscoverycreationimprovementsolutionsrel" and its foundational Guide called *Vispthinkingpat, Thinkflexsense, and Soundpat Religion or Patterndiscoverercreatorimproversolver's Religion or Patterndiscoverycreationimprovementsolutionsrelic Religion Guide or Patterndiscoverycreationimprovementsolutionsrel Guide*)"

  ○ Add next to every Patternsiscoverercreatorimproversolver "specializations and focused universally applicable topics and ideas, projects worked on, pattern creations, pattern improvements, pattern solutions, pattern discoveries"

● Add in alphabetical order "List of independence enabling, portable, non-contaminating, non-polluting, repairable products: Consumer Household Aquaponics, Consumer Household Vertical Farming"

● Add in alphabetical order "List of Negatively Impactful or Problematic Products, Services, and Actions: sprinkles, glitter,

carpets, junk or unhealthy and not nutritious foods, human artificial and natural toxins and poisons for human ingestion, canola oil for human ingestion, Mazola oil for human ingestion, Beauty competitions, jaccuzi, High Fructose Corn Syrup for human ingestion, Wheat Flour for human ingestion, cream for human ingestion, hydrogenated fats for human ingestion, artificial food coloring for human ingestion, Harmful and Addictive and Non-medical drugs, inhaling smoke from burning Tobacco, Parties, Celebrations, Strip Clubs, Brothels, Hair styling gels, Night Clubs, Human and Sex Trafficking, Monounsaturated fat containing Vegetable Oils, Hooka, Cocaine, Recreational Drugs, Entertainment, Vacations, Artificial Food coloring for human ingestion, harmful and addictive drugs for ingestion, whip cream for human ingestion, nail polish, fake nails, slavery, sex trafficking, human trafficking, facial makeup, cheese for human ingestion, butter for human ingestion, nonmedical alcoholic beverages for human ingestion, tattoos, eye contacts, piercings, high heeled shoes, pointy or triangular toed shoes, jewelry, prostitution, fornication, artificial polluting sponges, etc."

● Add "Never party and celebrate for accomplishing anything because it won't improve anyone and the environment in accomplishing anything Ordreldiscoverercreatorimproversolver Behavior and Action Law: Never party and celebrate for accomplishing anything because it won't improve anyone and the environment in accomplishing anything"

● Add "Never create and use drugs for recreational purposes but can create and use only for solving medical problems Ordreldiscoverercreatorimproversolver Behavior and Action Law: ///"

● Add "Never support and conduct human, other animal, and sex trafficking operations Ordreldiscoverercreatorimpriversolver Behavior and Action Law:///"

● Add "Never support, use, and create negatively impactful actions, Services, and products Ordreldiscoverercreatorimproversolver Behavior and Action Law:////"

● Add "List of Negatively Impactful or Problematic Products, Services, and Actions and Non-accurate and Precise Information Producing Organizations, Persons, Products, and Businesses:

include Dairy Queen, all junk food restaurants, all sex trafficking orgs and people, include all human trafficking and maid selling or renting and slaving orgs and persons, all pornography creating orgs and persons, all terrorist orgs and persons, all criminal orgs and criminals (must include rapists, serial killers, molesters, robbers, thieves), all harmful and addictive drug creating and selling orgs and persons, all theistic and deistic religion enforcing and preaching orgs and persons (include islam, Christian, Judaism, Hinduism, Buddhism schooling orgs and informers)"

● Add "List of Long-term Positively Impactful Solutions, Products, Services, and Actions: Consumer household aquaponics, consumer household vertical farming, Athletics competitions, product accuracy competitions, product precision competitions, product strength competitions, product speed competitions, product durability competitions, product efficiency competitions, product capability competitions, solar panels, laptops, internet (including fiber optics, satellite, and cable internet), internet of things, self-charging cars (solar charging and electrical charging enabled), water filters, growable fruits and vegetable seeds, water, distillation equipment, cameras, laboratory equipment, measuring tools, manufacturing technology, pharmaceutical and medicine creating equipment and technology, recyclable products, minerals, 3d printers, cnc machines, hardware tools, diy products, towels, dry cleaning machines, cleaning activities, soap, cleaning brushes, washing and drying machines, dishwasher technology"

● Add "List of Short-term Positively Impactful Products, Actions, and Services: food, medications, napkins, //////"

● Add table of contents at the top or beginning of document

● Define each word in "geometrician(s), vispenlogister(s), patternologist(s), learningologist(s), accurater(s)/accurate-ologist(s), -ologist(s), preciser(s)/precise-ologist(s), orderer(s), relationer(s), patterner(s)" and include "specializes, focuses, applies, creates, solves, improves, discovers, …" in each definition.

● Add "Internet of Things" for list of independence enabling

● Add list of humanitarian organizations, products, person, and businesses (like Americorps, Peace Corps, United Nation, USAID, …); list of organizations, products, person, and businesses offering

and providing free educational content and free positively impactful software (U.S. Census Bureau, MIT OCW, Coursera, Global Health Media, Linux and GNU and BSD related softwares, …); and list of organizations, products, person, and businesses enabling employees and consumers to be sustainably independent or Abled, Physically Disabled, and Mentally Disabled Consumer and Employee Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Independence Organizations, Products, Person, and Businesses)

- ○ Add the website related to every org
- ○ Add all manufacturers and distributers of independence enabling products plus their website (include IEEE Engineering 360)
- ○ "SolarPowerEurope (http://www.solarpowereurope.org/)
- ○ Add "Komatsu (https://www.komatsuamerica.com/), OEM Controls (https://www.oemcontrols.com/), LEMO (https://www.lemo.com/en), Microship (https://www.microchip.com/), EE Tech (https://eetech.com/), Logitech (https://www.logitech.com/en-us), Dell (https://www.dell.com/en-us)
- ○ Add "Taylor Industrial Electronics" (www.taylorwi.com/)
- ○ Add "Informa", "Traco Power"
- ○ Add "vention" and all other original equipment manufacturers
- ○ Add "irobot", "Brain Corp", "CISCO" to "list of organizations, products, person, and businesses enabling employees and consumers to be sustainably independent"
- ○ Add "Honeywell"
- ○ Add all internet of things supplying orgs
- ○ Add all vacuum, rechargeable battery, fan, hvac, pump, circuit, cable, wire manufacturing and supplying orgs
- ○ Add "Apple, Google, Sony, Samsung, DuckDuckGo, Ecosia, NETGEAR, Lenovo, and all search engines, free digital mapping and navigation, phone, computer, internet, and

independence enabling technology manufacturing and supplying companies"

○ Add all solar charging, flying, and electrical car/vehicle/truck/boat/ship/submarine/autonomous unmanned underwater vehicle, robot, nanobot and drone manufacturing and supplying companies

○ Add all the technology, machining, infrastructure, utilities, manufacturing technology, robotics technology, construction technology, consumer transportation technology, ledger technology, cryptocurrency, satellite internet, drone technology, sensors (including cameras, audio recorder etc) and recording technology, hardware and construction tools, household cleaning products, household 3D printers, household kitchen appliances, water filters technology, solar panels and fusion technology and wind turbine technology, rechargeable battery, athletics and survival prep and emergency kits and laboratory technology and expedition technology (like expedition vehicles, camping and hiking products), self grooming or cleaning products, farming technology, gardening products, seed products, metal and carbon monoxide detectors, household laser and CNC machines, household manufacturing technology supplying, manufacturing organizations to the "list of organizations, products, person, and businesses enabling employees and consumers to be sustainably independent"

○ Add all IEEE products and their manufacturers like Rockwell Automations.

○ Add all the online technology, construction equipment, and laboratory equipment selling retail stores like Amazon, Hardkernel, Nvidia, Intel, Best Buy, Alibaba, Ace Hardware, Home Depot, Adafruit, Sparkfun, Raspberry Pi, Arduino, Mouser Electronics, ASUS, Hewlett Packard, Newegg, H-Node, Texas Instruments, Digi -Key , ///// (took a video of all of them with the phone)

○ Add "GoPro, Canon Inc, Fitbit, Under Armour, Addidas, Nike, all sports, camping, sensory recording, survival item producing companies"

○ Add "Casio and all calculator, simulations, and other measurement technologies manufacturing, designing, and supplying companies and orgs"
- Add "list of free positively impactful and educational apps"
  ○ Include "Assemblr" and all the other freely educational apps (especially the ones you downloaded
- Add "satisfactory effort, task, action, technique, and method or non-satisfactory effort, task, action, technique, and method to achieving desirable result Law"
- Add "Task and effort corresponds or does not correspond to the desirable result Universally Applicable Law"
- Add "Lacking Necessary Products for a Task is a Type of Task Interference or Task Hindrance Universally Applicable Law: ////"
- Add "Reward per Effects for Doing Good Actions or Positively Impactful Actions For Free Patterndiscoverercreatorimproversolver Behavior and Action Law or Rule: includes free education, free positively impactful products to children and those in need to do positively impactful actions, free and open source positively impactful software, etc."
- Add "Improvement Patterns Establishes Always Changing More Positively Impactful Effects and Causes Patterns Universally Applicable and Occurring Rule or Law"
- Add a law or rule stating that laws or rules must change when an accurate and precise pattern disproves it, so the law and rule must correspond or resemble the accurate and precise pattern
- "Deistic and theistic religions aren't accurate Law: Islam, Christianity, Judaism, and all other deistic and theistic religion's aren't accurate due to ignoring an always applicable and occuring observation of everything lacking somethings which causes everything to be imperfect, and ignoring an always applicable and occurring observation of everything (including every event) containing causes and effects"
- Add "Collectivism isn't accurate Law: Collectivism doesn't work because every individual has biological survival or preservation needs causing them at some point in time to prioritize their individual needs over others in the same group; this is shown by all communistic leaders, totalitarian leaders enforcing collectivism, and

dictators assassinating competitors and rebels and producing mass genocide to prioritize their individualistic needs and goals."
● Add "Individualism beliefs improves individuals and groups of individuals more than collectivism beliefs Always Occurring and Applicable Law: ////"
● Add " Public Owned for Innovation Natural Star, Planet, Asteroid, Moon, Space Chemical and Element Deposit Mines Improversolver Behavior and Action Law : every person can have free access to these mines for developing solutions and creating and testing better technologies, etc; when using such mines must record everything you do or robot does with the mined element in the mining, manufacturing, and testing phase and share it to the public for free"
● Add " Patterndiscoverercreatorimproversolver : a follower of Vispthinkingpat, Thinkflexsense, and Soundpat Religion or Patterndiscoverycreationimprovementsolutionsrel, and who daily develops patterns for solutions to improving things or making things more accurate and precise, more knowledgeable, stronger, more durable, softer, smarter, environmentally safer, less labor, less energy consuming, easier, last longer, and/or faster"
● Add "Logical reasons contain cause and effect in a form of premises and conclusions theory"
● Add to definition "Improvement(s) (noun): easier and/or faster accomplishing task, result, outcome, etc.; types of improvemt(s) making things more accurate and precise, more knowledgeable, stronger, more durable, softer, smarter, environmentally safer, less labor, less energy consuming, easier, last longer, and/or faster"
● Add "Independence Enabling Technology knowledge requirements: electricity components and construction methods, robotics components and construction methods, sensors components and construction methods, computers components and construction methods, wireless communication components and construction methods, transportation components and construction methods, machine learning algorithms components and construction methods, software development components and construction methods, simple machines components and construction methods"

● Add "Minimum 2 of the same thing for everything survival, preparation, safety, and strategy method"
● Add "Patterndiscoverycreationimprovementsolutionsrel: Religion about pattern or order and relation for solutions to improving anything, and another name or title for Vispthinkingpat, Thinkflexsense, and Soundpat Religion"
● Add "Patterndiscoverycreationimprovementsolutionsrel" and "Patterndiscoverercreatorimproversolver"
● Add end of each law either "universally or always applicable and occurring pattern law or rule" or "Patterndiscoverercreatorimproversolver Action and Behavior Pattern Law or Rule"
● Add "Non-sexual reproduction Improversolver Behavior and Action Law: can only reproduce in a non-sexual way or without having sexual intercourse"
● Add "non-sexually pregnant females must be supported and cared for during pregnancy Improversolver Behavior and Action Law"
● Might need to change "laws" to "rules", because "Laws" makes it seem non-improvable and non-evolving while "rules" seem improvable and evolving
● Add "Science, health, technology, engineering, logic, mathematics or SHTELM curriculum instead of STEM curriculum"
● Add all the phone screenshotted educational websites, all the uncategorized recorded websites on libreoffice writer, and all the uncategorized list of educational websites recorded on i-phone page app, then alphabetize the list of free educational sites
    ○ When copying and pasting, make sure to do alphabets separately (first, copy and paste the "a"s then the "b"s)
● Add "Precise Patterns Establish Predictable and Forecastable Patterns Always Applicable and Occurring Rule or Law"
● Add "Repetitive Patterns Establish or Result Precise Patterns Always Applicable and Occurring Rule or Law"
● Add the non-cloud stored uncategorized lists on laptop to this document
● Add the scientific **formulas** and **terms** and mathematical formulas, logarithms, and terms and technical/technological

formulas, procedures, and terms and <u>engineering</u> formulas and terms, <u>logistics</u> formulas and terms and logic methods, formulas, diagrams, and terms; economic, banking, investments, and financial formulas, transactions, currencies, money, transaction methods (like bartering, money transactions (gold and silver corresponding money), fiat currency (current paper money not backed by gold and silver)), and terms.

● Add to "what I need to create": cryptocurrency and cryptorewardpoints; I probably will have to use both cryptocurrency instead of bank money and cryptorewardpoints (needs wearable sensors) to give away free stuff to people who do good things and children

● Add to "Ipathy Law": Everyone wants to be given or told the truth and only the truth unrestrictedly, so everyone should tell or share the truth unrestrictedly and never lie to others and restrict the truth from others

● Include all of CRC handbooks of chemistry, engineering, physics, and mathematics on this religion's document: cnc handbooks contain chemistry, engineering, physics, and mathematics formulas, and copy and paste those formulas into the formula list titled "... formulas … in list format or structure"

● Need to edit: Types of mathematical combination methods: addition, multiplication, conjugation, exponent method, ///

● Need to edit: Types of mathematical separation methods: subtraction, division, factorization, rooting method, logarithm, differentiation, simplification, /////

● Add "Sensored technology Law: every technology created must contain visual, sound, force, pressure sensors (this is necessary for user educational recordings)"

● Add: "... Consumer Sensor Technology Usage and Production Independence Enabling …"

● Add "... Consumer Soil Microbes, Microorganism Growing, … , Independence Enabling …"

● Add "... Consumer Galaxy, Comet, Moon, Meteoroid, Rays, Orbit, … Exploration, Navigation, …"

● Add and edit: "External and internal, corresponding/congruent/equal giving and taking pattern

establishes sustainable preservation and growth/productivity theory: examples are the cells in the body constantly giving parts of themselves to create more cells, but taking nutrients to stay alive; sustainable aid involves giving to the poor but also buying from the poor to establish profitable businesses; and more"

● Add "types of growth and transformation layers: line layers, circle layers, dot or point layers, and polygon layers"

● Add "multiverse, event, methods, techniques, … exploration, navigation, and mapping …"

● Add "Internal or Interior and External or Exterior Properties, Effects, Causes: ////////"

● Edit "required daily activities list" by removing "at least 5" from title and including all required activities, while taking all the activities listed into the list to be also a header with its own section defining and explaining it

● Use the stuff I came up in vispenlogist to establish a universal cycle to come up with "... cycle Laws"

● Add "Patterndiscoverycreationimprovementsolutionsrel Specializations: includes Patterndiscoverycreationimprovementsolutionsrel Specialization Focusing Groups Per Universally Applicable Nouns (like Patterndiscoverycreationimprovementsolutionsrel Director Focused and Specialized Group, Patterndiscoverycreationimprovementsolutionsrel Logician Focused and Specialized Group, Patterndiscoverycreationimprovementsolutionsrel Manager Focused and Specialized Group, Patterndiscoverycreationimprovementsolutionsrel Mathematician Focused and Specialized Group, Patterndiscoverycreationimprovementsolutionsrel Combiner Focused and Specialized Group, Patterndiscoverycreationimprovementsolutionsrel [Universally Applicable Nouns] Focused and Specialized Group)"

● Add to universal noun, adjective set: "known, unknown, prior, before, after, another, dominance/domination(s), minor/minorities/minority, majority/major/majorities, damage(s), fail(s)/failure(s), success(es), successor(s), mistake(s), cost(s),

version(s), always, occurrence(s),
contribution(s)/contributed/contributing/contributor(s)/
contribution's/contributions'/contributor's/contributors',
establishment(s), helping/helped/helper(s)/helpful,
supporter(s)/supporting/supported, generic, common,
comprehensive, inclusive, exclusive, infograph(s), information,
development(s), unit(s), distance(s), application(s), striation(s),
stripe(s), closer, further, lack/lacking/lacked, relic(s),
investigation(s), management(s), controler(s), inside, outside,
angle(s), side(s), surface(s), longer, shorter, radiation(s),
reaction(s), level(s), exposure(s), controller(s),
containment(s)/container(s), storage(s), expansion(s), shrinkage(s),
expulsion(s), capture(s), barrier(s), interaction(s), activity/activities,
action(s), layer(s), appearance(s), section(s), prediction(s),
depiction(s), production(s), path(s), interference(s), necessary,

couple(s), partner(s), individual(s), collection(s), group(s), singular(s), plural(s), team(s), product(s), action(s), event(s)"
- ○ Add "backward/back/backside, forward, front/frontside, downward/downside/down, upward/upside/up, toward, target(s), leftward/left, rightward/right, inward/inside/in, outward/outside/out, lead(s), leaving, arriving"
- ○ Add "science(s), technology/technologies, engineering, mathematic(s), history, analytical, graph(s), table(s), methods, drawings, analysis, observation(s), sensory, cognitive(s), cognition, evidence(s)
- ○ Add or check for: "increase, decrease, growth, expansion, shrinkage, sensor(s), interaction(s), construction(s), putting, giving/gave, taking/taken"
- ○ Add to universal noun set: "intermission(s), intervention(s), use(s), usage, phase(s), stage(s), juncture(s), moment(s), period(s), innovation(s), identification(s)/identity/identities, standard(s), qualification(s), capability/capabilities, reason(s), adjustment(s), location(s)"
- ○ Add "interpretation(s), memorization(s), understanding(s)"
- ○ Add "orienting/oriented/orientation(s), obtaining/obtained/obtainment(s), notation(s)"
- ○ Add "flaw(s), mistake(s), harm(s), damage(s), failure(s), feature(s), weakness(es), strength(s), advantage(s), disadvantage(s), durability/durabilities, inadequacy/inadequacies, adequacy/inadequacies, longevity/longevities, responsibility/responsibilities, liability/liabilities, imperfection(s), answer(s), problem(s), answerability/answerabilities, culpability/culpabilities"
- ● Add "Paths require direction, position, and location for identification and navigation universally applicable law"
- ● Add "My senses are my guide, my thoughts are my instructor, and my body is a tool I must care for Always Applicable and Occurring Law: for example, when you procrastinate, that is due to your thoughts visualizing procrastination"
- ● Add "... Consumer Positively Impactful Artificial Products Independence Enabling, ..."

● Change or add to "universal": universally applicable and always Occurring"
● Add to universal noun set: "verification(s), proof(s), evidence(s), example(s), theorem(s), connection(s), cycle(s), focus(es), attention(s), emphasis/emphases, ignorance/plural ignorance, singular/singularity, condition(s), implication(s), inference(s), indication(s), association(s), entity/entities, matrix/matrices, vector(s), piece(s), part(s), pair(s), dimension(s), space(s), notion(s), notation(s), concept(s), value(s), setting(s), environment(s), surrounding(s), measurement(s), merge(s), selection(s), plan(s), strategy/strategies, preparation(s), harm(s), benefit(s), comparison(s), customization(s), personalization(s), capacity/capacities, production(s), specialization(s), generalization(s), source(s), evidence(s), emission(s), radioactivity/radioactivities, decay"
　　○ Add "similarity/similarities, difference(s), share(s), transaction(s), distribution(s), information, detail(s), instruction(s), guidance(s), direction(s), position(s), copy/copies, replacement(s), containment(s), container(s), ///"
　　○ Edit "logical reasoning" in universal noun set to "logic, reason(s)"
　　○ Add "beginning(s), ending(s)/end(s), starter(s)/stoper(s), entrance(s), exit(s), trace(s), preparation(s), switch(es), route(s)"
● Add: "Preparation Law: you can prepare for anything"
● copy all the words in universal nouns, past tense verbs, gerunds, and present participles set, and turn them into Laws because they always occur in every situation and thing
● Add kinesthetic exercises (such as stimulating stationary exercising with eyes closed; like eyes closed push-ups and sit-ups) for "sensory exercises"
● Add "Geometrical Patterns Resulting in Linear Algebraic Patterns Cycle Law: due to everything being able to be identified through lines and points, everything can be identified through matrices and vectors."
● Add "Accurate pattern: pattern or order and relation verified to be correct or true in terms of its described or defined order and

relation."

● Add "Precise pattern: pattern or order and relation containing a series of steps or sequence resulting in similar results each time applied causing a forecastable or predictable trend or result."

● Add and organize the universal present participles in the universal present participles set into the "environmentally accomplishing technique exercises" under technique exercises

● Add "... Consumer Identification Independence Enabling …"

● Add the accurate number that should be done next to each required activity in the required activities list (at least 5 times or at least 5 things, etc., may differ from at least 5 to 15 times and at least for 5 things to 15 things)

● Need to edit stimulating stationary rules and laws to "stimulating exercises" due to the fact that sprinting feels as good and as incredible and as addictive as the stimulating stationary exercise I am addicted to right now. So, must subset stimulating stationary exercise and stimulating transportation exercises (like straight leg walking, sprinting, skipping, boxing formation toe to toe movement, hopping, jumping, side to side shuffling) for superset stimulating exercises

● Combine the lists into one list titled "accurate and/or precise patterns describing -> universal nouns, gerunds, and products"

● Add "adventure racing techniques exercises, multi sport racing technique exercises (marathons techniques exercises, aquathlons techniques exercises, track and field techniques exercises, triathlons techniques exercises, duathlons techniques exercises, quadrathlons techniques exercises, biathlon techniques exercises)" to "bodily accomplishing techniques exercises" and "evolving exercises (but needs to be separated into "aerobic, anaerobic, balance, etc."

    ○ Add "high intensity training" under both

    ○ Add "Evolving exercise and Bodily accomplishing techniques exercise similarity Rule"

    ○ Add "lifting techniques exercises, carrying techniques exercises" to bodily accomplishing techniques exercises

    ○ Need to establish a rule that only the techniques for the sport activity go to "techniques exercises" while the full range

of activity goes to types of exercises in evolving exercises and in bodily accomplishing techniques exercises

● Add to bodily accomplishing techniques exercises: "Myself care and survival safety techniques exercises, myself care and survival medical techniques exercises, myself care and survival medicinal techniques exercises, myself care and survival diet techniques exercises, myself care and survival filtration techniques exercises"

● Add to environmentally accomplishing techniques exercises: "External care and survival rescue techniques exercises, external care and survival safety techniques exercises, external care and survival medical techniques exercises (such veterinary techniques exercises, ////), external care and survival farming techniques exercises, external care and survival agricultural techniques exercises (such as botany techniques exercises, flower garden techniques exercises, arboriculture techniques exercises, ///), external care and survival filtration techniques exercises"

　○ Add to "technique exercises" Environmental Improvement Techniques Exercises, Self Improvement Techniques Exercises, Task Improvement Techniques Exercises, Material Improvement Techniques Exercises

● Add to vocabulary: micropattern (accurate and precise subsets, premises, or small details combined resulting in an accurate and precise general statement or superset; examples are single observations, /////) and macropattern (accurate and precise general statements, supersets, or conclusions such as methods, theories, laws, techniques)

● Edit for accuracy and precision "Connection law: everything is mentally (invisibly/visibly/thoughtfully/behaviorally), directly/indirectly, physically (mechanically/electrically(cable-ly/wire-ly/cord-ly)/signally/wave-ly(wirelessly(Signal-ly))/chemically), sensually/sensationally/observationally (visibly/orally/soundly/olfactorally), and/or non-biologically/biologically connected."

● Add to key vocabulary: Patterndiscoverycreationimprovementsolutionsrel or Patterndiscoverercreatorimproversolver's Religion or Vispthinkingpat, Thinkflexsense, and Soundpat Religion: most

accurate, precise, positively impactful, and constantly self-improving invention in history"

● Needs more description: Connection-ology <-> Types-of-connections-ology <-> External-or-Exterior-connections-ology and/or Interior-or-internal-connections-ology <-> Mental-connections-ology (Mental-connections-ology <-> Visible-or-invisible-connections-ology and/or Thought-connections-ology and/or Behavioral-connections-ology and/or Sensual-or-sensational-connections-ology (Sensual-or-sensational-connections-ology <-> Mental-observational-connections and/or Environmental-connections-ology)) and/or Direct-connections-ology and/or Indirect-or-not-direct-connections-ology and/or Physical-connections-ology and/or Chemically-biological-connections-ology and/or Chemically-non-biological-connections-ology and/or Observational-connections-ology and/or Environmental-connections-ology and/or Movement-restricted-connections-ology (Movement-restricted-connections-ology <-> Movement-enabled-connections-ology (Movement-enabled-connections-ology <-> "like joints in the human body, pistons in engines, etc."-ology) and/or Movement-disabled-connections-ology)

● Needs editing due to being not precise causing confusion: Consumer invisibly/visibly, directly/indirectly, physically/mechanically/electrically/signally/wavely/chemically/sensu and/or non-biologically/biologically connected and independence enabling products: invisibly, indirectly, physically, non-biologically connected and independence enabling products (like cell or radio towers and satellites); visibly, directly, physically, sensually, non-biologically connected and independence enabling products (like cell phones) visibly, directly, biologically connected and independence enabling products (like hearing aids);

　　○ Needs editing due to being not precise causing confusion: Consumer indirectly connected, independence enabling product: products indirectly or not directly connected to consumers, and enabling consumers to be independent in accomplishing some task or satisfying some need; examples are non-portable/portable and indirectly connected dams to households, non-portable/portable and indirectly connected

smart grids to households, non-portable/portable and indirectly connected utilities to households, commercial vegetable and fruit farms due to products (which are produce of fruits and vegetables) containing seeds that can be used for household farming, etc. .

○ Needs editing due to being not precise causing confusion: Consumer directly connected, independence enabling product: products directly connected to consumers, and enabling consumers to be independent in some needs or accomplishing some task; examples are commercial household solar panels, commercial household nuclear reactors, commercial agricultural seeds for household farming and gardening, commercial household wind turbines, etc. .

Unverified Patterns or Order and Relations in List Format:

● Current teeth fillings used by dentists to fill decayed teeth may cause gastrointestinal pain and problems when the patient swallows parts of the broken parts of the fillings, and/or decaying teeth may cause stomach pain when the decayed parts are swallowed, and/or foods causing tooth decay and toothache may cause stomach pain when swallowed and increase bone, muscle, and bodily tissue decay in the body.
● Types of atomic energy storage:
  ○ Electronic energy: changes in kinetic and potential energy of one or more electrons associated with the nucleus; electron change.
  ○ Translational energy: the atom can move or translate in space producing only kinetic energy; nuclear motion.
● Characteristics of life:
  ○ Growth
  ○ Reproduction
  ○ Cellular organization
  ○ Metabolism
  ○ Homeostasis
  ○ Heredity

- ○ Growth and development through stimulating activities and energy intake
- ○ Response to stimuli
- ○ Adaptation through evolution
- Types of scopes
    - ○ Macroscope
    - ○ Microscope
    - ○ Telescope
- Types of technology testing
    - ○ safety tests (like which wire or rope can handle the most load and cars being driven in rough terrain or against objects to see how durable they are, flammability tests, melting point tests, waterproof tests, hackability tests, strength tests, electrical tests, radiation tests, security tests)
    - ○ Technological national and/or international standards qualification tests
    - ○ Laboratory and Metrology tests
    - ○ Minimum and Maximum capabilities or usage tests
- Types of star explosions and collisions:
    - ○ Nova
    - ○ Type 1 supernova:
    - ○ Type 2 supernova:
    - ○ Superluminous supernova <-> Hypernova
    - ○ Kilonova <-> Macronova <-> R-process supernova
- Statistics types:
    - ○

S. No	Descriptive Statistics	Inferential Statistics
1	Concerned with the describing the target population	Make inferences from the sample and generalize them to the population.
2	Organize, analyze and present the data in a meaningful manner	Compares, test and predicts future outcomes.
3	Final results are shown in form of charts, tables and Graphs	Final result is the probability scores.
4	Describes the data which is already known	Tries to make conclusions about the population that is beyond the data available.
5	Tools- Measures of central tendency (mean/median/ mode), Spread of data (range, standard deviation etc.)	Tools- hypothesis tests, Analysis of variance etc.

- Types of scientific perspectives:

- ○ Normative science
- ○ Descriptive science
- ● Types of statistics perspectives:
    - ○ Inferential statistics
    - ○ Descriptive statistics
- ● Telescopes
    - ○ Types of telescopes:
        - ■ There are two basic types of telescopes, refractors and reflectors.
    - ○ Components or parts of telescopes:
        - ■ The part of the telescope that gathers the light, called the objective, determines the type of telescope.
        - ■ *///////////////*
        - ■ *///////////////*
- ● Rote learning is a memorization technique based on repetition. The idea is that one will be able to quickly recall the meaning of the material the more one repeats it. Some of the alternatives to rote learning include meaningful learning, associative learning, and active learning
- ● Types of logic inferences:
    - ○ Finding a pattern in multiple observations to reach a precise conclusion.
    - ○ Using a precise conclusion to discover or create a pattern in multiple observation.
- ● Types of coordinates:
    - ○ Cartesian coordinates
    - ○ Cylindrical coordinates
- ● Helix or helices
    - ○ Mathematical definition of a helix: a curve in 3-dimensional space.
    - ○ Helix types based on curve:
        - ■ Double helix
        - ■ Comic helix
        - ■ Circular helix
        - ■ General helix or cylindrical helix
        - ■ Slant helix
    - ○ Helix types based on chiralities or handedness:

- - - Left-handed screw helix
    - Right-handed drew helix
  - ○ Cartesian coordinates equation for defining or parametrizing helix:
    - $x(t)=\cos(t)$, $y(t)=\sin(t)$, $z(t)=t$
  - ○ Cylindrical coordinates equation for parametrizing or defining helix:
    - In cylindrical coordinates (r, theta, r): $r(t)=1$, $theta(t)=t$, $h(t)=t$
  - ○ Equation for parametrizing or defining circular helix with radius *a* and slope *b/a* :
    - $x(t)= a\ \cos(t)$, $y(t)= a\ \sin(t)$, $z(t)= b\,t$
- ● Mathematical models:
  - ○ Definition for mathematical models: a description of a [system]{.underline} using [mathematical]{.underline} concepts and [language]{.underline} .
  - ○ Components or elements of all mathematical models in physical sciences:
    - [Governing equations]{.underline}
    - Supplementary sub-models
      - ● [Defining equations]{.underline}
      - ● [Constitutive equations]{.underline}
    - Assumptions and constraints
      - ● [Initial]{.underline} and [boundary conditions]{.underline}
      - ● [Classical constraints]{.underline} and [kinematic equations]{.underline}
  - ○ Mathematical models are usually composed of relationships and [variables]{.underline} . Relationships can be described by [operators]{.underline} , such as algebraic operators, functions, differential operators, etc. Variables are abstractions of system [parameters]{.underline} of interest, that can be [quantified]{.underline} . Several classification criteria can be used for mathematical models according to their structure:
    - Linear vs. nonlinear: If all the operators in a mathematical model exhibit [linearity]{.underline} , the resulting mathematical model is defined as linear. A model is considered to be nonlinear otherwise. The definition of linearity and nonlinearity is dependent on context, and linear models may have nonlinear expressions in them.

For example, in a statistical linear model , it is assumed that a relationship is linear in the parameters, but it may be nonlinear in the predictor variables. Similarly, a differential equation is said to be linear if it can be written with linear differential operators , but it can still have nonlinear expressions in it. In a mathematical programming model, if the objective functions and constraints are represented entirely by linear equations , then the model is regarded as a linear model. If one or more of the objective functions or constraints are represented with a nonlinear equation, then the model is known as a nonlinear model.

Nonlinearity, even in fairly simple systems, is often associated with phenomena such as chaos and irreversibility . Although there are exceptions, nonlinear systems and models tend to be more difficult to study than linear ones. A common approach to nonlinear problems is linearization , but this can be problematic if one is trying to study aspects such as irreversibility, which are strongly tied to nonlinearity.

■ Static vs. dynamic: A dynamic model accounts for time-dependent changes in the state of the system, while a static (or steady-state) model calculates the system in equilibrium, and thus is time-invariant. Dynamic models typically are represented by differential equations or difference equations .

■ Explicit vs. implicit: If all of the input parameters of the overall model are known, and the output parameters can be calculated by a finite series of computations, the model is said to be explicit. But sometimes it is the output parameters which are known, and the corresponding inputs must be solved for by an iterative procedure, such as Newton's method (if the model is linear) or Broyden's method (if non-linear). In such a case the model is said to be implicit. For example, a jet engine 's physical properties such as turbine and nozzle throat areas can be explicitly calculated given a design

[thermodynamic cycle](#) (air and fuel flow rates, pressures, and temperatures) at a specific flight condition and power setting, but the engine's operating cycles at other flight conditions and power settings cannot be explicitly calculated from the constant physical properties.

■ Discrete vs. continuous: A [discrete model](#) treats objects as discrete, such as the particles in a [molecular model](#) or the states in a [statistical model](#); while a [continuous model](#) represents the objects in a continuous manner, such as the velocity field of fluid in pipe flows, temperatures and stresses in a solid, and electric field that applies continuously over the entire model due to a point charge.

■ Deterministic vs. probabilistic (stochastic): A [deterministic](#) model is one in which every set of variable states is uniquely determined by parameters in the model and by sets of previous states of these variables; therefore, a deterministic model always performs the same way for a given set of initial conditions. Conversely, in a stochastic model—usually called a " [statistical model](#) "—randomness is present, and variable states are not described by unique values, but rather by [probability](#) distributions.

■ Deductive, inductive, or floating: A deductive model is a logical structure based on a theory. An inductive model arises from empirical findings and generalization from them. The floating model rests on neither theory nor observation, but is merely the invocation of expected structure. Application of mathematics in social sciences outside of economics has been criticized for unfounded models.   Application of [catastrophe theory](#) in science has been characterized as a floating model.

● System identification for nonlinear systems or nonlinear system identification:

   ○ C an be broadly categorised into five basic approaches, each defined by a model class:

1. [Volterra series](#) models,
2. block structured models,
3. [neural network](#) models,
4. NARMAX models, and
5. [State-space](#) models.

- Types of camera imaging
  - Near infrared
  - Infrared
  - Far infrared: for thermal imaging
- Uncategorized description for energy: energy contains different patterns in the universe (such as kinetic energy, potential energy, gravitational energy, mechanical energy, thermal energy, etc.), and the universe is growing
- Uncategorized pattern about why organism's have restricted or specialized diets: The body of living beings have restricted synchronizing vibrations causing specialized or restricted digestive organs in living organisms to have restricted diet for energy
- Programmable Logic Controllers:
  - Programmable Logic Controller (PLC) also known as Industrial Computer is the major component in the industrial automation sector. Due to its robust construction, exceptional functional features like [PID controllers](#), sequential control, timers and counters, ease of programming, reliable controlling capabilities and ease of hardware usage – this PLC is more than a special-purpose digital computer in industries as well as in other control-system areas. Different types of PLCs from vast number of manufacturers are available in today's market. Therefore, in the subsequent paragraphs, let us study about PLCs and their types.
  - PLC is invented to replace traditional control panels whose operations depend on the electromagnetic logic relays that are based on timers in [industrial control systems](#). PLCs are capable of monitoring the inputs continuously from sensors and producing the output decisions to operate the actuators based on the program. Every PLC system needs at least these three modules:
    - CPU Module

- CPU module consists of a central processor and its memory. The Processor is responsible for doing all the necessary computations and data processing by accepting the inputs and producing appropriate outputs. Memory includes both ROM and RAM memories. The ROM memory contains the operating system, driver and application programs, whereas the RAM stores user-written programs and working data. These PLCs use retentive memory to save user programs and data when the power supply breaks or fails and to resume the execution of a user program ones the power is restored. Thus, these PLCs do not need any use of a keyboard or monitor for reprograming the processor each time. The retentive memory can be implemented with the use of long-life batteries, EEPROM modules and flash memory methods.

■ Power Supply Module
  - These modules supply the necessary power required for the whole system by converting the available AC power to DC power required for CPU and I/O modules. The output 5V DC drives the computer circuitry, and in some PLCs 24DC on the bus rack drives few sensors and actuators.

■ One or more I/O Module
  - Input and output modules of the PLC allow to connect the sensors and actuators to the system to sense or control the real-time variables such as temperature, pressure flow, etc. These I/O modules vary in type, range, and capabilities and some of these include the following:
  - Digital I/O module: These are used to connect the sensors and actuator that are of digital in nature, i.e., only for switch ON and OFF purpose. These modules are available on both AC and DC voltages and currents with variable number of digital inputs and outputs.

● Analog I/O modules: These are used to connect the sensors and actuators that provide the analog electric signals. Inside these modules, [analog to digital converter](#) is used to convert the analog to processor understandable data, i.e., digital data. This module's number of channel's availability is also can be varied depending on the application,

● Communication Interface Modules: These are intelligent I/O modules that exchange the information between a CPU and communication network. These are used for communicating with other PLCs and computers that are placed at a remote or far away distance.

■ In some modular PLCs bus or rack is provided in the backplane of the circuit into which all the modules like CPU and other I/O modules are plugged to the corresponding slots. This bus enables the communication between CPU and I/O modules to send or receive the data. This communication is established by addressing the I/O modules according to the location from CPU module along the bus. Suppose, if the input module is located in the second slot, then the address must be I2:1.0 (second slot first channel only as an example). Some buses provide necessary power to I/O module circuitry, but they do not provide any power to sensors and actuators connected to I/O modules.

■ Types of Programmable Logic Controllers

● [Programmable Logic Controllers (PLCs)](#) are integrated as either single or modular units.

● An integrated or Compact PLC is built by several modules within a single case. Therefore, the I/O capabilities are decided by the manufacturer, but not by the user. Some of the integrated PLCs allow to connect additional I/Os to make them somewhat modular.

● A modular PLC is built with several components that are plugged into a common rack or bus with

extendable I/O capabilities. It contains power supply module, CPU and other I/O modules that are plugged together in the same rack, which are from same manufacturers or from other manufacturers. These modular PLCs come in different sizes with variable power supply, computing capabilities, I/O connectivity, etc. Modular PLCs are further divided into small, medium and large PLCs based on the program memory size and the number of I/O features.

- Small PLC is a mini-sized PLC that is designed as compact and robust unit mounted or placed beside the equipment to be controlled. This type of PLC is used for replacing hard-wired relay logics, counters, timers, etc. This PLC I/O module expandability is limited for one or two modules and it uses logic instruction list or relay ladder language as programming language.
- Medium-sized PLC is mostly used PLC in industries which allows many plug-in modules that are mounted on backplane of the system. Some hundreds of input/ output points are provided by adding additional I/O cards – and, in addition to these – communication module facilities are provided by this PLC.
- Large PLCs are used wherein complex process control functions are required. These PLCs' capacities are quite higher than the medium PLCs in terms of memory, programming languages, I/O points, and communication modules, and so on. Mostly, these PLCs are used in supervisory control and data acquisition (SCADA) systems, larger plants, distributed control systems, etc.
- Manufacturer type PLCs:
  - Allen Bradley PLCs (AB)

- ■ ABB PLCs (Asea Brown Boveri)
- ■ Siemens PLCs
- ■ Omron PLCs
- ■ Mitsubishi PLCs
- ■ Hitachi PLCs
- ■ Delta PLCs
- ■ General Electric (GE) PLCs
- ■ Honeywell PLCs
- ■ Modicon PLCs
- ■ Schneider Electric PLCs
- ■ Bosch PLCs
- Common Types of Industrial Robots:
  - ○ Articulated - This robot design features rotary joints and can range from simple two joint structures to 10 or more joints. The arm is connected to the base with a twisting joint. The links in the arm are connected by rotary joints. Each joint is called an axis and provides an additional degree of freedom, or range of motion. Industrial robots commonly have four or six axes.
  - ○ Cartesian - These are also called rectilinear or gantry robots. Cartesian robots have three linear joints that use the Cartesian coordinate system (X, Y, and Z). They also may have an attached wrist to allow for rotational movement. The three prismatic joints deliver a linear motion along the axis.
  - ○ Cylindrical - The robot has at least one rotary joint at the base and at least one prismatic joint to connect the links. The rotary joint uses a rotational motion along the joint axis, while the prismatic joint moves in a linear motion. Cylindrical robots operate within a cylindrical-shaped work envelope.
  - ○ Polar - Also called spherical robots, in this configuration the arm is connected to the base with a twisting joint and a combination of two rotary joints and one linear joint. The axes form a polar coordinate system and create a spherical-shaped work envelope.
  - ○ SCARA - Commonly used in assembly applications, this selectively compliant arm for robotic assembly is primarily

cylindrical in design. It features two parallel joints that provide compliance in one selected plane.
- ○ Delta - These spider-like robots are built from jointed parallelograms connected to a common base. The parallelograms move a single EOAT in a dome-shaped work area. Heavily used in the food, pharmaceutical, and electronic industries, this robot configuration is capable of delicate, precise movement.
- Types of packaging machines:
  - ○ Accumulating and collating machines
  - ○ [Blister packs](), [skin packs]() and vacuum packaging machines
  - ○ [Bottle caps]() equipment, over-capping, lidding, closing, seaming and sealing machines
  - ○ [Box](), case, tray, and carrier forming, packing, unpacking, closing, and sealing machines
  - ○ [Cartoning machines]()
  - ○ Cleaning, sterilizing, cooling and drying machines
  - ○ Coding, printing, marking, stamping, and imprinting machines
  - ○ [Converting]() machines
  - ○ [Conveyor belts](), accumulating and related machines
  - ○ Feeding, orienting, placing and related machines
  - ○ [Filling machines](): handling dry, powdered, solid, liquid, gas, or viscous products
  - ○ [Inspecting](): visual, sound, metal detecting, etc.
  - ○ [Label dispenser]()
  - ○ Orienting, unscrambling machines
  - ○ Package filling and closing machines
  - ○ [Palletizing](), depalletizing, [unit load]() assembly
  - ○ Product identification: [labeling](), marking, etc.
  - ○ Sealing machines: [heat sealer]() or glue units
  - ○ [Slitting machines]()
  - ○ Weighing machines: [check weigher](), [multihead weigher]()
  - ○ Wrapping machines: stretch wrapping, [shrink wrap](), banding
  - ○ [Form, fill and seal machines]()
  - ○ Other specialty machinery: [slitters](), [perforating](), [laser]() cutters, parts attachment, etc.

- Types of mathematical data sets list:
  - Mean
  - Median
  - Mode
  - Range
- Types of econometrics data:
  - Time series data of a variable have a set of observations on values at different points of time. They are usually collected at fixed intervals, such as daily, weekly, monthly, annually, quarterly, etc. Time series econometrics has applications in macroeconomics, but mainly in financial economics where it is used for price analysis of stocks, derivatives, currencies, etc.
  - Cross-section data are collected at the same point of time for several individuals. Examples are opinion polls, income distribution, data on GNP per capita in all European countries, etc.
  - Pooled data is a mixture of time series data and cross-section data. One example is GNP per capita of all European countries over ten years.
  - Panel, longitudinal or micropanel data is a type that is pooled data of nature. The difference is that we measure over the same cross-sectional unit for individuals, households, firms, etc. This branch of econometrics is called microeconometrics.
- Types of measurements of scales list:
  - Ratio scale refers to quantities such as ratios and distances. There can be ordering of the data where comparisons are meaningful. Basically, this can be measure with a parametric approach to statistic.
  - Interval scale refers to distances as mentioned above, and it can be measured with a parametric approach to statistics.
  - Ordinal scale refers to an order that is not quantitative but qualitative. We can also say that there is a "natural order" of grouping different categories. For example, there are different income classes (high, medium, low), sizes (large, medium, small), etc. An ordinal scale can be measure with both parametric and non-parametric statistics.

○ Nominal scale refers to states but there is no ordering amongst them. For instance, genders (male, female), materials (paper, plastics, wood), etc. Interval scale can only be measure with non-parametric approach to statistics.
- Types of batteries list:
  ○ Batteries generally can be classified into different categories and types, ranging from chemical composition, size, form factor and use cases, but under all of these are two major battery types;
    - Primary Batteries
      - Primary batteries are batteries that cannot be recharged once depleted. Primary batteries are made of electrochemical cells whose electrochemical reaction cannot be reversed.
      - Primary batteries exist in different forms ranging from coin cells to AA batteries. They are commonly used in standalone applications where charging is impractical or impossible. A good example of which is in military grade devices and battery powered equipment. It will be impractical to use rechargeable batteries as recharging a battery will be the last thing in the mind of the soldiers. Primary batteries always have high specific energy and the systems in which they are used are always designed to consume low amount of power to enable the battery last as long as possible.
      - Some other examples of devices using primary batteries include; Pace makers, Animal trackers, Wrist watches, remote controls and children toys to mention a few.
      - The most popular type of primary batteries are alkaline batteries. They have a high specific energy and are environmentally friendly, cost-effective and do not leak even when fully discharged. They can be stored for several years, have a good safety record and can be carried on an aircraft without being subject to UN Transport and other

regulations. The only downside to alkaline batteries is the low load current, which limits its use to devices with low current requirements like remote controls, flashlights and portable entertainment devices.

- ■ Secondary Batteries
  - ● Secondary batteries are batteries with electrochemical cells whose chemical reactions can be reversed by applying a certain voltage to the battery in the reversed direction. Also referred to as rechargeable batteries, secondary cells unlike primary cells can be recharged after the energy on the battery has been used up.
  - ● They are typically used in high drain applications and other scenarios where it will be either too expensive or impracticable to use single charge batteries. Small capacity secondary batteries are used to power portable electronic devices like mobile phones, and other gadgets and appliances while heavy-duty batteries are used in powering diverse electric vehicles and other high drain applications like load levelling in electricity generation. They are also used as standalone power sources alongside Inverters to supply electricity. Although the initial cost of acquiring rechargeable batteries is always a whole lot higher than that of primary batteries but they are the most cost-effective over the long-term.
  - ● Secondary batteries can be further classified into several other types based on their chemistry. This is very important because the chemistry determines some of the attributes of the battery including its specific energy, cycle life, shelf life, and price to mention a few.
  - ● There are basically four major chemistries for rechargeable batteries;
    - ○ Lithium-ion(Li-ion)

■ Lithium ion batteries are one of the most popular types of rechargeable batteries. They are found in different portable appliances including mobile phones, smart devices and several other battery appliances used at home. They also find applications in aerospace and military applications due to their lightweight nature.

■ Lithium-ion batteries are a type of rechargeable battery in which lithium ions from the negative electrode migrate to the positive electrode during discharge and migrate back to the negative electrode when the battery is being charged. Li-ion batteries use an intercalated lithium compound as one electrode material, compared to the metallic lithium used in non-rechargeable lithium batteries.

■ Lithium ion batteries generally possess high energy density, little or no memory effect and low self-discharge compared to other battery types. Their chemistry alongside performance and cost vary across different use cases for example, Li-ion batteries used in handheld electronic devices are usually based on lithium cobalt oxide (LiCoO2) which provides high energy density and low safety risks when damaged while Li-ion batteries based on Lithium iron phosphate which offer a lower energy density are safer due to a reduced likelihood of unfortunate events happening are widely used in powering electric tools and medical equipment.

Lithium ion batteries offer the best performance to weight ratio with the lithium sulphur battery offering the highest ratio.
■ Some of the attributes of lithium ion batteries are listed below;
■ Specific Energy: 100: 265W-h/kg
■ Energy Density: 250: 693 W-h/L
■ Specific Power: 250: 340 W/kg
■ Charge/discharge percentage: 80-90%
■ Cycle Durability: 400: 1200 cycles
■ Nominal cell voltage: NMC 3.6/3.85V
○ Nickel Cadmium(Ni-Cd)
■ The nickel–cadmium battery (NiCd battery or NiCad battery) is a type of rechargeable battery which is developed using nickel oxide hydroxide and metallic cadmium as electrodes. Ni-Cd batteries excel at maintaining voltage and holding charge when not in use. However, NI-Cd batteries easily fall a victim of the dreaded "memory" effect when a partially charged battery is recharged, lowering the future capacity of the battery.
■ In comparison with other types of rechargeable cells, Ni-Cd batteries offer good life cycle and performance at low temperatures with a fair capacity but their most significant advantage will be their ability to deliver their full rated capacity at high discharge rates. They are available in different sizes including the sizes used for alkaline batteries, AAA to D. Ni-Cd cells are used individual or assembled in packs of two or more cells. The small packs are used in

portable devices, electronics and toys while the bigger ones find application in aircraft starting batteries, Electric vehicles and standby power supply.

■ Some of the properties of Nickel-Cadmium batteries are listed below.

■ Specific Energy: 40-60W-h/kg

■ Energy Density: 50-150 W-h/L

■ Specific Power: 150W/kg

■ Charge/discharge efficiency: 70-90%

■ Self-discharge rate: 10%/month

■ Cycle durability/life: 2000cycles

○ Nickel-Metal Hydride(Ni-MH)

■ Nickel metal hydride (Ni-MH) is another type of chemical configuration used for rechargeable batteries. The chemical reaction at the positive electrode of batteries is similar to that of the nickel–cadmium cell (NiCd), with both battery type using the same nickel oxide hydroxide (NiOOH). However, the negative electrodes in Nickel-Metal Hydride use a hydrogen-absorbing alloy instead of cadmium which is used in NiCd batteries

■ NiMH batteries find application in high drain devices because of their high capacity and energy density. A NiMH battery can possess two to three times the capacity of a NiCd battery of the same size, and its energy density can approach that of a lithium-ion battery. Unlike the NiCd chemistry, batteries based on the NiMH chemistry are not susceptible to the "memory" effect that NiCads experience.

- ■ Below are some of the properties of batteries based on the Nickel-metal hydride chemistry;
- ■ Specific Energy: 60-120h/kg
- ■ Energy Density: 140-300 Wh/L
- ■ Specific Power: 250-1000 W/kg
- ■ Charge/discharge efficiency: 66% - 92%
- ■ Self-discharge rate: 1.3-2.9%/month at 20oC
- ■ Cycle Durability/life: 180 -2000
  - ○ Lead-Acid
    - ■ Lead acid batteries are a low-cost reliable power workhorse used in heavy duty applications. They are usually very large and because of their weight, they're always used in non-portable applications such as solar-panel energy storage, vehicle ignition and lights, backup power and load levelling in power generation/distribution. The lead-acid is the oldest type of rechargeable battery and still very relevant and important into today's world. Lead acid batteries have very low energy to volume and energy to weight ratios but it has a relatively large power to weight ratio and as a result can supply huge surge currents when needed. These attributes alongside its low cost makes these batteries attractive for use in several high current applications like powering automobile starter motors and for storage in backup power supplies.
- ● List of factors to consider for selecting the right battery for your application:

○ Energy Density: The energy density is the total amount of energy that can be stored per unit mass or volume. This determines how long your device stays on before it needs a recharge.

○ Power Density: Maximum rate of energy discharge per unit mass or volume. Low power: laptop, i-pod. High power: power tools.

○ Safety: It is important to consider the temperature at which the device you are building will work. At high temperatures, certain battery components will breakdown and can undergo exothermic reactions. High temperatures generally reduces the performance of most batteries.

○ Life cycle durability: The stability of energy density and power density of a battery with repeated cycling (charging and discharging) is needed for the long battery life required by most applications.

○ Cost: Cost is an important part of any engineering decisions you will be making. It is important that the cost of your battery choice is commensurate with its performance and will not increase the overall cost of the project abnormally.

● Components of a battery cell:
    ○ The Anode (Negative Electrode)
    ○ The Cathode (Positive Electrode)
    ○ The electrolytes
    ○ Explanation of the components in the cell:
        ■ The anode is a negative electrode that produces electrons to the external circuit to which the battery is connected. When batteries are connected, an electron build up is initiated at the anode which causes a potential difference between the two electrodes. The electrons naturally then try to redistribute themselves, this is prevented by the electrolyte, so when an electrical circuit is connected, it provides a clear path for the electrons to move from the anode to the cathode thereby powering the circuit to which it is connected.

● Types of rainfall:
    ○ Relief rainfall

- ■ Relief rainfall occurs when air has been blown over the sea and is then forced up over an area of high land.
- ■ This causes the air to cool and the moisture in the air condenses and rain falls.
  - ○ Frontal rainfall
    - ■ Frontal rainfall occurs when warm air is forced to rise over cold air.
    - ■ The moisture in the warm air condenses as it cools which causes clouds and rain.
  - ○ Convectional rainfall
    - ■ Occurs mostly in tropics where it is hot.
    - ■ When air is hot is rises and cools and condenses forming rain.
    - ■ If the air is hot enough, it rises very quickly and can cause thunderstorms.
- ● Three basic categories for weather on earth: precipitation, obscuration, and wind related weather.
  - ○ Types of precipitation list:
    - ■ Definition for precipitation: Precipitation is any form of water particle, whether liquid or solid, that falls from the atmosphere and reaches the ground. The different types of precipitation are:
      - ● Rain
        - ○ Most commonly observed, drops larger than drizzle (0.02 inch / 0.5 mm or more) are considered rain. However, smaller drops are also considered raindrops if, in contrast to drizzle, they are widely separated.
      - ● Drizzle
        - ○ Fairly uniform precipitation composed exclusively of fine drops very close together. Drizzle appears to float while following air currents, but unlike fog droplets, it falls to the ground. Quite often fog and drizzle occur together.
      - ● Ice Pellets (Sleet)

○ Precipitation of transparent or translucent pellets of ice, which are round or irregular hard grains of ice consisting of frozen raindrops, or largely melted then refrozen snowflakes.
- Hail
  ○ Precipitation in the form of small balls or other pieces of ice falling separately or frozen together in irregular lumps. Associated with thunderstorms, individual hail stones are ¼ inch (5 mm) or greater in diameter. Hail sizes of 1 inch (2.5 cm) or more are indicative of severe thunderstorms.
- Small Hail (Snow Pellets)
  ○ Precipitation of white, opaque grains of ice that are round or sometimes conical. Diameters are less than ¼ inch (5 mm).
- Snow
  ○ Precipitation of snow crystals that are mostly branched and in the form of six-pointed stars.
- Snow Grains
  ○ Precipitation of very small, white, and opaque grains of ice. Basically, this is frozen drizzle.
- Ice Crystals
  ○ Generally occurring in very cold regions, they are falling crystals of ice in the form of needles, columns, or plates. Also called 'diamond dust', ice crystals appear like fog with individual water particles forming directly as ice. The shape of the individual ice crystals causes the 'light pillar' optical effect above the light source.

○ Types of wind related weather list:
  ■ There are significant types of weather that are related to wind. These other forms of weather include:

- Well-Developed Dust/Sand Whirls
  - An ensemble of particles of dust or sand, sometimes accompanied by small litter, raised from the ground in the form of a whirling column of varying height with a small diameter and an approximately vertical axis. Commonly called a 'dust devil'.
- Squall
  - A strong wind characterized by a sudden onset in which the wind speed increases at least 18 mph (16 knots, 30 km/h) and is sustained at 25 mph (22 knots, 41 km/h) or more for at least one minute. Often occur from thunderstorms where the term 'squall line' originates. But the term 'squall' only refers to the wind speed increase and not any other associated weather. In the image, the low arcing clouds are not the squall line but mark the approximate location of the squall.
- Tornado
  - A violent, rotating column of air touching the ground.
- Funnel Cloud
  - A violent, rotating column of air which does not touch the surface.
- Waterspout
  - A violent, rotating column of air that forms over a body of water, and touches the water surface. If it does not touch the water surface then it is called a funnel cloud.
- Sand Storm
  - Particles of sand carried aloft by a strong wind. The sand particles are mostly confined to the lowest ten feet, and rarely rise more than fifty feet above the ground.
- Dust Storm

- A severe weather condition characterized by strong winds and dust-filled air over an extensive area.
- Types of obscuration list:
  - Definition for obscuration: An obscuration is any phenomena in the atmosphere, other than precipitation, that reduces the horizontal visibility. The most common is fog. Obscurations include:
    - Mist
      - Visible minute water particles suspended in the atmosphere that reduce visibility to fewer than 7 miles (11 km) but more than or equal to 5/8thmile (1 km). There is often not much difference in the appearance of 'haze' and 'mist'. When the difference between the air temperature and dewpoint is 3°F (1.7°C) or less then the obscuration is usually called 'mist'.
    - Fog
      - Visible minute water particles (droplets) at the Earth's surface that reduce horizontal visibility to less than 5/8th mile (1 km). Unlike drizzle, fog does not fall to the ground but remains suspended.
    - Smoke
      - Small particles suspended in the air and produced by combustion. A transition to haze may occur when smoke particles have traveled great distances, 25 to 100 miles (40 to 160 km) or more. When larger particles settle out and the remaining particles become widely scattered through the atmosphere.
    - Volcanic Ash
      - Fine particles of rock powder that originate from a volcano and that may remain suspended in the atmosphere for long periods.

- Dust
  - Fine particles of earth or other matter raised or suspended in the air by the wind, that may restrict horizontal visibility.
- Sand
  - Sand particles raised by the wind to a height sufficient to reduce horizontal visibility.
- Haze
  - A suspension in the air of extremely small, dry particles that are invisible to the naked eye and sufficiently numerous to give the air an opalescent appearance. That is the scientific way of saying haze is air pollution. There is often not much difference in the appearance of 'haze' and 'mist'. When the difference between the air temperature and dew point is greater than 3°F (1.7°C) the obscuration is usually called 'haze'.

- Types of farming equipment list:
  - Loading
    - Backhoe / backhoe loader
    - Front end loader
    - Skid-steer loader
    - Tractor-mounted forklift
  - Milking
    - Bulk tank
    - Milking machine
    - Milking pipeline
  - Animal Feeding
    - Grinder-mixer
  - Other farming equipment
    - Agricultural robots
    - Allen Scythe
    - Aquatic weed harvester
    - Feed grinder
    - Bale splitter
    - Mixer-wagon (Diet feeder)

- - - Chillcuring
    - Conveyor analyzer
    - Hedge cutter
    - Hedge trimmer
    - Livestock trailer
    - Mulching machine
    - Post driver (and hand tool)
    - Shear Grab (and power link box)
    - Trailer
    - Yard scraper
  - Obsolete farm machinery
    - Steam -powered:
      - Stationary steam engine
      - Portable engine
      - Traction engine (e.g. Agricultural engine, Ploughing engine, Steam tractor)
      - Hog oiler
      - Reaper (replaced by the Stripper and Reaper-binder)
      - Winnowing machine / Winnowing-fan
      - Threshing machine (replaced by the combine harvester)
      - Drag harrow
  - Hay making
    - Bale lifter (also called Bale mover or Bale spike)
    - Bale wrapper
    - Baler
    - Hay rake
    - Hay tedder
    - Mower-conditioners
    - Loader wagon / self-loading wagon – used in Europe, but not common in USA
    - Hand hay tool
      - Hay fork
  - Hand harvesting
    - Flail
    - Sickle (hand-held)

- - - ■ [Winnower](#) (mechanized into the [winnowing machine](#), which has been replaced by the [combine harvester](#)
  - ○ Irrigation
    - ■ [Drip irrigation](#) /micro spray heads
    - ■ [Sprinkler system](#)
    - ■ [Center pivot irrigation](#)
    - ■ [Hydroponics](#)
  - ○ Produce sorter
    - ■ Blemish sorter.
    - ■ Color sorter
    - ■ Density Sorter
    - ■ Diameter sorter
    - ■ Internal/taste sorter
    - ■ Shape sorter
    - ■ Weight sorter
  - ○ Harvesting / post-harvest
    - ■ [Buckrake](#) —for [silage](#) making
    - ■ [Grain cart](#) (with built in [Grain Auger](#))
    - ■ [Conveyor belt](#)
    - ■ [Cotton picker](#)
    - ■ [Farm truck](#)
    - ■ [Grain dryer](#)
    - ■ Harvestor / harvester built for harvesting specific crops. (e.g. [Bean harvester](#), [Beet harvester](#), [Carrot harvester](#), [Combine (grain) harvester](#) / [Stripper](#), [Header](#), [Corn harvester](#), [Forage or silage harvester](#), [Grape Harvester](#), [Over-the-row mechanical harvester](#) for harvesting apples, [Potato harvester](#), [Potato spinner/digger](#) which is becoming obsolete, and [Sugarcane harvester](#). Variations of harvesters are stripper cleaners and stripper loaders.
    - ■ [Haulm topper](#)
    - ■ [Mechanical Tree Shaker](#) and other Orchard Equipment
    - ■ [Mower](#)
    - ■ [Rake](#)
    - ■ [Reaper-binder](#) (now mostly replaced by the [Swather](#))

- ■ Rice huller
- ■ Swather (more common in the northern United States and Canada)
- ■ Wagon (and variations of Gravity wagons, Trailers — e.g. Silage trailers, grain hopper trailers and lighter, two-wheeled Carts)
- ○ Fertilizing & Pest Control
  - ■ Liquid manure/slurry spreader and Liquid manure fertilizer spreader (e.g. slurry tanker or Terragator)
  - ■ Dry Manure spreader (e.g. Terragator)
  - ■ Sprayer
- ○ Planting
  - ■ Trowel (khurpi)
  - ■ Seed drill (Box Drill, Air Drill)
- ○ Soil cultivation
  - ■ Cultivator (of two main variations)
    - ● Dragged teeth (also called shanks) that pierce the soil.
    - ● Rotary motion of disks or teeth. Examples are: Power tiller / Rotary tiller / Rototiller / Bedtiller / Mulch tiller / Rotavator
  - ■ Cultipacker
  - ■ Chisel plow
  - ■ Harrow (e.g. Spike harrow, Drag harrow, Disk harrow)
  - ■ Plow or plough {various specialized types }
  - ■ Stone / Rock / Debris removal implement (e.g. Destoner, Rock windrower / rock rake, Stone picker / picker)
  - ■ Subsoiler
  - ■ Rotator
  - ■ Roller
  - ■ Strip till toolbar (and a variation called Zone till subsoiler)
  - ■
- ○ Tractor
  - ■ Tractor / Two-wheel tractor

- ■ [Tracked tractor](#) / [Caterpillar tractor](#)

- Types of tractors list:
  - Sub-compact utility Tractor:
    - ■ The Sub-compact utility Tractor gets used for farming purposes. The tractor has lesser horsepower and a smaller engine. The wheels of the Sub-compact utility tractors are thinner and smaller. The parts of the tractor can be removed and fitted again if needed. Apart from agriculture, the Sub-compact utility Tractor gets used for landscaping, gardening, raking, and land maintenance.
  - Compact Utility Tractor:
    - ■ The Compact Utility Tractor is also used for agriculture but not while harvesting on a commercial level. The horsepower in the Compact Utility Tractor is a little above the Sub compact utility tractor. The Compact Utility Tractor has about 24 horsepower to about 60 Horse power.
  - Utility Tractor:
    - ■ The Utility Tractor has a better horsepower which is about 45Hp to 140 Hp. These tractors get used for landscaping and farming. The Utility Tractor is known for its multi-purpose functions. The farmer does not need to purchase different parts of the machine separately, and the tractor has various parts attached and many other types of equipment for performing other work and tasks in the field.
  - Specialty Tractors:
    - ■ The Specialty Tractors as the name suggests the tractor gets used for some particular purpose. If a crop needs to be specially harvested, then the Specialty Tractors are used. The horse powers of this tractors from various machines.
  - Backhoe Loaders:
    - ■ Backhoe Loaders get used in civil engineering and construction projects. The tractor manufactured in the year 1947 by the Wain Roy Corporation. The Backhoe

tractors used for digging, small construction work, transportation of building materials, breaking small rocks, landscaping and also used for paving roads are powerful. The tractor experiences a lot of shaking while digging. Thus the tractor is provided with Hydraulic stabilizers to balance the shaking caused. Some of the other manufacturers of the tractors are Bharat Earth Movers Limited, Case Corporation, Hyundai Heavy Industries, John Deere Tractors, New Holland Constructions, Volvo Construction Equipment, etc.
  - Large Wheel Loaders tractors:
    - The Large Wheel Loaders tractors are heavy equipment which is used to load or move aside building materials like sand, rocks, debris, etc. The Large Wheel Loaders tractors have various other names like bucket loader, front end loader, wheel loader, etc.
  - Additional information about tractor design:
    - The tractor has a wide bucket connected to the tractor to scoop the materials such as the sand, construction debris from the ground.
- Types of tow trucks list:
  - Flatbed Tow Trucks
    - Flatbed tow trucks are one of the most common and widely used towing vehicles in the world. A flatbed truck has a long empty bed with a flat top. Hydraulics are used to move the flatbed upwards and downwards. What makes flatbed trucks easy-to-use is that you can simply drive your vehicle up the ramp, or have it pulled up. They are also helpful in transporting vehicles which have had a roadside problem or have been involved in an accident. A wide variety of vehicles and boats can be transported on flatbed tow trucks. They are also one of the safest ways to tow vehicles.
  - 2. Integrated Tow Truck
    - Integrated tow trucks are used in heavy-duty purposes as they are much more specialized. They are used to transport other rigs or buses. An integrated tow truck has

extra axles for added stability/strength and it's arm is much more embedded in the core of the truck.
- 3. Hook and Chain Tow Trucks
  - Hook and chain tow trucks are used to tow all kinds of cargo. These trucks were used widely in the past, but now knowing that a lot of pressure is applied on the towed vehicles in this method, it is no longer so common. Wrapped chain can damage or scratch the vehicle, so it is recommended that you use this option only if you are transporting a wrecked car to a junkyard. Furthermore, the hook and chain tow trucks cannot be used on all-wheel and 4×4 drives because it can damage the drivetrain. Nowadays, the hook and chain tow trucks are mainly used for junk automobiles and wrecked automobiles, because when transporting those vehicles additional damage to the bumper, etc does not matter.
- 4. Wheel-Lift Tow Truck
  - Wheel-lift tow trucks have a mechanism similar to the hook and chain tow trucks. However, they use a metal yoke instead of chains and cause less damage to the towed vehicle. The metal yoke is hooked under the rear or front wheels. A pneumatic hoist or hydraulic lift suspends the rear or front side of the vehicle in order to lift it from the ground and pull it away. Front wheel drive vehicles are pulled by their entrance wheels. While wheel-lift tow trucks are not as safe or protected as flatbed tow trucks, they are relatively inexpensive.
- Types of telecom towers list:
  - Lattice Towers
    - Lattice towers are freestanding and segmentally designed with rectangular or triangular base steel lattices. This type of tower construction can be useful in situations which require modifications such as mounting large number of panel or dish antennas. They can be used as electricity transmission towers, radio towers or as an observation tower. The Eiffel Tower is a famous example of a lattice tower.

- ○ Guyed Towers
  - ■ Guyed towers can be lightweight to heavyweight towers often seen as slender steel structures. Commonly seen in the tower industry, guyed towers are designed to provide maximum strength, efficiency and versatility with easy installation. They are supported by one or more levels of braided or stranded steel guy cables that anchor to the ground.
- ○ Monopole Towers
  - ■ Monopole towers work well when space is limited, zoning is difficult or harsh weather conditions need to be considered. Designed as a single-pole that can be a tubular section design or a formed, tapered pole, they are the least intrusive – making them the [most popular tower types in the wireless communication industry](#) . Because of the single-pole design, it advantageously reduces visual impact and results in a shorter construction time (and typically cost) compared to traditional lattice structures. Many monopoles can also be designed as stealth, camouflage towers.
- ○ Camouflage Towers
  - ■ Camouflage towers are typically used in urban areas when the need to reduce visual impact on the environment is a concern. They are often seen in the form of artificial pine trees, palm trees, clock towers and even in the form of artificial cacti.
- ○ Self-Support Towers
  - ■ Self-support towers offer the most possibilities compared to other types of telecom towers and are considered appropriate for nearly all wireless communication applications. Available in 3-legged triangular and 4-legged square lattice-type structures, their braces can accommodate the heaviest of loads and the strongest of winds. Their design is ideal for installations where space requirements may be limited and often inexpensive to purchase, transport and install.
- ○ Mobile Cell Towers

- ■ Mobile cell towers (tower-on-wheels, cell-on-wheels) are considered low-profile and portable because they are often mounted on trailers. Coming with a portable, small footprint, mobile cell towers are discreet and very versatile. They are often used in temporary or emergency situations; however, they are also useful if budget or permits are of concern.
- Types of fuel injection list:
    - Single-point or throttle body injection
    - Port or multipoint fuel injection
    - Sequential fuel injection
    - Direct injection
- List of home appliances:
    - [Evaporative cooler](#)
    - [Air conditioner](#)
    - [Air ioniser](#)
    - [Air purifier](#)
    - [Appliance plug](#)
    - [Aroma lamp](#)
    - [Attic fan](#)
    - [Bachelor griller](#)
    - Bed side lamp
    - [Back boiler](#)
    - [Beverage opener](#)
    - [Blender](#)
    - [Box mangle](#)
    - [Can opener](#)
    - [Ceiling fan](#)
    - [Central vacuum cleaner](#)
    - [Clothes dryer](#)
    - [Clothes iron](#)
    - [Cold-pressed juicer](#)
    - [Combo washer dryer](#)

- - Oven
  - Patio heater
  - Paper shredder
  - Radiator (heating)
  - Refrigerator
    - Internet refrigerator
    - Thermal mass refrigerator
  - Sewing machine
  - Space heater
  - Steam mop
  - Stove
  - Sump pump
  - Television
  - Tie press
  - Toaster and toaster ovens
  - Trouser press
  - Vacuum cleaner
    - Manual vacuum cleaner
    - Robotic vacuum cleaner
  - Washing machine
  - Water cooker
  - Water purifier
  - Water heater
    - Solar water heater
  - Window fan
  - Waffle iron
- List of types of plumbing pipes:
  - Copper Pipes (Metal)
    - Pros of Copper Pipes:
      - Proven standard for reliability since the 1960's
      - Not prone to leaks

- Durability: Fitting stay tight and sturdy
- Will not pollute your drinking water
- Old pipes can be recycled
- Long life span
- Heat Tolerant
  - Cons of Copper Pipes:
    - Price: [100 feet of straight copper pipe costs about $285](#)
    - May contain lead-based solder in older homes
    - Extra Information:
      - Comes in these sizes
        - M = Very Thin Walls: Optimal for interior hot and cold supply lines
        - L = Medium Thickness: Optimal for interior hot and cold supply lines
        - K = Thickest Walls: Optimal for underground service lines
- Galvanized Steel (Metal)
  - Galvanized pipes are hardly used in the construction of today's modern homes due to the negative effects that were caused by galvanized pipes. Our modern homes might not have galvanized pipes now, but homes built between the 1930's and the 1980's, having galvanized pipes is a common occurrence. Most homes that have galvanized pipes need to be [re-piped](#) to ensure removal of all the lead in your home's piping. Copper, PEX, and HDPE pipes are often used to replace galvanized pipes.
  - Cons of Galvanized Steel Pipes:
    - Very heavy pipes making it difficult to work with
    - Zinc coating causes internal rusting
    - Can lead to reduced water pressure and clogged water lines over time
    - Lead can be released in the tap water through corroded pipes
    - Discoloration of water
- Polyvinyl Chloride Pipes or PVC Pipes (Plastic)
  - Pros of PVC Pipes:

- Does not rust, corrode, or degrade over time
- Very good for your home's sink, toilet, and bathtub drain lines or vent stacks
- Often used for the main water supply line into your home
- Great at carrying high water pressure
- Inexpensive
- Very easy to work with
  - Cons of PVC Pipes:
    - Cannot handle hot water, can warp when exposed to hot water
- Chlorinated Polyvinyl Chloride Pipes or CPVC Pipes (Plastic)
  - Pros of CPVC Pipes:
    - Contains extra chlorine making it safe for drinking water
    - Pipes are easy to work with it and can be used by DIYers
    - Can be used for hot and cold water supply
    - More flexible than PVC pipes
  - Cons of CPVC Pipes:
    - Will split if it freezes
    - Cannot recycle old pipes
- Cross-Linked Polyethylene or PEX Pipes (Plastic)
  - Pros of PEX Pipes:
    - Best for retrofits
    - Extremely versatile – can snake through walls easily and can extend across house with one piece of PEX pipe
    - Can be used for hot and cold water supply
    - Very heat resistant
  - Cons of PEX Pipes:
    - Because of how they are produced many environmentalists fear potential for contaminating drinking water
    - But this piping has been approved for usage in some of the strictest environmental regulating

states in the U.S.
- ○ Other Metal Pipes:
    - ■ Stainless Steel: Strong and corrosion-resistant, but are more expensive than copper piping
    - ■ Cast Iron: Very durable, but very heavy. PVC joins well with cast iron if you need to replace part of a cast iron piping.
    - ■ Black Iron: NEVER to be used for plumbing, black iron is used for carrying gas.
- ○ Other Plastic Pipes:
    - ■ Grey Plastic Polybutylene or PB Pipes: Inexpensive replacement for copper, easy to work with and install. These pipes are prone to leaks.
    - ■ High-Density Polybutylene or HDPE Pipes: Flexible, highly resistant to corrosion and possesses a long life span. Can be used for a wide variety of plumbing applications.
- ● Foods and beverages linked with increasing cancer risks:
    - ○ Soda, microwave popcorn, bagels, alcohol, pickled foods, grilled foods, salt cured meat and fish, processed meat.
- ● Physical numbered Locks can be damaged by water and make them easier to open; so numbered locks exposed to water may be damaged to be easier to open

Accurate and/or precise patterns, ordrels, or orders and relations in List Format or Structure:

- ● Accurate and precise ordrel about mostly positively impactful operation transparency and customer satisfaction and support: positively impactful transparent operations or operations shown to the public for free increase customer satisfaction, trust, and support towards such transparent operations.

● Accurate and precise ordrel towards best problem solvers and individualism: best problem solvers want others to do more, and the best technologies for others to do more are independence enabling technologies, which requires the best problem solvers to believe in individualism instead of collectivism.

● Accurate and precise ordrel for standing to relieve nasal congestion: standing is a way to relieve nasal congestion.

● Accurate and precise ordrel for creating a product (technology, software, item, tool, etc.), all you need to do is follow these steps: as a Patterndiscoverercreatorimproversolver, I am only allowed to create portable and do-it-yourself machines and robots enabling people to accomplish a task on their own safely

○ First, find the way the product will work and the results or effects of using the product (if it's mostly negatively impactful don't sell the product, don't make more of the product, and make sure the public knows the product is mostly negatively impactful)

○ Second, find the physical and virtual resources for creating and supplying or providing products and services, materials, chemistry, hardware, software, logistics, supply chain, human resource management, transportation and delivery of product to customers, and manufacturing processes involved in creating and delivering the product and make the product achieve the results or effects you want and wanted the product to achieve

○ Third, check and record if there will be government standards, regulations, and interferences, and other local, national, and international businesses', governmental organizations' or agencies', non-governmental organizations', committees', financial organizations', councils', federations', agencies', banks', foundations', funds', alliances', groups', commissions', consortiums', academies', organizations', world platforms', economic forums', societies', unions', centers', centres', institutes', and associations' standards, regulations, and interferences

○ Fourth, network and connect with people physically (by exposing yourself physically to them through knocking on their

house doors, going to or creating conferences and meetings and speeches, and going to expos, summits, and tradeshows) or virtually (by informing people online through posting informational content online for free to any internet user to look at for free, advertising, and/or by calling people on the phone, and/or by physically mailing , and/or by emailing people)
  ○ Fifth, enable people to purchase or rent your product.
● Accurate and precise ordrel for creating a business and organization, all you need to do is follow these steps:
  ○ First, find the physical and virtual resources for creating and supplying or providing products and services, materials, chemistry, hardware, software, logistics, supply chain, human resource management, transportation and delivery of product to customers, and manufacturing processes involved in creating and delivering the product and make the product achieve the results or effects you want and wanted the product to achieve
  ○ Second, find the way the business and organization will work without government regulations and interference and interference from other businesses; so think about how the technologies will work to enable the business to succeed, think about the environment in the business and outside the business like geography
  ○ Third, find the way the business and organization will work with government standards, regulations, and interferences, and other national and international businesses', governmental organizations', non-governmental organizations', committees', financial organizations', councils', federations', agencies', banks', foundations', funds', alliances', groups', organizations', commissions', consortiums', academies', world platforms', economic forums', societies', unions', centers', centres', institutes', and associations' standards, regulations, and interferences, and with local community interference and regulations and with local businesses interference and regulations

○ Fourth, network and connect with people physically (by exposing yourself physically to them through knocking on their house doors, going to or creating conferences and meetings and speeches, and going to expos, summits, and tradeshows) or virtually (by informing people online through posting informational content online for free to any internet user to look at for free, and/or by calling people on the phone, advertising, and/or by physically mailing , and/or by emailing people)

○ Fifth, enable people to purchase or rent the products and services produced and are available in the business or organization.

● Accurate and precise ordrel for the cause of mistakes, procrastination, and stupid behavior: lack of knowledge about the task, ignoring the environment by thinking about things outside environment, and/or lack of support or negative emotions towards conducting a task causes mistakes and stupid behavior

● Accurate and precise ordrel for applications of sound and acoustics: sound and acoustics can be used for communication, signaling frequency, guiding body movement through rhythm, determining the internal structures, predicting a future event, and acoustical markers for locating things

● Accurate and precise ordrel about children who commit extreme crimes and how to punish them: there are children who rape, kill, and physically bully younger children, and such children keep committing the same extreme crimes when not severely punished in the future, so they must be severely punished while serving a life sentence or killed.

● Accurate and precise ordrel about the best schools and teachers: Internet is the best school, and the people offering and providing free accurate and precise information on the internet are the best teachers.

● Accurate and precise ordrel about sustainable independence enabling products and dependence products: independence enabling products let the user do more, have more options, and accomplish more results than dependence products.

● Accurate and precise ordrel about user-portable and self-portable products versus stationary products or products that are not user-portable and self-portable as a whole without being disassembled: user-portable and self-portable products let the user do more, have more options, and accomplish more results than stationary products or products that are not user-portable and self-portable as a whole without being disassembled

● Accurate and precise ordrel about the transitioning period between rich and poor neighborhoods in Saint Louis: places containing and selling mostly non-independence enabling products (such as restaurants, gas stations, drug stores) and not accurate information and ordrel creating and sharing institutions (such as theistic religious institutions, like churches) are between poor and rich neighborhoods

● Accurate and precise ordrel about the causes of Israel's high-tech industry: during Israel's support by Western nations (mainly United States), a war between democracy or individualism against communism or collectivism was occurring and the United States needed more minerals and natural resources than Russia or Soviet Union at the time of the war to defeat communism, and what the United States alone had was not enough so Americans needed outside relations for natural resources to have more natural resources than Russia, and the easiest way to do that is to establish relations with oppressed and uneducated and non-technically advanced nations, mainly the ones in the Middle East, so the United States chose Israel and Israelis due to the fact they were the most oppressed people in the Middle East and United States ensured the Israelis would become technically advanced or the most high tech industry in the Middle East and in return the Israelis secure information and resources so the United States keeps having more natural resources than Russia

● Accurate and precise ordrel about free education, problem solving, and human population: free education is necessary due to at least half of the human population currently not able to afford private education, and education is necessary due to containing many solutions to problems everyone will experience

● Accurate and precise ordrel about Walmart, Home Depot, Best Buy, Target, and many other popular retail stores and supermarkets: Home Depot, Best Buy, Target, Amazon, and many other popular online and physical retail stores and supermarkets lack many independence enabling products, such as rechargeable electric cars and planes, mining and manufacturing machines, laboratory and construction equipment and technology, and farming Equipments

● Accurate and precise ordrel about lung damage and inhaling smoke from burning coal and burning vegetation: inhaling smoke from burning coal and burning vegetation (such as tobacco, hooka, e-cigs, marijuana, nicotine, etc.) results in respiratory diseases and illness.

● Accurate and precise pattern about LinkedIn: it lacks merchandising, buying, leasing, and selling options between users.

● Accurate and precise pattern about all neurotransmitter affecting medications and drugs: all neurotransmitter affecting medications and drugs (like painkillers, anesthetics) are addictive, harmful when not taken in moderation for medical application, and should only be used for solving necessary, non-suicidal prevention related, and life threatening medical problems and issues a patient is experiencing that requires the use of such medications and drugs

● Accurate and precise pattern about artificial leather and other artificial textures: artificial leather decays within at least 2 years.

● Accurate and precise pattern about poverty, poor people, lack of possessing and owning positively impactful and independence enabling and non-polluting and non-contaminating and portable products and facilities, and people believing in ignoring universally applicable topics (such as imperfection law, cause and effect law, I-pathy and empathy, improvement law): poverty is caused by areas dominated by consumer dependence products and businesses (such as restaurants, entertainment, hotels, tourism, etc.); poor people lack possessing and owning positively impactful and independence enabling and non-polluting and non-contaminating and portable products and facilities and believe in non-accurate patterns (such as God, witchcraft, magic) and ignore universally applicable topics (such as imperfection law, cause and effect law, I-

pathy and empathy, pattern or order and relation law, improvement law)

● Accurate and precise pattern about eating unhealthy, high in saturated fat, high in processed toxic chemicals, non-nutritious foods (including junk food), doing mostly bad things causing depression (like owning and managing negatively impactful businesses selling junk food, drugs, prostitution) due to always feeling guilty, wasting brain cells by believing in non-accurate patterns and worshipping theistic and deistic religions, and alzheimers: eating unhealthy, high in saturated fat, high in processed toxic chemicals, non-nutritious foods (including junk food), doing mostly bad things causing depression (like owning and managing negatively impactful businesses selling junk food, drugs, prostitution) due to always feeling guilty, and wasting brain cells by believing in non-accurate patterns and worshipping theistic and deistic religions causes Alzheimer, schizophrenia, and other severe mental disorders

● Accurate and precise pattern about poverty: poverty is just another word to describe "people dependent on others to accomplish and satisfy their needs to survive and improve physically, mentally, morally, and environmentally"

● Accurate and precise pattern about the importance of artificial intelligence, sensors for environmental and self processing, algorithms, and machine learning: artificial intelligence, sensors for environmental and self processing, algorithms, and machine learning are necessary for any technology to be self-automated

● Accurate and precise pattern about weaponless, full body combat: either you abstain or keep distance from opponent (can be either "dodging" or "running away"), hit the opponent, and/or get hit by the opponent while trying to minimize the injury and pain from the received hit while maximizing the pain for the opponent by getting hit (shorter version would be called "blocking").

● Accurate and precise pattern about living in minimum wage and shelters: When living by minimum wage, you can either afford to live in a car or live in an apartment or other cheap housing but can't afford your own car; when living in a car you need a mailbox from a local federal mail office account mailbox (like U.S. Postal Office) to

store your mailed bills, a cellular data membership and mobile or WiFi hotspots, have portable and secure or encrypted Satellite Internet (like the ones used in RVs and Expedition vehicles), use local laundry mat or a manual powered washing machine plus the sun to dry washed items, use toilets in local restrooms mainly in gas stations and supermarkets and large stores and fast food restaurants and/or have your own portable toilet bucket covered in heavy duty trash bags and pee bottle plus disinfecting wet wipes for cleaning, and have gym membership for body showering and exercising.

● Accurate and precise patterns about people who don't have college degrees but daily learn SHTELM information and people who have college degrees: people who don't have college degrees but daily learn science, health, technology, engineering, logic, and mathematics are way more intelligent, knowledgeable, and productive than all people who have college degrees and don't daily learn SHTELM information

● Accurate and precise pattern about English language: English Language is not precise due to its pronunciation patterns (like silent letters and other unnecessary and pronunciation violation rules); for example pronunciating "stockers" and "stalkers" is one of the causes the English language is not precise; another example, pronouncing words ending in "...fle" naturally with an "fel" sound, like "rifle".

● Accurate and precise pattern about one effect of sustainable independence vehicles: sustainable independence vehicles would reduce deforestation

● Accurate and precise pattern about offensive and defensive or battle robots with wheels: robots with exposed wheels are easier to immobilize than robots with non-exposed wheels.

● Accurate and precise pattern about evictions: there are good people doing mostly good things everyday and get evicted so that a junk food restaurant or some other negatively impactful business can take over that good person's place

● Accurate and precise pattern about composition of everything: everything is composed of smaller things combined or added together to form such a thing (whether that thing is the atom,

element, cells, technology, successful operations and businesses, etc.); Summation and Combination Law

● Accurate and precise pattern between compostable trash, feces in fertilizing plants, and the Bible and the Quran: compostable trash and feces used in fertilizing plants are more significant than the Bible and the Quran, because compostable trash and feces used in fertilizing plants produce positively impactful effects by producing and growing vegetation while the Bible and Quran produce negatively impactful effects by stupidifying people with inaccurate ideologies

● Accurate and precise pattern about helping the very poor people in terms of being in poverty, not just homelessness: giving money to the poor will not help them, but eradicating the cause for them being poor (such as teaching accurate and precise information to eradicate the cause of lack of accurate and precise knowledge for being poor, teaching problem-solving and technical skills to eradicate the cause of lack of problem-solving and technical skills for being poor), will help them.

● Accurate and precise pattern about the position of bellybuttons: when a bellybutton is facing inwards or intruding that is due to the decrease in amount of fat near the area, while a bellybutton facing outwards or extruding is caused by excess fat near the area.

● Accurate and precise pattern for the reason this religion is "self-improving": the application of the required methodologies in this religion will produce accurate and precise patterns, then they will become Laws and theories for this religion, and the accurate and precise patterns, laws, and theories of this religion will be used to create the rules, restrictions, requirements, etc. causing a constant cycle of self improvement; another reason is that as more accurate and precise patterns are creating or discovered, the more of those patterns have to be included into vispenlogist language, geometry, visual language, and efficient vispthinkingpat, thinkflexsense, and soundpat methodologies, so constantly improving these methodologies and updating vispenlogist language, logic language, geometry, and visual language so people are thinking efficiently and thinking more about accurate and precise patterns.

● Accurate and precise pattern about any healthy diet: eat more digestible raw, non-toxic foods (such as most fruits and vegetables) than non-digestible raw foods (legumes and animal products)

● Accurate and precise pattern about rhythmical noise through towels and hoodies covering the head: you can make rhythmical noise by covering your head with towel or hoodie then move back and forth

● Accurate and precise pattern about annoying people and how to deal with them: people do annoying things because they think it's okay or they don't know the other person is annoyed by their actions, so the annoyed person must tell the annoying person to stop doing the annoying action because the annoyed person doesn't like it and if the annoyed person does it to the annoying person, the annoying person won't like it (i-pathy)

● Accurate and precise pattern about stationary movements: Stationary movements are everywhere, and it exists in living beings (like functioning human organs in a human body). Examples of stationary movements are vibrations, rotations, folding and unfolding, sliding, twisting, bending, moving to some side then opposite side repetitively, and other pattern movements. When you think closely about stationary movements, you realize that transportation requires stationary movements within the transporting or moving object or thing: for example, human legs (bending and unbending), rocket blast (vibration), fan (rotation), wheels (rotation), sound (vibration), light (vibration) are all stationary moving objects.

● Accurate and precise pattern about sticky food on plates that requires more than hot water rinse to get rid of, like hot water rinsing and brush scrubbing the plate: such foods due to their stickiness property will stick to the stomach, and the stomach is required to use its acidic liquid to get rid of the food causing stomach burns or acid refluxes

● Accurate and precise pattern about stomach noises when rocking back and forth in a rocking chair while breathing in heavily in a way expanding the stomach: the stomach makes noises when doing such activities

● Accurate and precise pattern of problematic or problem creating and causing parents: There are parents out there taking advantage

of the dependency system and forcing their kids to be dependent on them through lacking their kids' education, privacy, and freedom and forcing their kids to do negatively impactful actions for profiting from them: like working in a sexual intercourse selling and pornographic content producing and selling organization, working in a harmful drug producing and selling organization, working in a junk or harmful food and beverage producing and selling organization.

● Accurate and precise pattern about the main concept of running fast: pushing downwards then backwards to create forward movement

● Accurate and precise patterns about lazy chairs or rocking chairs effects: using a lazy chair or rocking chair makes you lazy and not want to do or think about serious issues.

● Accurate and precise patterns about adult Muslim terrorists: Adult Muslim male terrorists fight for heaven (a place filled with sinful actions like having sex with multiple female sex slaves).

● Accurate and precise pattern about many websites for universities ranked within the top 100 national universities: many websites for universities ranked within the top 100 national universities contain free and open lecture notes for their courses, but, to find those lecture notes, you have to search them within the university's website's search engine.

● Accurate and precise pattern about beautiful looking things: not everything that looks beautiful is good for your health and safety (like carpets and nuclear blasts)
● Accurate and precise pattern about Muslims: they are sexual people that live for sex by being rewarded to go to heaven to have sex with multiple sex slaves (like having sex with multiple sex slaves in heaven and have innocent dead children as their servants in heaven).
● Accurate and precise pattern about the causes of poverty: poverty is caused by lack of accurate and precise information or education,

lack of technology and/or materials to use for becoming self-reliant and healthy and independent, people being forced to do negatively impactful actions (like working in negatively impactful jobs or jobs providing negatively impactful effects and products (like being forced to work in sugar and tobacco plantations), worshipping non-accurate patterns such as Gypsies, Magic, Islam and Christianity and all other theistic religion's enforcing the belief in, worship of, sacrifice, and prayer to God) most of their time throughout every day, lack of consumer independence supplying businesses (like businesses producing and selling or renting chargeable electric cars for individuals and families, businesses producing communication technologies that enable users of such technologies to do positively impactful actions on their own or independently or individually like mobile phones, computers, laptops, and internet services), and significant ignorance from powerful people towards doing positively impactful actions like discrimination, drug abuse, crime, slavery, polluting, genocide etc. causing poverty and famine causing increasing trend in negatively impactful actions to survive

● Precise and accurate pattern about what good and bad people think when being watched: A good person who is being watched thinks of it as an educational activity for the person watching them due to the good person doing good things most or all the time while a bad person that is being watched thinks of it as an invasion of privacy due to not wanting others to know the bad things they do out of fear of what others will think of them and out of shame and guilt for the bad things they do

● Accurate and precise pattern about the making of terrorists: first, the person experiences poverty and famine; second, a wealthy person takes advantage of the person's poverty and famine experiences by rewarding him or her with food, shelter, and money in return for their service; third, this service is enforced upon the person being rewarded through a negatively impactful religious programs forcing them to believe in negatively impactful, useless, stupid, unscientific, illogical beliefs and ideas (like Islam or that the rewarder is a God, etc.) and combat training; fourth, the person being rewarded and enforced in believing in idiotic beliefs and ideas is ordered by the rewarder to sacrifice their life for the sake of the

idiotic beliefs the person was forced to believe in, so the soon-to-be-terrorist person thinking that his or her rewarder or benefactor is always right and correct, due to always being given food and shelter when following his or her commands, will sacrifice their life for the benefactor when told as they have no other reason to live but to serve the benefactor or rewarder enforcing idiotice beliefs on that soon to be terrorist; conclusion, terrorism can be eliminated through positively impactful education (like science, technology, engineering, and mathematics, I-pathy and empathy), clean and useful housing, eradicating famine and hunger through agricultural programs, and providing them with positively impactful jobs that enable their tasks to make other people independent (like manufacturing computers, hvac systems, cars, supermarkets, etc.)

● Accurate and precise patterns about the importance of mathematics and logic: Learning involves memorizing and understanding accurate and precise (precise results always contains a function) patterns.

    ○ Pattern(s) are order(s) and relation(s).

        ■ Orders are derived from lists, series of steps, sequences, structures, and some other type or form of organization and arrangement.

        ■ Relations are derived from measurements.

            ● Measurements are derived from metrology, calibration, mathematics, logic, assessments (definition, identification, explanation, estimation, approximation), and judgements.

    ○ Finally, accurate and precise patterns or orders and relations establish current rules, regulations, techniques, systems, methodologies, and procedures

● An accurate and precise pattern about imaginary friends: imaginary friends doesn't help you improve and makes you procrastinate by thinking about things increasing negative thoughts due to delusions and schizophrenia

● An accurate and precise pattern about preventing sexual arousal: in order to not think sexually, you have to excrete

● Accurate and precise pattern about parents, children, and junk food: there are children who are forced to eat junk food, causing the

children to be obese, weak, and malnourished.

superset(s), subset(s), interaction(s), difference(s), similarity/similarities, detail(s), station(s), movement(s), story/stories, size(s), description(s), attachment(s), amount(s), quantity/quantities/quantitative/quantization(s)/quanta design(s), process(es)/processor(s), series, sequence(s), event(s), behavior(s), reaction(s), model(s), action(s), time(s)/timer, age(s), existence(s), empathy, view(s), definition(s), categorization(s)/category/categories, explanation(s), estimation(s), revision(s), interaction(s), perspective(s), dimension(s), perception(s), sensation(s), focus(es), identity/identities/identification(s), purpose(s), quality/qualities/qualitative(s)/qualification(s)/qualifier maximum/maximization(s), minimum/minimization(s), framework(s)/frame(s)/foundation(s), growth, expansion(s), collection(s), classes, classification(s), principle(s), variable(s)/factor(s)/parameter(s)/operator(s), process(es), operation(s), experiment(s), group(s), set(s), macropattern(s), micropattern(s), establishment(s), application(s), improvement(s)

Accurate and/or precise patterns describing -> Universal Laws in List Format or Structure:

● Never support or conduct beauty competitions, because they don't improve the environment and competitors Ordreldiscoverercreatorimproversolver Behavior and Action Law: Never support or conduct beauty competitions, because they don't improve the environment and competitors.

● Ordrel universally applicable and always occuring law or rule: ordrels or orders and relations occur in every event and everything.

● Rules and Laws must change to improve and keep improving, so no Law and Rule should be permanent Universally Applicable and Always Occuring Law and Rule: Rules and Laws must change to improve and keep improving to be more accurate and precise and positively impactful ordrels, so no Law and Rule should be permanent

● Anything or any event before is the known and unknown cause, and anything or any event after is the known and unknown effect cycle Law: anything or any event before is the known and unknown cause or causation, and anything or any event after is the known and unknown effect, result, product, byproduct.

● Cause is an effect after a prior cause, and effect is a cause before another effect Law: cause is an effect after a prior cause, and effect is a cause before another effect.

● Improvement patterns result in version patterns based on successes and failures

● Improvement patterns result in version patterns based on successes and failures Law: since everything can always be improved, the result of each improvement develops a series or sequence of versions based on successes or successors and failures

● If you mentally and/or physically observed another person in a sexual way, you must reward the other person

Ordreldiscoverercreatorimproversolver Behavior and Action Law: if you mentally and/or physically observed another person in a sexual way, you must reward the other person by doing positively impactful actions, because you owe the other person for enabling you to feel sexually aroused, and it stops sexual feelings towards the other person by focusing on a positively impactful relationship of continuous problem solving and improving.

● Never permit wars or warfare, slavery, unjustified killings, unnecessary deaths, massacres, genocides, ethnic cleansing or ethnic based killings, mass killings of good civilians, killing and sexual abuse of children and women, and not preventing preventable deaths to occur, because it causes more humane harm and problems than any other human behavior and action Ordrel… Behavior and Action Law: never permit wars or warfare, slavery, unjustified killings, unnecessary deaths, massacres, genocides, ethnic cleansing or ethnic based killings, mass killings of good civilians, killing and sexual abuse of children and women, and not preventing preventable deaths to occur, because it causes more humane harm and problems than any other human behavior and action

● Disagreements between same and similar species must be settled in a logical, truthful, accurate and precise order and relation or ordrel, and non-violent Behavior and Action Ordrel… Behavior and Action Law:///

● Change always contains direction universally applicable law: examples are direction of effects, causes, movement, force, vibration, energy, pressure, and other types of change.

● Our atoms and our atoms' past, present, and future causes and effects will always exist universally applicable and always occuring Law: our atoms, causes, and effects of our past, present, and future conscious/unconscious and non-living/living existence will always exist whether we are conscious and alive (as in our atoms forming the basic structure of life for some future living creature or organism, such as plants, animals, bacteria, fungi, etc.), unconscious and alive (as in our atoms forming the basic structure of a cell in some living organism), conscious and non-living (as in our atoms forming the basic structure of a robot), or unconscious

and non-living (as in our atoms forming the basic structure of non-conscious and non-living natural resources, such as minerals, fossil fuels, etc.)

● Future living creatures will be our judge towards our atoms, causes, and effects of our past, present, and future living or non-living Existance Universally and Always Applicable Law: for example, we judge the dinosaurs, and past living fossil fuel giving organisms' existence through their fossil fuel's atoms, causes, and effects; another example, we judge our ancient living ancestors based on their known causes and effects, and unknowingly based on their atoms if they are contained within a rich source of chemicals (such as fossil fuels and minerals).

● Support Daily Injured Positively Impactful People and People Injured while Doing Positively Impactful or Good Actions Patterndiscoverercreatorimproversolver Behavior or Action Law: always support people who were injured while doing good things or positively impacting others (like doing medically aiding, manufacturing, securing, constructing to help others do better) and people who do mostly good things or positively impactful actions to help or improve their environment (includes others and the world)

● Businesses enabling consumers and employees to be sustainably independent law: create and support only businesses enabling employees and consumers to be sustainably independent

● Athletics, survival, safety, construction, protective, storage, and wearable technology for bodily strength, sensors, recovery, and speed, and transportation improving clothes and apparels creating, wearing, and supplying Law: only allowed to create, wear, and supply athletics, survival, safety, construction, protective, storage (like pockets, Fanny packs, etc.), and wearable technology for bodily strength, sensors, recovery, and speed, and transportation improving clothes and apparels (like exoskeleton clothes, wearable sensors, wearable remote controllers, wearable computers, bionic suits, nano suits, space suits, wearable flying technology, wearable sensors, wearable microscopic, macroscopic, and telescopic imaging and recording technology, wearable thermal and infrared imaging and recording technology, etc.)

● Macropattern and micropattern Law: each pattern or order and relation can be categorized or identified as a macropattern (like superset of subsets and conclusion in logical reasoning) and micropattern (like each subset in a superset and each premise in logical reasoning leading to conclusion).
   ○ Example: Finding a pattern in multiple observations to reach a precise conclusion; macropattern is the pattern in each observation, while micropattern is each observation
   ○ Example: Using a precise conclusion to discover or create a pattern in multiple observation; macropattern is the precise conclusion and/or pattern in multiple observations; while micropattern is each observation
● Macropattern or superset and micropattern or subset infinitely continuous cycle law: everything can be a macropattern or superset containing a group of smaller sets, subsets, or micropatterns and be a micropattern, subset, or smaller set in a group of sets for a larger set, superset, or macropattern; Therefore, a macropattern can be a micropattern or subset in a group of subsets for a larger set, superset, or macropattern; Also, a micropattern or a subset in a group of subsets for a larger set, macropattern, or superset can be a macropattern, superset, or larger set for smaller sets, micropatterns, or subsets.
   ○ Example "chair": Superset or macropattern called "superset of chair": subsets or micropatterns for superset or macropattern called "superset of chair" are "another subset for superset of chair" and "chair" (Superset or macropattern called "chair": subsets or micropatterns for superset or macropattern called "chair" are "chair parts" (superset or macropattern called "chair parts": subsets or micropatterns for superset or macropattern called "chair parts" are "chair legs" and "chair arms" and "chair seat" and "chair back-holder" and …) and "chair parts' manufacturing process" (superset or macropattern called "chair parts manufacturing process": subsets or micropatterns for superset or macropattern called "chair parts manufacturing process" are …) and "chair supplying process" (superset or macropattern called "chair

supplying process": subsets or micropatterns for superset or macropattern called "chair supplying process" are …) and …)

● Problem, solution, application thinking for Efficient Improvement Law: the best way to improve in anything is to think about everything as either a problem or solution by identifying all of their effects and causes then determining whether its effects and causes are mostly negatively impactful or positively impactful then find the application (technique, process, method, procedure, or operation) for applying the solution.

● Environment affects thoughts, thoughts affects actions, actions affects environment cycle law: environment affects thoughts, thoughts affects actions, actions affects environment

● Shape Law: everything has a shape that can be outlined using geometrical patterns or order and relation (including thoughts, actions, techniques, cells, and everything else)

● Continuous Improvement Religion Law: must record all accurate and precise patterns being discovered and created, and, since this religion requires daily to discover and create a lot of accurate and precise patterns, you must constantly update, upgrade, or improve this religion by recording this accurate and precise pattern and find practical applications (methods, techniques, procedures, processes, operations, etc.) from accurate and precise patterns to be used for physical, moral, mental, and environmental improvement.

● Always share the truth and accurate, precise information unrestrictedly Law: always share the truth unrestrictedly because lies, false information, and secrets have a greater chance at getting someone killed due to believing in lies and false information and due to not having access to the truth or true, accurate, and precise information than sharing true information unrestrictedly.

   ○ An example of lies and secrets getting many people killed is the Chernobyl disaster caused by excessive lies and restrictions to the truth

● Shrink and Expand or Grow Possibility Law: everything can expand or grow and shrink

● Human attention and ignorance law: every attentive activity involves ignorance of something; attentive of something and ignorant of another thing at the same time

● Pattern Law: everything and every event has order(s) and relation(s) or pattern(s), and patterns are created for accomplishing any task(s); living beings are more able to control the vibrations using sensory organs, and sensory organs are the result of the living organism being constantly exposed to vibrations or oscillations.

● Internal, Interior, Exterior, and External Cause and Effect Law: everything and every event contains an internal, interior, exterior, and external cause(s) and effect(s)

● Structure Law: everything has an exterior and interior

● Geometrical Patterns Law: everything and every event contains geometrical patterns or geometrical order and relation, so they can be described, ordered, identified, characterized, relationed, patterned, classified, categorized, visualized, explained, measured, etc. through geometry or point(s), angles, and/or line(s) (like sound being measured through wavelengths, which are comprised of points and lines or geometrical properties).

● Visualization through drawings, animations, geometry, graphs, models, shapes, diagrams, structures, and simulations Law: everything and every event can be visualized through drawings, animations, geometry, graphs, models, shapes, diagrams, structures, and simulations.

● Patterndiscoverercreatorimproversolver's allowed desires Law: to discover or create and establish positively impactful results, effects and causes, and/or solutions; to discover or create and establish accurate and precise patterns or orders and relations along with its applications; to discover or create and establish sustainable independence for all to be able to accomplish any positively impactful actions on their own or individually; to discover or create and establish improvements enabling easier and/or faster accomplishments or accomplishing results by improving applications, techniques, and/or methods; to discover or create and establish positively impactful freedoms for all to not restrict others in doing positively impactful actions for others and themselves.

● Religion's Improvement or Upgrade Law: "first, patternology methodology will be used to produce and record an uncategorized pattern statement, observations, variables, etc. . Second, learning

methodology will be used to produce and record accurate and precise pattern statement, observations, functions, variables, etc. . Third, accurate and precise pattern, observations, etc. will be used to produce laws. Fourth, laws will be used to produce restrictions, rules, requirements, etc."

● Never do mostly negatively impactful actions Law: never do mostly negatively impactful actions and don't let anyone force you to do mostly negatively impactful actions
● Movement to locate and take then movement to locate, put, and place Law or Change Law or Law of Change: first move to locate and take then move to locate, put, and place
● Equal and Opposite Law: everything contains an equal and opposite
● Mostly Positively Impactful or Mostly Negatively Impactful Law: every event, thing, action, etc. can either have mostly negatively impactful or mostly positively impactful results, effects, and/or causes.
● Reason Law: everything has a reason
　　○ Deductive reasoning law: everything can be reasonably deduced to lead into an accurate and precise pattern
　　○ Inductive reasoning law: everything can be reasonably induced to lead an accurate and precise pattern.
● Scientific Laws:
　　○ Classical Laws
　　　　■ Thermodynamics Laws:
　　　　■ Conservation Laws:
　　○ Quantum Laws:
● Maximum and Minimum Law: everything contains a minimum and a maximum
● Either a guide or a learner: the observed or observing subject and myself are either a learner or a guide. For example, the observed subject is a guide and I am the learner learning from the observed subject, or the observing subject is the learner, and I am the guide for the observing subject
● Your impacts are significant now and after your death law: what you do now and for the future generation are significant, so make sure you live a life solving as many problems as you can to make

the future generation not have to suffer with and face the same problems you had faced and suffered from and wished would not exist, so you know you will leave behind a legacy of solving as many problems as you discovered and experienced to make the world a better place

● Increase or More and Decrease or Less for Improvement Law: to improve at anything or for anything to improve, there must be an increase in something(s) and a decrease in something(s), or you must do more in something(s) and you must do less in something(s)

● Construction and Deconstruction Law: everything can be constructed and deconstructed (deconstruction is similar to disassemble but not the same as destruction in terms of energy)

● Assemble and Disassemble Law: everything can be assembled and disassembled

● Physically Stimulating Addiction Law: addictive activities are physically stimulating activities that make the brain release neurotransmitters (like endorphins, dopamine, and other neurotransmitters), and every single living being has a physically stimulating addiction, and these physically stimulating addictive activities comprise of doing stimulating exercise, flexing, excreting (like pooping and peeing), ejaculating, and ingesting chemicals that cause the brain to unnaturally release neurotransmitters (most of these chemicals are harmful to the body like junk food, alcohol, and harmful drugs and ingesting such chemical results in substance abuse, drug overdose, and obesity just to release the neurotransmitters and feel good for a short while); as a follower of this religion, you can only be addicted to the following physically stimulating activities: flexing, thinkflexsensing, doing stimulating exercise, excreting, and eating sweet and nutritious fruits, vegetables, and other nutritious, fibrous, and non-toxic foods.

● Energy Law: Energy or energy patterns causes vibrations or vibrational patterns, vibrations or vibrational patterns causes patterns to exist in everything and every event, including in energy and vibrations.

● Combination or Separation Law: everything, every event, or anything can be separated and combined or is separated and combined or part of a separation process and combination process

● Continuous Learning Law: anyone can learn accurate, precise, useful, positively impactful patterns or information from any being, from anything, and from any event and during any time and anywhere.
● Solution Law: every problem has solution(s) that can be created or discovered by oneself, and you just need to find an accurate and precise pattern or order and relation to solve any problem
● Accurate and Precise Pattern for Solution to any problem Law: every problem has an accurate and precise pattern as a solution, and you just need to find an accurate and precise pattern or order and relation to solve any problem
● Universal Cycle Law (version 2): (1) energy produces vibrational pattern, (2) vibrational pattern produces position and direction, (3) position and direction produces change or movement or transformation, (4) change or movement or transformation produces pressure or force, (5) pressure or force produces connection/combination and separation, (6) resulting in the existence of patterns in every thing and every event.
    ○ Universal cycle law (version 3): (1) energy produces vibrational pattern, (2) vibrational pattern produces other patterns
● Vibration and Oscillator Law: everything is made from some sort of vibration (including light, sound, atoms, physical and chemical reactions) and always oscillates; when two different vibrations combine and do not resonate, they don't last long and die quicker; when two different vibrations combine and resonate, they last long and live longer; when two different vibrations combine and resonate at a higher frequency, they last and live longer than resonating at a lower frequency
● I-pathy Law: every living being doesn't like pain caused by others, so we should all treat each other like the way we want to be treated by them; "treat others the way I want them to treat me: be respected, be sustainably independent, and helped when needed to do positively impactful actions so be respectful, enable others to be sustainably independent, and help those in need to do positively impactful actions"

○ No one likes to be physically hurt (includes pain from violence, pain from being poisoned, pain from rape, and pain from forced starvation and hunger) by others, so don't hurt others unless the other person you want to physically hurt is physically hurting you, about to physically hurt you, and physically hurt you in the past in an unjustified way yet demands respect from you (that violates I-pathy when a person constantly physically abuses and uses someone to make the abuser's or bully's life easier and still demands respect from that person being abused and used). Only exceptions to this principle is when teaching someone else survival and martial arts to make that other person stronger, smarter, and faster

○ No one likes to be stolen from by others, so don't steal from others. Taking back what was stolen from you doesn't count as stealing back but counts as taking back what was yours

○ No one likes their positively impactful reputation and past actions tainted and distorted by verbal abuse, lies, and jokes made by others so don't do it to others.

○ No one likes to be restricted when they do good things or positively impactful actions to society

○ Everyone wants to be sustainably independent or be able to do good things or positively impactful actions for themselves and society on their own without being forced to rely on others to do good things or to have other people's permission just to do good things for society

● Imperfection Law: everything contains imperfections

○ No God exists because everything existing in this world is imperfect but can always improve unlimitedly yet still remains imperfect

● Free education law: accurate and precise information must be shared freely

● Lack Law: everything lacks something

● Superset and Subset Law: everything and event can be deduced from at least one superset to at least two subsets and be induced from at least two subsets to at least one superset

● Summation and Induction Law: everything, anything, or smaller things added together or combined make bigger things (ideas, actions, technologies, successful operations)

● Subtraction and Deduction Law: everything or anything can be separated or deduced to form smaller things.

● in Constant Improvement Law: everything (every being, every event, every action, every technique, and every task) can constantly be improved or constantly made easier or faster.

● Exposure Law: exposing yourself and/or something to another something or event can either damage or improve yourself and/or something; for humans, it all depends on the total results/effects/causes (either mostly positively/good impactful results/effects/causes or mostly negatively/bad impactful results/effects/causes) of your environment, thoughts, and actions during the exposure that decides whether you have damaged or improved yourself and/or environment during the exposure

● Stimulating Exercise and Flexing Law: stimulating exercise and flexing are the most healthiest and positively impactful and addictive physically stimulating activities you can have, so Patterndiscoverercreatorimproversolvers must be doing them daily

● Abled, Physically Disabled, and Mentally Disabled Consumer Positively Impactful Action and Solution Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Independence Organizations, Products, Person, and Businesses Law: as a Patterndiscoverercreatorimproversolver, I am only allowed to create portable, self-charging, rechargeable, and do-it-yourself machines, facilities, and robots enabling disabled and abled people to accomplish any positively impactful task in any location and place on their own safely and in a clean, non-polluting way; and, as a Patterndiscoverercreatorimproversolver, I must record and share the process or series of steps of creating the product for free to anyone

● Repetitions for subconscious and unconscious memorization Law: the more you repeat an observation or repeat accomplishing the

same task, the more you memorize the observation or the method for accomplishing the task subconsciously and unconsciously
● Congruency, similarity, corresponding, and or proportional Law: causes and effects of an event or characteristic or property are always congruent, similar, corresponding, and or proportional
● Never commit sexual intercourse law: Will never have sexual intercourse, because this is necessary for preventing sexually transmitted diseases and infections, and you can produce offsprings or reproduce offsprings without having sexual intercourse by conducting IUI and other non-sexual intercourse impregnating procedures, and it is much safer for the females than having sexual intercourse
● Edutainment Only Law: Only allowed to watch and create edutainment, such as lectures, tutorials, documentaries, demonstrations, experiments, biographical and non-fiction stories, educational and accurate and precise animations and visuals and soundpat and simulations
● Human learning procedure law: the application of vispthinkingpat and thinkflexsense in a repetitive structure about a sensual observation (from the senses) and mental observation (from the thoughts) at least twice for the same observation.
● Stationary movement law: stationary movements exist in every moving object and thing, and are currently classified as either vibrations, rotations, folding and unfolding, sliding, twisting, bending, moving to some side then opposite side repetitively, and other pattern movements.
● Externally Caused Pain Law: always remember feeling pain is good for the body and the problem is not that the body feels pain but that something harmful is causing or caused the body to feel pain
● Positively Impactful Businesses Creation and Support Law: only support positively impactful businesses (support farms selling healthy products instead of junk food businesses and support schools supporting free and open access information instead of schools restricting their information to only those who pay for it)

Accurate and/or precise patterns describing -> Theories, Postulates, Hypothesis, Properties, Concepts, Classifications, Classes, Principles , Sets, Groups, Models, Structures, Terms, Definitions, Characterizations, Categorizations, Formats, Forms, Systems, Outlines, Diagrams in List Format or Structure:

- Scientific theories:
  - Quantum Theory: /////
  - String Theory: /////
  - //////
- Mathematical logic theories or formal theories:
  - Set theory:
  - Model theory:

- Vispenlogist Structure
- List structures, outline, format:
  - Numeral lists
  - Bulletpoint lists
- Phase diagram
- Exercise categorization:
  - Fast/moderate/slow body movement, long/short time period, body parts usage for exercise, energy and/or nutrient usage,

replenishment, and consumption, and long/short location movement distance for strengthening, enduring, sensing, balancing, and fastering exercises;
○ strength, endurance, balance, mental or thought accuracy and precision sensory or cognitive accuracy and precision, and/or speed exercise;
○ purpose of exercise for stimulation or technique memorization and improvement; stimulating exercise or technique exercise
○ Bodily and/or environmental factors based on causes and effects of doing exercise

Accurate and/or precise patterns describing -> Techniques, Methodologies, Methods, Procedures, Processes in List Format or Structure:

● Technique to find free educational websites: To find free educational sites that contain information about your topic of interest, type on a search engine (preferably a Google search engine) "free" then your topic of interest and the format (course, mooc, pdf, ebook, simulations, lectures, videos, audios, games, sites, news, etc.) you want it to be delivered. For example, I want to learn about hydrology through a lecture format, so I will type "free hydrology lectures" on a search engine, preferably Google Search.
● Logical reasoning methods: /////////////////
　○ Symbolic Logic
　　　■ Predicate Calculus
　　　　● First-order logic
　○ Propositional Calculus:

　○ Logical Connectives:
　○ Sets

○ Ordered pairs and relations
○ Index notation:
○ Boolean operations:
○ Partition and equivalence relations:
○ Deductive reasoning techniques:
○ Inductive reasoning techniques:
○ Syllogism:
○ Vispenlogist method
● Mathematical Truth Tables method: ////////////////////////////////
● Acid reflux from food or ingredient on plate test: put the food or ingredient on a plate; wait 5 minutes; take out the food from plate slowly; check if there are remains of the food still sticking to the plate; if there are, then you will get acid reflux due to the food's stickiness property, and, if there aren't food remains sticking to plate, then you won't get acid reflux due to the food's non-stickiness property.
● Method for dealing with annoying people: people do annoying things because they think it's okay or they don't know the other person is annoyed by their actions, so the annoyed person must tell the annoying person to stop doing the annoying action because the annoyed person doesn't like it and if the annoyed person does it to the annoying person, the annoying person won't like it (i-pathy).
● Efficient analyzation of problem methodology: when an event or thing has mostly negatively impactful effects and causes, then the thing or event is a problem and the best way to solve the problem is to mitigate or eliminate and change the causes to mostly positively impactful ones to produce mostly positively impactful effects.
● 10 and 5 as a subtraction and addition aiding method for mental calculations:
○ Example: solve 40-32
■ First, imagine what 10 plus 32 would produce: 42
■ Second, subtract 40 from 42: 2
■ Third, subtract 2 from 10: 8
■ The solution is 8.

Accurate and/or precise patterns describing -> Observations, figures, measurements, formulas, functions, expressions, tables, charts, visuals, graphs, shapes' types and formations and transformations, designs, formations in List Format or Structure:

Daily Warnings, Rules, Requirements, and Restrictions for following this religion (reminder that these rules, requirements, and restrictions are there to enable the follower to be faster, stronger, smarter, and kinder) in List Format or Structure:

- Join, partner, support, and network with only humanitarian organizations, organizations offering free education and free positively impactful software, and/or organizations enabling employees and consumers to be sustainably independent rule: I will join, partner, support, and network with only humanitarian organizations (like Americorps, Peace Corps, United Nation, USAID, …) , organizations offering and providing free educational content and free positively impactful software (U.S. Census Bureau, MIT OCW, Coursera, Global Health Media, Linux and GNU and BSD related softwares, …), and organizations enabling employees and consumers to be independent (Abled, Physically Disabled, and Mentally Disabled Consumer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information,

Educating, Learning, Researching, and Constantly Improving and Advancing Independence Organizations, Products, Person, and Businesses)

● At least 5 repetition for subconscious and unconscious memorization Rule: when repeating anything to memorization subconsciously or unconsciously, must repeat at least 5 times.

● Patterndiscoverycreationimprovementsolutionsrel based facilities must have visual recording sensors and sound recording sensors in each room, except in bathrooms and restrooms, and the recordings must be shared to the Internet for the public freely Rule and requirement: this Rule applies to all Patterndiscoverycreationimprovementsolutionsrel facilities, including Patterndiscoverycreationimprovementsolutionsrel based schools, childcare centers, daycare, hospitals, manufacturing facilities, energy production facilities, etc.

● Problem-solver and Improver Only Rule: as a Patterndiscoverercreatorimproversolver, you are only allowed to solve discovered or created problems by discovering or creating and establishing solutions and to physically, mentally, and morally improve oneself and improve the environment, surroundings, others, etc. in a positively impactful way.

● When Guilty Rule: when you feel guilty after doing something eliminate that feeling of guilt by doing something that you want the other person to do to you (like teach, help, apologize, and other positively impactful actions).

● Always flex and stretch rule: always flex and stretch the body before and after exercising it

● Never accept negatively impactful people rule: never accept people who are a negative influence to myself and who are mostly negatively impactful people or do mostly bad actions to others every day

● Never eat products made of pig: never eat ham, bacon, and anything containing pig

● Body treatment rules:
    ○ Body treatment Rule for women/girls/females: not allowed to wear things that are not physically good for the body or

damages the body like high heels, piercings, makeup and permanent tattoos

○ Body treatment Rule for men/boys/males: not allowed to wear things that are not physically good for the body or damages the body like pointy end shoes damaging toes and makeup and piercings and permanent tattoos

○ Body treatment Rule for treating other animals: do not apply piercings in other animals for tracking them, and use elastic and adjustable collars for tracking them

● Social Rules:

○ Social Rule when examining people or other organisms: first, use I-pathy (treat the other organism like the way I want to be treated by that organism and use my own senses in my thoughts when examining the other organism's perspective as my perspective); second, apply empathy (apply the other organism's environment, perspective, thoughts (if any), and behavior as my own); third, identify the causes and effects of that organism's environment, actions, thoughts (if any), and perspective; finally, identify the problems and create the solutions for those problems

○ Social Rule for treating others: treat others like the way you want to be treated by them, unless the other directly or indirectly intends to cause or causes physical harm to you and others who do mostly positively impactful actions. Forced starvation counts as physically harm.

○ Social Rule for preventing taking advices from fat fucker businessmen, politicians, and businesswomen: never take advice from fat fucker businessmen, politicians, and businesswoman, because they don't know what is good for society, and they don't take care of their health and, as a result, ignore other people's health.

○ Social rule of always being a positive influence on others: be a positive influence on others; teach and supply others to be able to do any positively impactful task independently

■ Social Behavior Rule: always be a positive influence on others by guiding others to do positively impactful actions and for others to be able to accomplish any

positively impactful task independently or on their own when possible and by learning from others while helping others
○ Social rule for rewarding others: reward others for doing positively impactful actions for free
○ Social rule for only supporting others offering free educational information: only allowed to materialistically and financially support people offering free and open to the public educational or precise and accurate information and free software
○ Social rule to never forgive oneself and others to never forget my and others' mistakes and created problems rule: never forgive to never forget to always learn the cause and results of the problem or mistake
○ Social rule for social behavior "be either a guide or a learner": As a Patterndiscoverercreatorimproversolver, the observed or observing subject and myself are either a learner or a guide. For example, the observed subject is a guide and I am the learner learning from the observed subject, or the observing subject is the learner, and I am the guide for the observing subject
● Your solutions determine your life's worth rule: Your life's worth is based on the amount of problems you solve, the effects of your solutions, and the amount of problems you create or cause Rule: the amount of problems you solve and the averagely positive effects of those solutions increase you life's worth, while the amounts of problems you knowingly and intentionally create then ignore and do not solve and averagely negative effects of those problems decrease your life's worth.
● Never allowed to sit on or create lazy chairs or rocking chairs: sitting on lazy chairs causes the brain to become foggy and hard to think, which causes the person to not want to do anything and become lazy and disoriented.
● Body Cleansing Rule: apply wudu or take a full body bath or shower at least once everyday to clean the body and clean the body after being exposed to harmful chemicals and pollutants, especially including the nose, ears, and mouth

● Sacrifice Rule: you should only sacrifice something or yourself for the sake of doing something averagely positively impactful to society
   ○ Most honorable and significant sacrifice you will ever make is living as a Patterndiscoverercreatorimproversolver and fulfilling Patterndiscoverercreatorimproversolver's requirements daily
● Social Oral Communication Rule: choose one of the options below
   ○ State detail(s) only.
   ○ First, state detail(s); then, ask.
   ○ Only ask.
● Thinkflexsense Rule: always flex the body parts and sensory organs used in your thoughts
● Social Support Rule: only materialistically and financially support people who provide free accurate and precise information or education and free positively impactful softwares.
● When asking or answering in patternology methodology statements, must use at least 4 words in abbreviation in each statement ("order" and "relation" must always be used in such statements)
● Physical greeting rule: smile and wave with your hand to indicate your presence to the other and never bow to anyone
● Official language: Visual Language is the official language of the religion
● Body Weight Rule: Never allowed to be fat (being fat is a sign of being ignorant in doing the right thing or positively impactful actions), and, if following this religion, you can't be fat due to daily exercise and healthy diet required by this religion
● When possible, reward people for doing positively impactful actions based on the amount or quantity of positively impactful results of doing the action.
● Must do technique exercises for each and every category categorized within technique exercises.
● Must do evolving exercises for each and every body part and senses

● Business Sharing Rule: Must share every accurate and precise patterns, useful and/or significant information, and softwares to the world for free, while ensuring materials are given to adults based on their amount of positively impactful actions or good behavior and, if possible, for free to children.

● Never curse, say bad, or say words that have negative connotations that are inaccurate, because saying such things mentally and physically makes you think negatively, and thinking negatively results in negatively impactful actions

● Create businesses that encourage and supply consumers to be independent and never allowed to create businesses that encourage consumers and force consumers to constantly or daily rely on your business to survive and stay healthy (like how restaurants makes people rely on them just to eat food, instead, create machines and robotic chefs that can cook the food within consumers' homes).

● When possible, reward yourself for doing good things: eat fruits and vegetables, flex, do stimulating exercises, do intense/explosive, fast-paced exercises, eat fruits and vegetables and protein source (like cooked legumes), excrete, vispthinkingpat, thinkflexsense, and/or mentally/physically soundpat

● Never allowed to damage your body to look attractive (like wearing harmful shoes, body piercing, and tattooing your body)

● Must apply at least 4 different positions of stimulating exercise and flex and stretch the entire body

● Stimulating exercise restrictions: can only and must do stimulating exercise during the application of evolving exercise; must never vispthinkingpat negatively impactful actions (like thinking about cursing, sexual intercourse, killing unjustifiably) while doing stimulating exercise due to causing an obsession with vispthinkingpat or visually thinking about such activities; when doing stimulating exercise make sure to stretch and flex the affected area before and after doing stimulating exercise and eat fruits and vegetables plus protein source and drink water to refuel your body and stay hydrated (or else your body, especially the stomach and intestinal areas, will painfully feel stinging sensations)

● Food restrictions: must never ingest cheese, butter, manufactured oils (like canola, Mazola), cornstarch, high fructose corn syrup, wheat flour (so no wheat bread, noodles, and pasta)
  ○ When possible, become a vegan or herbivore and stop ingesting animal products
  ○ For food and beverages (only drink water or **fruit and vegetable smoothies** due to other beverages like bottled 2 percent juice containing minerals causing kidney stones in the human body). Also, this religion's diet will be comprised of only protein source (mainly legumes and/or non-carcinogenic animal products) and fruits and vegetables (no grains), so **chicken, meat, and/or bean soup or stew** with lemon, garlic, and onion and fruit for dessert or **chicken, meat, bean, and/or fruit salad** with lemon, garlic, and onion
● Liquid intake restrictions: never drink alcoholic beverages (like beer, wine, vodka)
● I-pathy Rule: treat other organisms like the way you want to be treated by them, unless the other organism is a threat to your health or physical wellbeing (this doesn't include or account for martial arts exercises and survival exercises with other organisms).
  ○ No one likes to be physically hurt (includes pain from violence, pain from being poisoned, pain from rape, and pain from forced starvation and hunger) by others, so don't hurt others unless the other person you want to physically hurt is physically hurting you, about to physically hurt you, and physically hurt you in the past in an unjustified way yet demands respect from you (that violates I-pathy when a person constantly physically abuses and uses someone to make the abuser's or bully's life easier and still demands respect from that person being abused and used). Only exceptions to this principle is when teaching someone else survival and martial arts to make that other person stronger, smarter, and faster
  ○ No one likes to be stolen from by others, so don't steal from others. Taking back what was stolen from you doesn't count as stealing back but counts as taking back what was yours

○ No one likes their positively impactful reputation and past actions tainted and distorted by verbal abuse, lies, and jokes made by others so don't do it to others.

● Physical abuse restriction to children: never physically abuse (starve, intentionally poison, sexually assault, and physically hurt) children or a person under the age of 20 years unless it is for martial arts/survival training and I-pathy teaching to a child physically bullying other children

● Restrictions for entertainment: can't sense entertainment displaying content encouraging people to do bad behaviors like ingesting harmful chemicals and having sex for fun (like pornography and romance entertainment) and does not educate the audience how to do useful and positively impactful actions; can only sense edutainment because you will waste brain cells by watching negatively influential entertainment

● Head hair restrictions: hair should be short enough to not bother and block the eyes, and should be long enough to cover the entire head to protect the skin of the head from the sun's rays

● Restrictions to ingesting chemicals: never ingest harmful chemicals into your body for purposes other than to strengthen your immunity to such chemicals

● Language rule for non-blind followers of this religion: as a non-blind follower of this religion, I have to apply visual language when applying learning methodology and patternology methodology

● Dying Rule: You can only die by doing stimulating exercise and flexing the body; doing this improves the physical and mental state while feeling like dying or when injured, and decreases the chance of dying from injury or committing suicide

● Rule for preventing heart attacks and strokes through diet: all animal products contain LDL cholesterol that can thicken the blood vessels causing burst in blood vessels so if still eating animal products make sure to ingest low fat (combining LDL cholesterol and fat increases the chance of a blood vessel to obstruct through blocking blood flow and cause stroke and heart attack) animal products and combine with vegetables known to clean the blood vessels, or stick to a vegan diet with vitamin B12 supplements to abstain from LDL cholesterol and saturated fat

● Vispthinkingpat Moving Visuals Only Rule: always visualize patterns or order(s) and relation(s) in your thoughts using moving images (like videos) and not in a still image to mentally see in multiple perspective and better simulate the thought

● For procedure to nonsexually reproducing children: first, must ejaculate into a container; second, must scan the sperm cells for pathogens and fertility and communicate the report to the future father or sperm maker and future mother or female host; third, must improve the sperm cells by fertiling it and clean out all the diseases and pathogens found in the sperm cells; third, insert the sperm cells in the desired mother for the child; currently, the IUI method is the safest method to impregnate women without getting them killed (need to create machines that impregnate women safer, easier, and more portable than through sexual intercourse and IUI method to the point there is no risk at all getting pregnant the Patterndiscoverycreationimprovementsolutionsrel way and you can get pregnant the Patterndiscoverycreationimprovementsolutionsrel way by yourself or individually and be taken care of by yourself and robots and other machines during the pregnancy)

● No romance, sexual behavior, sexual intentions, sexual pleasure, and flirtation Rule: as a Patterndiscoverercreatorimproversolver, you are only allowed to be a problem solver and a self-improver and romance, sexual behavior, sexual intentions, sexual pleasure, and flirtation won't solve problems and improve anyone so can't do such activities

● To feel good physically: eat fruits and vegetables without protein source, flex, do stimulating stationary exercises, do intense/explosive, fast-paced exercises, eat fruits and vegetables and protein source (like cooked legumes), excrete, vispthinkingpat, thinkflexsense, and/or mentally/physically soundpat (like beatbox)

● Imaginary Patterndiscoverercreatorimproversolver guide or coach rule: Have an imaginary Patterndiscoverercreatorimproversolver guide or coach to motivate you to follow Patterndiscoverycreationimprovementsolutionsrel when isolated or neglected
  ○ This rule will be eliminated once there is a Patterndiscoverycreationimprovementsolutionsrel based

artificial intelligence and/or Patterndiscoverycreationimprovementsolutionsrel based robot to guide and coach Patterndiscoverercreatorimproversolvers in their daily improvement and problem solving processes.

● Never waste resources by developing negatively impactful products Rule: When possible, can't waste resources for developing products proven to be negatively impactful to the environment and the consumers (such products are junk food and harmful drugs)

● Visual recording sensors and sound recording sensors in Patterndiscoverycreationimprovementsolutionsrel construction, manufacturing, robot, energy production, and educational technologies Rule: All Patterndiscoverycreationimprovementsolutionsrel construction, manufacturing, robot, energy production, and educational technologies must have rechargeable visual recording sensors and sound recording sensors (preferably wireless if possible) that can be used to enable the user to show his or her observations, solutions, and other educational, accurate and precise information through observation online

Required activities that must be done every day:

● **Inspect, scan, monitor, check, examine, test, review, replace, and/or repair or improve some pattern (order and relation), some solution, some problem, some phenomena, some event, some material, some technology, some idea, some thought, some behavior, some action, some being, some creature, some organism, and/or someone time period (at least 5 times and/or for at least 5 things daily):**
Patterndiscoverercreatorimproversolvers must inspect, scan, monitor, check, examine, test, review, replace, and/or repair or improve some pattern (order and relation), some solution, some problem, some phenomena, some event, some material, some

technology, some idea, some thought, some behavior, some action, some being, some creature, some organism, and/or someone.

● **Teaching children Patterndiscoverycreationimprovementsolutionsrel time period (at least 5 times and/or for at least 5 things daily)** : Patterndiscoverercreatorimproversolvers must daily educate virtually and/or physically at least 5 children or at least 5 times educate children by educating children or people under 20 years old about the religion by showing them how to follow the religion, teaching them accurate and precise patterns and religion's requirements, and teaching them efficient methods.

● **Survival methods, safety methods, technical methods, technological development, geometrically correct/accurate, physics or physically correct/accurate, chemically correct, mechanically correct, astronomically correct, scientifically correct, mathematically correct, educational, positively impactful stories time period (at least 5 times and/or at least for/about 5 things daily):**

● **Health rejuvenation time period (at least 5 times and/or for at least 5 things daily):** must eat nutritious food, obtain and ingest non-toxic nutrients, drink water, excrete, and do other healthy activities to boost, energize, improve, and rejuvenate your health at least 5 times or for at least 5 things.

● **Cleaning oneself time period (at least 5 times and/or for at least 5 things daily)** : Patterndiscoverercreatorimproversolvers must clean themselves daily at least 5 times or clean at least 5 parts of their body.

● **Cleaning environment time period (at least 5 times and/or for at least 5 things daily):** Patterndiscoverercreatorimproversolvers must clean their environment or surroundings daily by cleaning at least 5 things or at least 5 times.

● **Preparation for the Future (Next second/certain second, next minute/certain minute, next hour/certain hour, Tomorrow, after tomorrow, certain day, next week/certain week, next month/certain month, next year/certain year) time period (at least 5 times and/or for at least 5 things daily)** :

Patterndiscoverercreatorimproversolvers must prepare, answer, plan, and strategize daily for at least 5 future activities or at least 5 times to be able to have more control over future activities and handle future activities with more positive and prepared thoughts.

● **Organization or organizing activity time period (at least 5 times and/or for at least 5 things daily)** : Patterndiscoverercreatorimproversolvers must organize daily at least 5 things or at least 5 times.

● **Reviewing analyze the past and past experiences time period (at least 5 times and/or for at least 5 things daily):** daily, a Patterndiscoverercreatorimproversolver must review and analyze at least 5 past experiences or at least 5 times.

● **Wishes, Ideas, Wants, Needs, Problems, Solutions, and Goals list time period (at least 5 times and/or for at least 5 things daily):** Patterndiscoverercreatorimproversolvers must identify and record at least 5 problems, wishes, ideas, wants, needs, solutions, and goals and aim to address the problems, wishes, ideas, wants, needs, solutions, and goals during the application of patternology methodology and learning methodology in the "asking phase" or "problem identifying phase"

● **Collection or collecting activity time period (at least 5 times and/or for at least 5 things daily):** daily, a Patterndiscoverercreatorimproversolver must collect virtually (like copy and pasting or downloading educational online content) and/or physically at least 5 things or at least 5 times.

● **Construction or assembling time period (at least 5 times and/or for at least 5 things daily):** daily, a Patterndiscoverercreatorimproversolver must construct or assemble at least 5 things or at least 5 times.

● **Deconstruction or disassembling time period (at least 5 times and/or for at least 5 things daily):** daily, a Patterndiscoverercreatorimproversolver must deconstruct or disassemble at least 5 things or at least 5 times .

● **Solutions or solving problems time period (at least 5 times and/or for at least 5 things daily):** daily, a Patterndiscoverercreatorimproversolver must solve at least 5 problems or have at least 5 solutions.

● **Build/Create/Work/Volunteer in Businesses positively impacting abled and disabled consumers and supporting and supplying disabled and abled consumers to be sustainably independent and be able to improve physically, environmentally, mentally, morally, and informatively (at least 5 times and/or for at least 5 things daily):**
build/work/create/volunteer for only Abled, Physically Disabled, and Mentally Disabled Consumer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Independence Organizations, Products, Person, and Businesses   (like businesses creating robotic chefs for homes to individuals)

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Creating, Developing, and Supplying Long-term Positively Impactful Products, Solutions, and Facilities Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Creation, Development, and Supplying of Positively Impactful Products and Facilities Independently Organizations, Products, Person, and Businesses**
○ **Abled, Physically Disabled, and Mentally Disabled Consumer Positively Impactful Transactions and Rewards Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Positively Impactful Transactions and Rewards Independently Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Cryptocurrency, Cloud Technology, Serverless Technology, Data Mining, and Ledger Technology Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Cryptocurrency, Cloud Technology, Serverless Technology, Data Mining, and Ledger Technology Independently Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Sharing Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Sharing Independently Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Accurate and Precise Pattern Communication, Discovery, Creation, and Education Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Accurate and Precise Pattern Communication, Discovery, Creation, and Education Independently Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Educational Toys, Learning Games, Exercising Games, and Positively Impactful Technique Games Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating**

Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Educational Toys, Learning Games, Exercising Games, and Positively Impactful Technique Games Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Athletics and Positively Impactful Individual and Group Sports, Sports Competitions, and Educational Competitions Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Athletics and Positively Impactful Individual and Group Sports, Sports Competitions, and Educational Competitions Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Physical and Virtual Models Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Physical and Virtual Models Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Internet of Things Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing

Internet of Things Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Original Equipment Manufacturing Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Original Equipment Manufacturing Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Additive Manufacturing Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Additive Manufacturing Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Autonomous Unmanned Mowing, Tree and Plant Branch Trimming, Fertilizing, Photosynthesizing, Composting, Herbicide Creator and Spreader, Pesticide Creator and Spreader, Arboring, Plant Sperm or Pollen Collecting and Spreading to Female Plants, Vegetative Reproduction and Breeding, and Edible Vegetation Food Collecting Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Autonomous Unmanned Mowing, Tree and Plant Branch Trimming, Fertilizing, Photosynthesizing, Composting, Herbicide Creator and Spreader, Pesticide Creator and Spreader,

Arboring, Plant Sperm or Pollen Collecting and Spreading to Female Plants, Vegetative Reproduction and Breeding, and Edible Vegetation Food Collecting Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Vegetablecare and Vegetationcare Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Vegetablecare and Vegetationcare Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Harmful Chemical Ingestion Detection, Removal, and Prevention Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Harmful Chemical Ingestion Detection, Removal, and Prevention Independently Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Toxins, Poisons, Harmful and Addictive and Non-medical Drugs, Carbon Monoxide, Pollution, Contamination, Pathogen, and Gamma Radiation Detection, Mapping, and Prevention Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Toxins, Poisons, Harmful and

Addictive and Non-medical Drugs, Carbon Monoxide, Pollution, Contamination, Pathogen, and Gamma Radiation Detection, Mapping, and Prevention Independently Organizations, Products, Person, and Businesses

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Water, Nutritious Food, Nutrients, Biology, and Agriculture Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Water, Nutritious Food, Nutrients, Biology, and Agriculture Independence Organizations, Products, Person, and Businesses**

■ **Abled, Physically Disabled, and Mentally Disabled Consumer Nutrient Production Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Nutrient Production Independence Organizations, Products, Person, and Businesses**

■ **Abled, Physically Disabled, and Mentally Disabled Consumer Aquaponics Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Aquaponics Independence Organizations, Products, Person, and Businesses**

■ **Abled, Physically Disabled, and Mentally Disabled Consumer Genomics, Cloning, Sperm and Egg and**

Seed Incubation and Preservation, Gland Technology, Artificial Insemination, Reproductive Technology, Organism Artificial Formation and Growth Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Genomics, Cloning, Sperm and Egg and Seed Incubation and Preservation, Gland Technology, Artificial Insemination, Reproductive Technology, Organism Artificial Formation and Growth Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Household Composting, Household Fertilizing, Household Plant Vegetation Watering and Breathing and Stimulating and Feeding, Household Supergreens Vertical Farming and Household Herbal Gardening Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Household Composting, Household Fertilizing, Household Plant Vegetation Watering and Breathing and Stimulating and Feeding, Household Supergreens Vertical Farming and Household Herbal Gardening Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Regeneration Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate

and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Regeneration Independently Organizations, Products, Person, and Businesses

- ■ Abled, Physically Disabled, and Mentally Disabled Consumer Medical and Regenerative Stem Cell Production Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Medical and Regenerative Stem Cell Production Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Athletics, survival, safety, construction, protective, storage, and wearable technology for bodily strength, sensors, recovery, and speed, and transportation improving clothes and apparels Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Athletics, survival, safety, construction, protective, storage, and wearable technology for bodily strength, sensors, recovery, and speed, and transportation improving clothes and apparels Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer energy and nutrient usage, consumption, replenishment, and recharge Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate

and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing energy and nutrient usage, consumption, replenishment, and recharge Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Detection, Monetorization, and Preservation Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Detection, Monetorization, and Preservation Independently Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Renewable Energy, Renewable Fuel, Renewable Resource, and Rechargeable Battery Creation, Safe and Sustainable Usage, Storage, Detection, Monetorization, and Preservation Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Renewable Energy, Renewable Fuel, Renewable Resource, and Rechargeable Battery Creation, Safe and Sustainable Usage, Storage, Detection, Monetorization, and Preservation Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Body Necessities and Needs and Household Necessities and Needs Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating,

Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Body Necessities and Needs and Household Necessities and Needs Independently Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Sleep and Excretion Necessities Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Consumer Sleep and Excretion Necessities Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Chemical, Nuclear, and Physically Applied Medicine, Medical Drugs, Medical Instruments, Medical Tools, Medical Technology, and Pharmaceuticals Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Consumer Chemical, Nuclear, and Physically Applied Medicine, Medical Drugs, Medical Instruments, Medical Tools, Medical Technology, and Pharmaceuticals Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Autopiloting, Manualpiloting, Manned, and Unmanned Water, Air, Space, Planetary, and Ground Transportation Vehicle Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating,

Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Autopiloting, Manualpiloting, Manned, and Unmanned Water, Air, Space, Planetary, and Ground Transportation Vehicle Independence Organizations, Products, Person, and Businesses

- ■ Abled, Physically Disabled, and Mentally Disabled Consumer Unmanned Autonomous Systems for Water, Air, Space, Planetary, and Ground Transportation Vehicle Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Unmanned Autonomous Systems for Water, Air, Space, Planetary, and Ground Transportation Vehicle Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Robots and Artificial Intelligence Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Robots and Artificial Intelligence Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Assembling, Combining, Separating, and Disassembling Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning,

Researching, and Constantly Improving and Advancing Assembling, Combining, Separating, and Disassembling Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Welding, Joining, and Fastening Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Welding, Joining, and Fastening Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Utilities Infrastructure and Construction Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Utilities Infrastructure and Construction Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Automation and Manual Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Automation and Manual Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Sensors, Monitors, Recorders, Storages, and Databases Independence Enabling, Safe, Portable,

Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Sensors, Monitors, Recorders, Storages, and Databases Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Packing, Packaging, and Saving Products Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Packing, Packaging, and Saving Products Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Machines, Equipments, Items, Tools, Instruments, and Technology Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Machines, Equipments, Items, Tools, Instruments, and Technology Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Measurement, Simulation, and Software Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Measurements, Simulations,

and Softwares Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Materialcare, Patterndiscoverercreatorimproversolvercare, Childcare, Animalcare, Plantcare, Bacteria-care, and Fungi-care for Preservation, Regeneration, Creation, Improvement, Evolution, and Growth Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Materialcare, Utopcare, Childcare, Animalcare, Plantcare, Bacteria-care, and Fungi-care for Preservation, Regeneration, Creation, Improvement, Evolution, and Growth Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Body, Sensory, Bone, Muscle, Nerve, Skin, Seed, Cell, Tissue, and Organ Preservation, Regeneration, Creation, Improvement, Evolution, and Growth Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Body, Bone, Muscle, Nerve, Skin, Seed, Cell, Tissue, and Organ Preservation, Regeneration, Creation, Improvement, Evolution, and Growth Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Laboratories, Factories, Housing, and Living Shelter Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating,

Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Laboratories, Factories, Housing and Living Shelter Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Physical Transportation/Portability/Movement/Change, Space Transportation/Portability/Movement/Change, Water Transportation/Portability/Movement/Change, Heat Transportation/Portability/Movement/Change, Air Transportation/Portability/Movement/Change, Pressure Transportation/Portability/Movement/Change, Vibration Transportation/Portability/Movement/Change, Energy Transportation/Portability/Movement/Change, Force Transportation/Portability/Movement/Change, Chemical Transportation/Portability/Movement/Change, and Ground Transportation/Portability/Movement/Change, Stationary Movement, Connections, Mobile, Locomotive, Flight, Automotive, and Autonomous Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Physical Transportation/Portability/Movement/Change, Space Transportation/Portability/Movement/Change, Water Transportation/Portability/Movement/Change, Heat Transportation/Portability/Movement/Change, Air Transportation/Portability/Movement/Change, Pressure Transportation/Portability/Movement/Change, Vibration Transportation/Portability/Movement/Change, Energy Transportation/Portability/Movement/Change, Force Transportation/Portability/Movement/Change, Chemical Transportation/Portability/Movement/Change, and Ground Transportation/Portability/Movement/Change, Stationary

Movement, Connections, Mobile, Locomotive, Flight, Automotive, and Autonomous Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Energy Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Energy Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Electrical Energy, Solar Energy, Nuclear Energy, Fusion Energy, Wind Energy, Gravitational Energy, Hydrogen Energy, Manual and Autonomous Force Created Energy Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Electrical Energy, Solar Solar Energy, Nuclear Energy, Fusion Energy, Wind Energy, Gravitational Energy, Hydrogen Energy, Manual and Autonomous Force Created Energy Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Opening, Closing, Locking, Unlocking, Removing, Separating, Combining, Connecting, Shifting, and Transformer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing

Opening, Closing, Locking, Unlocking, Removing, Separating, Combining, Connecting, Shifting, and Transformer Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Copyright, Laboratories, Research, Experimentation, Testing, Education, Schools, Cryptorewardpoints, Free-based, Technology Transfer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Copyright, Laboratories, Research, Experimentation, Testing, Education, Schools, Cryptorewardpoints, Free-based, Technology Transfer Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Logistics Management, Supply Chain Management, and Commodity and Positively Impactful Products Management Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Logistics Management, Supply Chain Management, and Commodity and Positively Impactful Products Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Manufacturing, Designing, and Physical, Material, and Virtual Formation Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate

and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Manufacturing, Designing, and Formation Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Safety, Preservation, Defense, Protection, Security, and Cryptography Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Safety, Preservation, Defense, Protection, Security, and Cryptography Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Shielding, Packaging, Storing, and Covering Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Shielding, Packaging, Storing, and Covering Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Explosive Ordnance Disposal Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Explosive Ordnance Disposal Independence Organizations, Products, Person, and Businesses

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Existence, Medical, and Health Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Existence, Medical, and Health Independence Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Mining, Vibrations, Structures, Matter Production and Transformation, Element Production and Transformation, Chemicals, Physicals, Minerals and Materials Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Mining, Vibrations, Structures, Matter Production and Transformation, Element Production and Transformation, Chemicals, Physicals, Minerals and Materials Independence Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Accurate and Precise Information, Preparation, Preparing, Organizing, Planning, Strategizing, Instructions, and Instructing Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Accurate and Precise Information, Preparations, Preparing, Organizing, Planning, Strategizing, Instructions, and Instructing Independence Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Communication, Alarm, Emergency and Environment Broadcast, Display, Visualization, Sensualization, Programming, Identification, and Categorization Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Communication, Alarm, Emergency and Environment Broadcast, Visualization, Sensualization, Programming, Identification, and Categorization Independence Organizations, Products, Person, and Businesses**

■ **Abled, Physically Disabled, and Mentally Disabled Consumer Signal Sending, Receiving, and Processing , Alert Communication,   Sign Communication, Notifications, and Alarm Communication Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Signal Sending, Receiving, and Processing , Alert Communication, Sign Communication, and Alarm Communication Independence Organizations, Products, Person, and Businesses**

■ **Abled, Physically Disabled, and Mentally Disabled Consumer Educational Animations, Edutainment, Educational Demonstrations, and Educational Simulations Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating,**

Learning, Researching, and Constantly Improving and Advancing Educational Animations, Edutainment, Educational Demonstrations, and Educational Simulations Independence Organizations, Products, Person, and Businesses
○ Abled, Physically Disabled, and Mentally Disabled Consumer Repair and Restoration Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Repair and Restoration Independence Organizations, Products, Person, and Businesses
○ Abled, Physically Disabled, and Mentally Disabled Consumer Construction, Demolition, Salvage, Rescue, and Recovery Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Construction, Demolition, Salvage, Rescue, and Recovery Independence Organizations, Products, Person, and Businesses
○ Abled, Physically Disabled, and Mentally Disabled Consumer Recycling, Cleaning, Disinfecting, and Reusing Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Recycling, Cleaning, Disinfecting, and Reusing Independence Organizations, Products, Person, and Businesses
■ Abled, Physically Disabled, and Mentally Disabled Consumer Decontamination, Toiletry, Latrines, Waste

Management, Waste Transportation, Waste Processing, and Filtration Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Decontamination, Toiletry, Latrines, Waste Management, Waste Transportation, Waste Processing, and Filtration Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Interior and Exterior Universe, Galaxy, Star, Black Hole, Space, Planet, Terrain, Asteroid, Atom, Element, Mineral, Cell, DNA, Tissue, Machine, Weather, and Technology Exploration, Navigation, Mapping, and SImulation Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Interior and Exterior Universe, Galaxy, Star, Black Hole, Space, Planet, Asteroid, Atom, Element, Mineral, and Cell Navigation and Mapping Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Energy, Pressure, Forces, Vibration, Material, and Space History, Tracking, and Prediction Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Interior and Exterior Energy, Pressure, Forces, Vibration, Material, and Space History,

Tracking, and Prediction Independence Organizations, Products, Person, and Businesses
○ **Abled, Physically Disabled, and Mentally Disabled Consumer Microtech and Macrotech Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Macrotech and Microtech Independence Organizations, Products, Person, and Businesses**

Measurements are based on the amount of twisting of a wire or fiber, with a common fiber type being quartz crystal."-ology) and Top-Loading-Balances-ology (Top-Loading-Balances-ology <-> Top-Loading-Balances-description-ology (Top-Loading-Balances-description-ology <-> "This balance is primarily used in a laboratory setting. They can measure objects weighing around 150g - 5000g. While they offer less readability than an analytical balance, they allow measurements to be made quickly as most are electric, and offer a digital readout in seconds, making it a convenient choice when exact measurements are not required. Top-Loading balances are also more economical than analytical balances."-ology) and Top-Loading-Balances-examples-ology (Top-Loading-Balances-examples-ology <-> " [A&D FX-120I](#) "-ology)) and Spring-Balance-ology (Spring-Balance-ology <-> "This balance uses Hooke's Law - stress in the spring is proportional to the strain. Spring balances have a highly elastic helical spring, made of hard steel suspended from a fixed point. The weighing pan is attached at the lowest point of the spring. When it is loaded up, an indicator shows the weight measurement, with no manual adjustment. We often see these scales in the produce section of the grocery store."-ology) and Platform-Scale-ology (Platform-Scale-ology <-> (Platform-Scale-ology <-> Platform-Scale-description-ology (Platform-Scale-description-ology <-> "This type of scale uses a system of

multiplying levers, and allows heavy objects to be placed on a load bearing platform. The weight is transmitted to a beam, which is balanced by moving a counterpoise. The counterpoise is an element of the scale that acts to counterbalance the weight on the platform. This type of scale is used for weighing drums of product, or even weighing animals - for example at a vet's office."-ology) and Platform-scale-example-ology (Platform-scale-example-ology <-> " [A&D FG-150KBM](#) "-ology)) and Equal-Arm-Balance-or-Trip-Balance-ology (Equal-Arm-Balance-or-Trip-Balance-ology <-> "Much like the iconic trade scales of ancient Egypt - but modernized. This scale incorporates two pans, placed on opposite sides of a lever. There are two different ways to use this type of scale. The object to be weighed is placed on one of the pans, and standard weights are added to the opposite pan until they are balanced. The sum of the weights is equal to the mass of the object. The second application is to place 2 items on each scale and adjust one side until they are leveled. This is helpful in applications such as balancing tubes or centrifugation where two objects must be the exact same weight."-ology) and Analytical-Balance-ology (Analytical-Balance-ology <-> Analytical-Balance-description-ology (Analytical-Balance-description-ology <-> "Most often used in a laboratory, or in settings where extreme sensitivity is required. Analytical balances are so sensitive, they can even be affected by air currents. They measure mass, which is useful in chemical analysis as the results are not based on gravity at a specific location - which would affect the weight. Precision and accuracy in these balances often exceeds one part in 106 at full capacity, which generally ranges from 1g to a few kg. The delicate internal devices are protected by a beam arrest, which prevents damage when objects are being placed or removed from the pan. The pan is the area on the balance where objects are placed. The balance is brought to the reference position with adjustable leveling feet. The reference position is determined by the leveling bubble, the spirit level, or plumb bob - an integral part of the balance. A draft shield protects against air currents affecting the measurement. This is a plastic or glass enclosure that allows access to the pan."-ology) and Analytical-balance-examples-ology (Analytical-balance-examples-

ology <-> " A&D HR-100 "-ology))) and Ring-clamp-ology and Rubber-policeman-ology and Safety-goggles-ology and Test-tube-ology and Thermometerology and Volumetric-pipette-ology and Spectroscopy-equipment-ology (Spectroscopy-equipment-ology <-> Biofluorometerology and Cuvettes-ology (Cuvettes-ology <-> Cuvettes-types-ology <-> Cylindrical-cuvettes-ology and Semi-micro-cuvettes-ology and Flow-cuvettes-ology and Micro-cell-cuvettes-ology and Standard-cuvettes-ology and Flourescence-cuvettes-ology) and Dipping-probes-ology and Flow-cells-ology (Flow-cells-ology <-> Flow-cells-types-ology <-> Long-path-flow-cells-ology and Micro-liter-flow-cells-ology and Multiple-pathlength-flow-cells-ology) and Spectroscopy-equipment-light-sources-ology (Spectroscopy-equipment-light-sources-ology <-> Spectroscopy-equipment-light-sources-types-ology <-> " D2H Light , D4H Light , and FO-6000 Light ") and Optical-detectors-ology and Optical-fibers-ology and Sample-holders-ology and Spectroscopy-accessories-ology) and Microscope-equipment-ology and Chromatography-equipment-ology (Chromatography-equipment-ology <-> "Chromatography equipment includes all the components needed for separation: columns, frits, flow cells, pumps, detector, collectors and software to complete systems used for High Performance Liquid Chromatography (HPLC), Gas chromatography (GC) and Liquid Chromatography and Mass Spectrophotometers (LC-MS)."-ology)

Neptuniumology and/or Plutoniumology and/or Americiumology and/or Curiumology and/or Berkeliumology and/or Californiumology and/or Einsteniumology and/or Fremiumology and/or Mendeleviumology and/or Nobeliumology and/or Lawrenciumology and/or Rutherfordiumology and/or Dubniumology and/or Seaborgiumology and/or Bohriumology and/or Hassiumology and/or Meitneriumology and/or Darmstadiumology and/or Roentgeniumology and/or Coperniciumology and/or Unutriumology and/or Fleroviumology and/or Ununpentiumology and/or Livermoriumology and/or Ununseptiumology and/or Ununoctiumology <-> Molecule-ology (Molecule-ology <-> Chemically-combined-same/different-elements-ology) and Compoundology (Compoundology <-> Chemically-combined-different-elements-ology)) and Mixture-ology (Mixture-ology <-> Physically-combined-molecules-ology and Non-chemically-combined-molecules-ology <-> Homogeneous-mixture-ology (Homogeneous-mixture-ology <-> Uniform-particles-and-appearance-ology) and Heterogeneous-mixture-ology (Heterogeneous-mixture-ology <-> Non-uniform-particles-and-appearance-ology)) <-> Matterology (Matterology <-> Gasology and Liquidology and Solidology and Plasma-ology and Bose-Einstein-condensates-ology) and Phase-ology (Phase-ology <-> Meltingology (Meltingology <-> Solid-turns-to-liquid-ology <-> Melting-point-ology) and Freezingology (Freezingology <-> Liquid-turns-to-gas-ology <-> Freezing-point-ology) and Sublimationology (Sublimationology <-> Solid-directly-becomes-gas-without-becoming-liquid-ology) and Vaporizationology (Vaporizationology <-> Liquid-turns-to-gas <-> Boiling-point-ology) and Condensationology (Condensationology <-> Gas-turns-to-liquid-ology) and Depositionology (Depositionology <-> Desublimation <-> Gas-directly-turns-to-solid-without-becoming-liquid-ology)))

● Weapon-types-ology ↔ Explosive-weapons-ology and Laser-weapons-ology and Electronic-weapons-ology and Chemical-weapons-ology (Chemical-weapons-ology ↔ Firearm-weapons-ology and Explosive-weapons and Radiation-weapons-ology and Flamethrower-weapons-ology and Artillery-weapons-ology) and Physical-weapons-ology (Physical-weapons-ology ↔ Impact-weapons-ology and Throwing-weapons-ology and Bladed-weapons-ology) and Biological-weapons-ology (Biological-weapons-ology ↔

Bioweapons-ology ↔ Toxin-weapons-ology (Toxin-weapons-ology ↔ Botulinum-toxin-ology) and Poisonous-weapons-ology and Virus-as-weapons-ology (Virus-as-weapons-ology ↔ Aerosol-ebola-ology and Rinderpest-against-livestock-ology and Nipah-virus-ology and Chimera-virus-ology) and Bacteria-as-weapons-ology (Bacteria-as-weapons-ology ↔ Anthrax-ology and Bacteria-carrying-fleas-ology and Tularemia-ology) and Fungi-weapons-ology (Fungi-weapons-ology ↔ Pyricularia-oryzae-against-crops-ology))
● Metrology-ology ↔ Metrology-definition-ology (Metrology-definition-ology ↔ Scientific-study-of-measurements-ology) and Metrology-types-ology (Metrology-types-ology ↔ Industrial-metrology-ology and Scientific-metrology-ology and Legal-metrology-ology)
● Water-filter-ology <-> Water-filter-types-ology <-> Activated-carbon-filter-ology and Reverse-osmosis-filter-ology and Ion-exchange-filter-ology and Distillation-filter-ology

Efficient vispthinkingpat methodology/structure/statement:

● Always visualize patterns or order(s) and relation(s) in your thoughts using moving images (like videos) and not in a still image to mentally see in multiple perspective and better simulate the thought
　　○ Three types of moving images: moving images with shift in location of viewing the thing or moving images with shift in the thing caused by the thing's movement but no shift in location of viewing the thing or shift in the thing due to it moving and shift in location of viewing the thing
● Use vispenlogist language
　　○ Vispenlogist language example: "...e-ology <-> ...a-ology and ...y-ology <-> ...tology (...tology <-> ...u-ology <-> Can-be-better-ology)"

○ Always going to contain "...ology <-> …-type(s)-ology and …-process-ology and …-relation-ology and ...-order-ology and …-definition-ology and …-explanation-ology and ..-example-ology and …-symbolology and …-occurrence-ology and ...-setting-ology

Efficient thinkflexsense methodology:

● first, flex the brain rapidly without flexing the head muscles until you can feel tension in the brain and head muscles, then flex the eyes and other sensory organs used for passively observing while applying vispthinkingpat; do this every time the tension in your head goes away and you have to apply thinkflexsense (flex brain then eyes then other sensory being used in passive observation and thoughts); steps to applying thinkflexsense
● always flex the brain when thinking, then flex the brain and eyes when thinking visually, then flex the brain, eyes, and the corresponding sensory organ and/or body part being used in thoughts (like flex the ears when hearing something in thoughts and the tongue and mouth when saying something in thoughts)
○ Efficient thinkflexsense methodology: always flex the brain when thinking and eyes when thinking visually and flex other sensory organs and body part when applying sensory organs and body part in thoughts

Efficient soundpat methodology:

● Identify each image or visual with a form of sound like vocal sound to produce a form of communicating images in thoughts and others; for example, vocal language is a way to relate to and orderize visuals, objects, thoughts, emotions, feelings, sensations, actions, events, etc.

Efficient mainly orderology methodology:

● Orders can be discovered or created by creating, discovering, seeing, hearing, smelling, thinking about, sensing, observing, using, measuring, assessing, reasoning, calibrating, vispthinkingpating, soundpating, about measurements derived from mathematics, metrology, and calibration and about assessments derived from logical reasoning, definitions, explanations, examples, lists, series of steps, schematics, diagrams, graphs, structure, charts, image, visual, observation, categorizations, tables, //////::.

Efficient mainly relationology methodology

● Relations can be created or discovered by creating, discovering, seeing, hearing, smelling, thinking about, sensing, observing, using, measuring, assessing, reasoning, calibrating, vispthinkingpating, soundpating about measurements derived from mathematics, metrology, and calibration and about assessments derived from logical reasoning, definitions, explanations, examples, lists, series of steps, schematics, diagrams, graphs, structure, charts, image, visual, observation, categorizations, tables, //////::.
● Find or create at least two different ideas or thoughts then find the relation between each of those thoughts or ideas

Mainly Conscious Thinking Efficient Learning Methodology (apply daily at least 5 times; exercises brain and improves conscious thinking)

● Identify a problem by asking (what/how/why/when/where/who? And using patternology methodology statement): "What/how/why/where/when is the order of/for/in/within/towards … through/in/by a list, series of steps, diagram, structure, image, visual, video, observation, etc. … in relation to the connection, assessment, position, size, etc. … ?"

● Observe (observations caused by me or observations caused by external agent or passive observations or assertive observations): observe by using the senses for memorizing and understanding the observations created or caused by me or by an external agent. It is more efficient for studying to sense observations caused or created by external agents and to create my own observation and sense it

    ○ Passive observations patterrn: passively observe and vispthinkingpat and thinkflexsense or passively observe (like listening) and thinkflexsense and vispthinkingpat and actively observe

        ■ Efficient passive observation methodology: When passively observing, vispthinkingpatting through imitating thinking technique, and thinkflexsensing: first, flex the brain rapidly without flexing the head muscles until you can feel tension in the brain and head muscles, then flex the eyes and other sensory organs used for passively observing while applying vispthinkingpat; do this every time the tension in your head goes away and you have to apply thinkflexsense (flex brain then eyes then other sensory being used in passive observation and thoughts); steps to applying thinkflexsense

● Memorize (vispthinkingpat and thinkflexsense): vispthinkingpat and thinkflexsense the observations and utilize imitating thinking techniques to imitate the observations at least twice in your thoughts to remember the observation during the understanding phase. The more you repeat in thinking about the same thought, the longer you will remember the thought as time passes. The same rule applies to behavior, actions, and techniques, the more you repeat the same action, behavior, and technique, the more likely you will remember the action, behavior, and technique, and this is

caused by brain consciously and unconsciously applying imitating thinking techniques of the same thought at least twice.

● Understand (vispthinkingpat and thinkflexsense): vispthinkingpat and thinkflexsense the memories and recreate in your thoughts the observations in memory by creating another story or scenario with the same setting to visualize more in-depth.

● Answer: "I/my group created/discovered the order of/for/in/within/towards … through/in/by … [creating/seeing/hearing/smelling/thinking about/sensing/observing] … a list, series of steps, diagram, structure, image, visual, video, observation, etc. … through/in relation to the connection, assessment, position, size, etc. … ."

● Record (passively and/or actively record): highly recommended to passively record (videotape, photograph, audiotape, etc.) and/or actively record (draw, write) (it would be great to do both at the same time) the question, observation(s), and answer through pattern-like structure by utilizing patternology methodology.

● Act (apply and/or test): apply or test the answer's accuracy and/or precision in a given situation, an experiment, a real-life scenario, or a real-life setting.

● Finalize/review/conclude: conclude the answer to be precise and/or accurate or to be not precise and/or not accurate.

● (Better version than above bullet points) Efficient learning methodology:

   ○ first, identify a problem by asking using the "patternology asking statement structure";

   ○ second, use the senses to passively/assertively or actively observe observations caused by me or caused by an external agent or mentally observe by creating mental observations or thoughts;

      ■ Efficient passive observation methodology: When passively observing, vispthinkingpatting through imitating thinking technique, and thinkflexsensing: first, flex the brain rapidly without flexing the head muscles until you can feel tension in the brain and head muscles, then flex the eyes and other sensory organs used for passively observing while applying vispthinkingpat; do this every

time the tension in your head goes away and you have to apply thinkflexsense (flex brain then eyes then other sensory being used in passive observation and thoughts); steps to applying thinkflexsense

○ third, memorize the observation by applying vispthinkingpat-thinkflexsense for that same observation observed repetitively at least twice in your thoughts, so applying imitative thinking techniques for the same observation at least twice;

○ fourth, understand the observation by applying vispthinkingpat and thinkflexsense by recreating the observation on your own through imaginary and fiction or non-fiction storytelling, identifying key or repeated terms, and recreating scenario, event, action, etc.;

○ fifth, answer or hypothesize the problem asked or solve the problem identified through applying "patternology answering and hypothesizing statement structure" and visual language;

○ sixth, actively or passively record the identified problem or question asked and actively or passively record the passive or assertive/active observations caused by me or by an external agent or a mental observation and actively or passively record the answer or hypothesis;

○ seventh, act, apply, or test the answer's or hypothesis' accuracy and precision in a real life scenario, given situation, accurate simulation, and/or experiment;

○ eighth, record and review/revise the action, application, experimentation, or testing of the answer or hypothesis and conclude the answer's or hypothesis' accuracy and precision using patternology methodology statement and visual language (the conclusion will be a theory, Law, or property).

○ Ninth, communicate the problem, observations, answer/hypothesis, act/experimentation/test, and conclusion to others

Mainly Conscious Thinking Efficient Patternology Methodology (apply daily at least 5 times and separate from learning methodology; exercises brain and improves conscious thinking)

● Assess the order and relationship in question, answer, and record.
● Apply patternology methodology statements for asking and questioning using visual language
  ○ Patternology asking statement structure: "What/how/why/where/when is the [combination, separation, connection, assessment, position, size, /////add all the ones in abbreviation here//////////////, etc.] order of/for/in/within/towards … [can be anything and everything; example: squares] … through/in/by creating, ordering, relating, discovering, seeing, hearing, smelling, thinking about, sensing, observing, using, drawing, sketching, feeling, categorizing, sequencing, arranging, assembling, disassembling, constructing, measuring, assessing, reasoning, organizing, listing, calibrating, describing, defining, explaining, examplifying, simplifying, vispthinkingpating, soundpating, … mathematics, science, metrology, calibration, language, technology, logical reasoning, definitions, explanations, examples, lists, series of steps, schematics, diagrams, graphs, structure, charts, images, visuals, observations, categorizations, tables, sequences, ///// and some other type or form of organization and arrangement …, and what/how/why/where/when is the relation to the combination, separation, connection, assessment, position, size, /////add all the ones in abbreviation here//////////////, etc. … of … [can be anything and everything; example: squares] … through/in/by creating, ordering, relating, discovering, seeing, hearing, smelling, thinking about,

sensing, observing, using, drawing, sketching, feeling, categorizing, sequencing, arranging, assembling, disassembling, constructing, measuring, assessing, reasoning, organizing, listing, calibrating, describing, defining, explaining, examplifying, simplifying, vispthinkingpating, soundpating, … mathematics, science, metrology, calibration, language, technology, logical reasoning, definitions, explanations, examples, lists, series of steps, schematics, diagrams, graphs, structure, charts, images, visuals, observations, categorizations, tables, sequences, //////// and some other type or form of organization and arrangement?"
○ Patternology answering and hypothesizing statement structure: "I/my group created/discovered the [combination, separation, connection, assessment, position, size, /////add all the ones in abbreviation here/////////////, etc.] order of/for/in/within/towards … [can be anything and everything; example: squares] … through/in/by creating, ordering, relating, discovering, seeing, hearing, smelling, thinking about, sensing, observing, using, drawing, sketching, feeling, categorizing, sequencing, arranging, assembling, disassembling, constructing, measuring, assessing, reasoning, organizing, listing, calibrating, describing, defining, explaining, examplifying, simplifying, vispthinkingpating, soundpating, … mathematics, science, metrology, calibration, language, technology, logical reasoning, definitions, explanations, examples, lists, series of steps, schematics, diagrams, graphs, structure, charts, images, visuals, observations, categorizations, tables, sequences, ///// and some other type or form of organization and arrangement …, and I/my group created/discovered the relation to the combination, separation, connection, assessment, position, size, /////add all the ones in abbreviation here/////////////, etc. … of … [can be anything and everything; example: squares] …
 through/in/by creating, ordering, relating, discovering, seeing, hearing, smelling, thinking about, sensing, observing, using, drawing, sketching, feeling, categorizing, sequencing, arranging, assembling, disassembling, constructing,

measuring, assessing, reasoning, organizing, listing, calibrating, describing, defining, explaining, examplifying, simplifying, vispthinkingpating, soundpating, … mathematics, science, metrology, calibration, language, technology, logical reasoning, definitions, explanations, examples, lists, series of steps, schematics, diagrams, graphs, structure, charts, images, visuals, observations, categorizations, tables, sequences, ///// and some other type or form of organization and arrangement. ”

- (Better version than above bullet points): Efficient patternology methodology:
  - first, identify a problem by asking using the "patternology asking statement structure";
  - second, use the senses to passively/assertively or actively observe observations caused by me or caused by an external agent or mentally observe by creating mental observations or thoughts;
    - Efficient passive observation methodology: When passively observing, vispthinkingpatting through imitating thinking technique, and thinkflexsensing: first, flex the brain rapidly without flexing the head muscles until you can feel tension in the brain and head muscles, then flex the eyes and other sensory organs used for passively observing while applying vispthinkingpat; do this every time the tension in your head goes away and you have to apply thinkflexsense (flex brain then eyes then other sensory being used in passive observation and thoughts); steps to applying thinkflexsense
  - third, memorize the observation by applying vispthinkingpat-thinkflexsense for that same observation observed repetitively at least twice in your thoughts, so applying imitative thinking techniques for the same observation at least twice;
  - fourth, understand the observation by applying vispthinkingpat and thinkflexsense by recreating the observation on your own through imaginary and fiction or non-fiction storytelling, identifying key or repeated terms, and recreating scenario, event, action, etc.;

○ fifth, answer or hypothesize the problem asked or solve the problem identified through applying "patternology answering and hypothesizing statement structure" and visual language
○ sixth, actively or passively record the identified problem or question asked and actively or passively record the passive or assertive/active observations caused by me or by an external agent or a mental observation and actively or passively record the answer or hypothesis
○ Seventh, communicate the problem, observations, and answer/hypothesis to others

Mainly Conscious Thinking Efficient Guiding Methodology (apply daily at least 5 times; exercises brain and improves conscious decision making):

● List or record all the negative/bad effects and positive/good effects/causes you can think of about something or some event or someone, then add the negatives effects (the bad effects) and the positive effects (good effects) to get a positive or negative result (positive result means mostly good or mostly positively impactful and negative result means mostly bad or mostly negatively impactful), then record the result as mostly negatively impactful or negatively impactful or mostly positively impactful or positively impactful.

○ Efficient Guiding Methodology: create a list of negative and positive effects of each item/products/behavior and the total effect (stated as either "mostly negatively impactful" or "mostly positively impactful") containing whether an item/product/behavior is mostly negatively impactful or positively impactful to the environment"

Technique Exercise (apply daily at least 13 times by applying technique exercise per its subcategory: 5 mental technique exercise, 6 psychophysiological technique exercise, and 7 environmentally satisfying technique exercise)

● Mentally accomplishing techniques exercises or psychologically accomplishing techniques exercises (thinking technique exercises): comprises thinking for memorizing technique exercises like imitating, replicating, and duplicating thinking technique; mentally accomplishing technique exercises are for thinking for understanding technique exercises like thinking simulation technique exercises or mental imagery technique exercises; examples are vocal thinking techniques exercises, mental moving images thinking techniques exercises, mental storytelling thinking techniques exercises, mental drawing techniques exercises, mental simulation techniques exercises, mental calculation techniques exercises, mental graphing techniques exercises, mental geometry accomplishing techniques exercises, mental logic techniques exercises, mental imitating technique for replication of observed visuals and sounds, mentally recording techniques exercises (such as memorization techniques exercises, /////)

● Psychophysiologically accomplishing techniques exercises: comprises bodily speed technique exercises, bodily strength technique exercises, breathing technique exercises, bodily endurance technique exercises, bodily balance exercises, bodily sensory technique exercise, bodily coordination movement exercises, and bodily recording techniques exercises; examples are acrobatics technique exercises, sprinting techniques exercises, endurance running techniques exercises, athletic techniques exercises, beatboxing, and psychophysiologically recording

technique exercises (such as medical recording techniques exercises, anatomy drawing techniques exercises, blood cell and DNA and tissue and urine and feces and tears and sweat and hair analyzing and sampling techniques exercises, EMG techniques exercises, ////)

● Environmentally accomplishing techniques exercises: environmentally recording techniques exercises (such as environment visual recording techniques exercises, environment sound recording techniques exercises, videotaping techniques exercises, audio recording techniques exercises, environmental drawings techniques exercises, photography techniques exercises, /////), industrial techniques exercises (includes applying or testing by mining, manufacturing, processing, designing, communicating, supplying, and transporting; transportation techniques exercises, mining techniques exercises, manufacturing techniques exercises, designing techniques exercises, modeling techniques exercises, prototyping techniques exercises, ////////), environmentally patterning technique (measuring techniques exercises, calibrating techniques exercises **,** environmentally organizing techniques exercises, //////), environmentally combining techniques (construction techniques exercises **,** assembling technique exercises, /////////), environmentally separating techniques exercises (environmentally cleaning techniques exercises, disassembling techniques exercises, deconstruction techniques exercises, ////////////), survival techniques exercises (includes weight lifting exercises, agricultural techniques exercises, cultivation techniques exercises, safety techniques exercises, breathing techniques exercises, ///////), academic techniques exercises (includes visual communication techniques exercises, oral communication techniques exercises, teaching techniques exercises, learning techniques exercises (for science, technology, engineering, mathematics, patternology, learningology, pastology, language, and art), ///////////), technical techniques exercises (technology related techniques exercises, engineering techniques exercises, scientific techniques exercises, logic techniques exercises, mathematical techniques exercises, //////////)

Body Part Resonating and Synchronizing Vibration Exercise or Body Part Evolving Exercise (apply daily for each and every body part and apply daily at least 4 different variations or positions or formations of stimulating stationary exercise and flex and stretch every body part at the beginning and at the end of completion)

1. Stretch body part(s)
2. Flex body part(s)
3. Fast/moderate/slow body movement, long/short time period, and long/short location movement distance for strengthening, enduring, sensing, balancing, and fastering exercises; strength, endurance, balance, sense, and speed exercise
    ○ Aerobic exercises: endurance running, swimming, bicycling, kayaking, hiking, climbing, … , etc.
    ○ Anaerobic exercises or strength training: weight lifting, calisthenics, gymnastics, freerunning, sprinting, combat sports, … , etc.
    ○ Flexibility exercises: static stretches, yoga, … , etc.
    ○ Balance exercises: yoga, tricking, breakdancing, freerunning, … , etc.
    ○ Sensory exercises: throwing objects in bins, hand juggling, pencil spinning in hand using finger and hand coordination, freerunning, martial arts, bottle spinning in hands using hand and finger coordination, kicking soccer balls, creating origami, beatboxing, rhythmical breathing, acrobatics involving sensory organs, … , etc.
4. Stimulating exercise:

○ Stimulating transportation exercise
○ Stimulating stationary exercise for every position/body part (do this during resting period or when feeling tired) in at least 4 different variations, positions, or formations.
- Example: first variation of stimulating stationary exercise will be push-ups, second variation will be sit ups, third variation will be jumping jacks, fourth variation will be lunges.
- Stimulating stationary exercise examples: push-ups, sit-ups, kip-ups, burpees, handstand-push-ups, jumping jacks, lunges, stationary running, squats, leg-ups, heel-to-toe stands, air kicks, air punches, bridges, beatbox (for vocal muscles strengthening), rhythmical breathing, … , etc.

5. Repeat doing fast/moderate/slow body movement, long/short time period, and long/short location movement distance for strengthening, enduring, sensing, balancing, and fastering exercises; strength, endurance, balance, sense, and speed exercise then stimulating exercise if wanting to do more

6. Flex body part(s)

7. Stretch body part(s)

Sensory Organ Resonating and Synchronizing Vibration Exercise or Sensory Organ Evolving Exercise (apply daily for each and every sensory organ like the eyes and ears and apply daily at least 4 different variations or positions or formations of stimulating stationary exercise and flex and stretch every sensory sensory organ)

1. Stretch sensory organ(s)
2. Flex sensory organ(s)
3. Apply stimulating stationary exercise and flexing while using the sensory organ quantitatively (amount of distance used) and qualitatively (amount of sensations taken or experienced) while focusing on a target
4. Flex sensory organ(s)
5. Stretch sensory organ(s)

Visual Instruction Technique Exercise for Communication

Visual Instruction Comprehension Technique Exercise

Sound or Oral Instruction Technique Exercise for Communication

Sound or Oral Instruction Comprehension Technique Exercise

Meaning of the words in abbreviation: (Have to use at least 4 of these words in patternology statements)

Key vocabulary created and defined for this religion: ////////need to alphabetize/////

A

- Abled, Physically Disabled, and Mentally Disabled Consumer Independence Supplying and Freely Educating Businesses:

businesses supplying consumers to be independent and educating consumers with information enabling the consumers to do things independently; for example, computer and other technology producing and selling companies to households, robot producing and selling companies to households and other businesses, self-driving electrical and self-rechargeable car producing and selling companies to households and other businesses, Internet servicing companies to households and other businesses, companies and organizations offering free educational resources and softwares; these businesses are always long-term positively impactful businesses to the consumers; these are the types of businesses followers of this religion, whenever possible, must create (if not possible find a way to turn Consumer Dependence Supplying Businesses that are long-term positively impactful to consumers to become Consumer Independence Supplying and Freely Educating Businesses, like find ways to enable consumers to long-term produce their own foods, especially fruits, legumes, and vegetables in their households without the consumer having to do anything (like automated farming machines or farming robots and automated farming drones) instead of having consumers rely on farms to produce the food they want).

● Abled, Physically Disabled, and Mentally Disabled Consumer Non-Independence or Dependence Supplying Businesses: businesses supplying consumers to be dependent upon them to achieve something; for example, restaurants, salons, hospitals, etc.; these businesses can be either short-term (like healthy food restaurants and grocery stores selling healthy foods) or long-term positively impactful businesses to the consumer (like hospitals, mines, manufacturing plants, nuclear plants, farms, etc.) or always negatively impactful to the consumer (like junk food restaurants)

● Abled and Disabled Consumer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Independence Organizations, Products, Person, and Businesses: ///////////////////////:/:::::::::::

● Actively recording: recording caused by me constantly using my body from the beginning of the recording to the end of the recording; for example, writing or drawing my thoughts and observations or another example is taking a picture of someone or videotaping someone using a cellphone requiring you to hold the cellphone from the beginning of the recording to the end of the recording.

● Assertive/active observations caused by an external agent: for example, me seeing and/or listening and applying or physically practicing at the same time something caused by an external agent

● Assertive/active observations caused by me: for example, me seeing and/or listening and applying or physically practicing at the same time something caused by me (like listening to my own audio recording of my voice about something and applying that something at the same time)

● Assertive or active observations: observations observed using the senses (like seeing, listening, tasting, smelling, and/or feeling) and applying or physically practicing the observed observation at the same time

B

C

D

E

● Efficient guiding methodology: create a list containing all the negative/bad impacts/effects/causes of an action/product/etc. and

positive/good impacts/effects/causes of that same action/product/etc. being examined for positive impacts then add both with the good impacts being positive and the bad impacts being negative to get a total result that is either negative or positive (can't be zero or neutral) and identify the result as "averagely positively impactful" or "positively impactful" if the result is positive and identify the result as "averagely negatively impactful" or "negatively impactful" if the result is negative

● Efficient learning methodology: first, identify a problem by asking using the "patternology asking statement structure"; second, use the senses to passively/assertively or actively observe observations caused by me or caused by an external agent or mentally observe by creating mental observations or thoughts; third, memorize the observation by applying vispthinkingpat-thinkflexsense for that same observation observed repetitively at least twice in your thoughts, so applying imitative thinking techniques for the same observation at least twice; fourth, understand the observation by applying vispthinkingpat and thinkflexsense by recreating the observation on your own through imaginary and fiction or non-fiction storytelling, identifying key or repeated terms, and recreating scenario, event, action, etc.; fifth, answer or hypothesize the problem asked or solve the problem identified through applying "patternology answering and hypothesizing statement structure" and visual language; sixth, actively or passively record the identified problem or question asked and actively or passively record the passive or assertive/active observations caused by me or by an external agent or a mental observation and actively or passively record the answer or hypothesis; seventh, act, apply, or test the answer's accuracy and precision in a real life scenario, given situation, accurate simulation, and/or experiment; eighth, record and review/revise the action, application, experimentation, or testing of the answer and conclude the answer's or hypothesis' accuracy and precision using patternology methodology statement structure and visual language (the conclusion will be a theory, Law, or property); ninth, communicate the problem, observations, answer/hypothesis, act/experimentation/test, and conclusion to others.

● Efficient mainly orderology methodology:

● Efficient mainly relationology methodology:

● Efficient passive observation methodology: when passively observing, vispthinkingpatting through imitating thinking technique, and thinkflexsensing: first, flex the brain rapidly without flexing the head muscles until you can feel tension in the brain and head muscles, then flex the eyes and other sensory organs used for passively observing while applying vispthinkingpat; do this every time the tension in your head goes away and you have to apply thinkflexsense (flex brain then eyes then other sensory being used in passive observation and thoughts); steps to applying thinkflexsense

● Efficient patternology methodology: first, identify a problem by asking using the "patternology asking statement structure"; second, use the senses to passively/assertively or actively observe observations caused by me or caused by an external agent or mentally observe by creating mental observations or thoughts; third, memorize the observation by applying vispthinkingpat-thinkflexsense for that same observation observed repetitively at least twice in your thoughts, so applying imitative thinking techniques for the same observation at least twice; fourth, understand the observation by applying vispthinkingpat and thinkflexsense by recreating the observation on your own through imaginary and fiction or non-fiction storytelling, identifying key or repeated terms, and recreating scenario, event, action, etc.; fifth, answer or hypothesize the problem asked or solve the problem identified through applying "patternology answering and hypothesizing statement structure" and visual language; sixth, actively or passively record the identified problem or question asked and actively or passively record the passive or assertive/active observations caused by me or by an external agent or a mental observation and actively or passively record the answer or hypothesis; seventh, communicate the problem, observations, and answer/hypothesis to others.

● Efficient thinkflexsense methdology: always flex the brain when thinking, then flex the brain and eyes when thinking visually, then flex the brain, eyes, and the corresponding sensory organ and/or body part being used in thoughts (like flex the ears when hearing

something in thoughts and the tongue and mouth when saying something in thoughts)
● Efficient vispthinkingpat methdology: shown in vispthinkingpat-thinkflexsense religion's title with the words ending with "ology;"
● Energy (noun):
● Energyology (noun):
● External agent: other entity/thing/being

F

G

● Guilt: learned emotion caused by doing something to someone else an action you wouldn't want the other person to do to you (like stealing, lying, killing, hurting, bullying, taking away their freedom and enslaving them, and more actions you wouldn't want others to do to you); every time you violate I-pathy, you feel guilty

H

I

● Improve (verb): make something easier and faster

J

K

L

● Learn (verb): memorize and understand for a long period of time
● Learningology (noun):
● Long-term positively/negatively impactful consumer product: vegetable plants producing edible and nutritious foods, solar panels, refrigerators, ovens, Internet, computers, rechargeable and electrical cars are examples of long-term positively impactful consumer products, while nuclear bombs, carpets, microwaves, shoes causing malformation in feet and toes, jewelry, makeup, long-term harmful drugs, alcoholic beverages, and consumer vehicles with pollutive emissions are examples of long-term negatively impactful consumer products.

M

● Mental Observations: observations observed from thought through simulating real life scenarios in thoughts

N

O

● Order:
● Orderology: the application of vispthinkingpat, thinkflexsense, and soundpat about order
● ...ology (Suffix): the application of vispthinkingpat, thinkflexsense, and soundpat about the root and prefix in the same word as "...ology".

P

● Poor (adjective): relying on others for many accomplishing needs due to lack of independence enabling technology and knowledge about accurate and precise patterns.

● Passively recording: recording caused by a machine and without using my own body from the beginning of the recording to the end of the recording; for example, a computer recording the computer's screen output or user interface without me using my body from the beginning to the end of the recording

● Passive observations: observations observed from only using the senses (like only seeing, listening, tasting, smelling, and/or feeling)

● Passive observations caused by an external agent: for example, me seeing and/or listening to something caused by external agent

● Passive observations caused by me: for example me seeing and/or listening to something caused by me (like me watching a video/audio recording recorded by me or me looking at a photograph taken by me)

● Pattern (noun): the relation(s) and order(s) created or found in a thought or set of thoughts, in a thing or set of things, and/or in a phenomenon or phenomena (so in everything and every event there is a pattern).

● Patterndiscoverercreatorimproversolver: individuals abstaining from sexual intercourse, abstaining from ingesting scientifically proven harmful chemicals (like junk food, harmful drugs, and alcoholic beverages), and these individuals follow Patterndiscoverycreationimprovementsolutionsrel or vispthinkingpat, thinkflexsense, soundpat religion on a daily basis

● Patterndiscoverycreationimprovementsolutionsrel (noun): name of vispthinkingpat, thinkflexsense, and soundpat

● Patterndiscoverycreationimprovementsolutionsrel hierarchy: the more positively impactful actions you do or good actions you do, and the more positively impactful or good results and effects you cause the more superior you are; so the more you discover problems and solve them, the more superior you are (this can be categorized into physical, mental, moral, and environmental

specialty), while the more problems you create and ignore or not solve the less superior you are.

● Patterndiscoverycreationimprovementsolutionsrelic (adjective): related to, following, follower of Patterndiscoverycreationimprovementsolutionsrel.

● Patternology (noun): the application vispthinkingpat, thinkflexsense, and soundpat about pattern(s)

● Patternology answering and hypothesizing statement structure: "I/my group created/discovered the [combination(s)/combining/combined/combinatory/combiner/combine separation(s)/separating/separate(adjective version)/separated/separator/separators/separator's/separators', Connecting/connection(s)/connected/connector(s)/connector's/conne assessment(s)/assessing/assessed/assessment's/assessments', position(s)/positioning/positioned/position's/positions', sizing/sized/size(s)/size's/sizes', geometry/geometrical/geometry's/geometries/geometries', architecture(s)/architectural/architecture's/architectures'/architecting/ stationarymovement/stationarymoving/stationarymoved, Vibrationology/vibration/vibration's/vibrations/vibrations'/vibrational/v Patternology/pattern(s)/pattern's/patterns'/patterning/patterned, Experimenting/experiment(noun version)/experimented/experiment's/experiments', Logic/logical, Solving/solved/solution(s)/solution's/Solutions', factor(s)/factorization(s)/factoring/factored/factor's/factors', Creating/creation/created/creations/creation's/creations', Exercising/exercise/exercised/exercises/exercise's/exercises', Surviving/survival/survived/survivor's/survivors', Technique(s)/technique's/techniques', technical, Applying/application(s)/applied/application's/applications', Helping/helpful/helped, Improving/improved/improvement(s), more, less/lesser, durable, larger/large, smaller/small, stronger/strong, weaker/weak, Measuring/measurement(s)/measured/measurement's/measuremen Preparing/preparation(s)/prepared/preparation's/preparations', Protecting/protection(s)/protected/protection's/protections', Safety, preservation(s)/preserved/preserving/preservation's/preservations',

● Patternology statement:
● Poverty: people dependent on others to accomplish and satisfy their needs to survive and improve physically, mentally, morally, and environmentally.
● Psychological technique exercise
● Psychophysiological technique exercise

Q

R

● Relation:
● Relationology: the application of vispthinkingpat, thinkflexsense, and soundpat about relation
● Religion(s) (noun): a system of beliefs for worshipping and used as an instruction to follow by the worshipper

S

● Short-term positively/negatively impactful consumer product: nutritious and healthy and non-toxic foods and medicine are examples of short-term positively impactful consumer products,

while junk or non-nutritious foods, short-term harmful drugs, butter, cheese, and negatively influential entertainment are examples of short-term negatively impactful consumer products

● Soundpat (verb): to make sound patterns or to create and order and relation through sound; for example, vocal language is a way to relate to and orderize visuals, objects, thoughts, emotions, feelings, sensations, actions, events, etc.

● Stationary: in the same place or location.

● Stationarymovement (adjective): movement in the same place, location, area, and space. Examples: rotation, vibration, folding and unfolding, sliding, twisting, bending, moving to some side then opposite side repetitively, and other pattern movements in one place. When you think closely about stationary movements, you realize that transportation requires stationary movements within the transporting or moving object or thing: for example, human legs (bending and unbending), rocket blast (vibration), fan (rotation), wheels (rotation) are all stationary moving objects.

● Stationarymovementology (noun): study of stationary movements.

● Stavib (noun): stationary vibration

● Stavibology (noun):

● Stimulating Exercise:

● Stimulating Stationary Exercise: examples of stimulating stationary exercise are push-ups, sit-ups, kip-ups, burpees, handstand-push-ups, jumping jacks, lunges, stationary running, squats, leg-ups, heel-to-toe stands, air kicks, air punches, bridges, … , etc.

● Stimulating transportation exercise:

T

● Technique exercise

● Thinkflex (verb):

● Thinkflexsense (verb): to feel by thinking about, flexing, and sensing /////// needs editing

● Types of universal adjectives, nouns, past tense verbs, gerunds, and present participles:

Soups, stews, broths, healthy stocks, smoothies, chili, salads, sauces, and other healthy foods and beverages recipes:

- Soup recipes:
  - Chef John's Gazpacho Vegetable Soup Recipe from AllRecipes: https://www.allrecipes.com/recipe/222331/chef-johns-gazpacho/
    - 18 types of necessary ingredients:
      - 4 large fresh tomatoes, peeled and diced
      - 1/2 English cucumber, peeled and finely diced
      - 1/2 cup finely diced red bell pepper
      - 1/4 cup minced green onion
      - 1 large jalapeno pepper, seeded and minced
      - 2 cloves garlic, minced
      - 1 teaspoon salt
      - 1/2 teaspoon ground cumin
      - 1 pinch dried oregano
      - 1 pinch cayenne pepper, or to taste
      - freshly ground black pepper to taste
      - 1 pint cherry tomatoes

- 1/4 cup extra-virgin olive oil
- 1 lime, juiced
- 1 tablespoon balsamic vinegar
- 1 teaspoon Worcestershire sauce
- salt and ground black pepper to taste
- 2 tablespoons thinly sliced fresh basil
  - ○ Necessary 4 step instruction:
    1. Combine diced tomatoes, cucumber, bell pepper, green onion, jalapeno, and garlic in a large bowl. Stir in salt, cumin, oregano, cayenne pepper, and black pepper.
    2. Place cherry tomatoes, olive oil, lime juice, balsamic vinegar, and Worcestershire sauce in a blender. Cover and puree until smooth. Pour pureed mixture through a strainer into the tomato-cucumber mixture; stir to combine.
    3. Place 1/3 of the tomato mixture into the blender. Cover, turn blender on, and puree until smooth. Return pureed mixture to the remaining tomato-cucumber mixture. Stir to combine. Cover and chill in refrigerator for 2 hours.
    4. Season cold soup with salt and black pepper to taste. Ladle into bowls and top with basil.
- Nutrition Facts Per Serving: 132 calories; 9.9 g fat; 10.5 g carbohydrates; 2 g protein; 0 mg cholesterol; 410 mg sodium
- Avocado Soup with Chicken and Lime Recipe by Michelle from AllRecipes: https://www.allrecipes.com/recipe/20809/avocado-soup-with-chicken-and-lime/?internalSource=staff%20pick&referringId=94&referringContent
  - ○ 12 types of necessary ingredients:
    - 4 (6 inch)s corn tortillas, julienned
    - 1 ½ tablespoons olive oil
    - 1 white onion, sliced thinly
    - 8 cloves garlic, thinly sliced
    - 4 fresh jalapeno peppers, sliced

- 8 ounces skinless, boneless chicken breast halves - cut into thin strips
- 1 quart chicken broth
- ¼ cup fresh lime juice
- 1 tomato, seeded and diced
- salt and pepper to taste
- 1 avocado - peeled, pitted and diced
- ¼ cup chopped fresh cilantro
    - Necessary 4 step instruction:
        1. Preheat oven to 400 degrees F (200 degrees C).
        2. Arrange tortilla strips on a baking sheet and bake in preheated oven until lightly browned, 3 to 5 minutes.
        3. In a large saucepan over medium heat, cook onion, garlic and jalapenos in olive oil until lightly browned, 4 to 5 minutes. Stir in chicken, chicken broth, lime juice, tomato, salt and pepper. Gently simmer until chicken is cooked, 3 to 5 minutes. Stir in avocado and cilantro and heat through. Adjust seasonings.
        4. Ladle soup into bowls and sprinkle with tortilla strips to serve.
    - Nutrition Facts per serving: 293 calories; 14.6 g total fat; 38 mg cholesterol; 1020 mg sodium. 24.9 g carbohydrates; 17.9 g protein

What I need to create and establish in List format and structure:

Please note: anything in this world is possible or you can accomplish any goal. You just need to follow vispthinkingpat-thinkflexsense religion's daily requirements (especially applying efficient patternology methodology and efficient learning methodology).
Remember: "Step by step. Everything is imperfect. Anything is possible. Everything is just a pattern or an order and relationship"

Do you have the necessary technical experience to do a task and accomplish a goal or result or, in my case, create the organization, corporation, educational information, technologies, cryptorewardpoints, websites, applications, softwares, reward center and bank for good behavior, and visual language related to Vispthinkingpat-thinkflexsense-patternology-learningology religion? If you don't then expose yourself to the environment required to create them and apply the vispthinkingpat, thinkflexsense, soundpat religion while exposed in such an environment."

For creating a product (technology, software, item, tool, etc.), all you need to do is follow these steps: as a Patterndiscoverercreatorimproversolver, I am only allowed to create portable and do-it-yourself machines and robots enabling people to accomplish a task on their own safely
● First, find the way the product will work and the results or effects of using the product
● Second, find the materials, chemistry, hardware, software and manufacturing processes involved in creating the product and make

the product achieve the results or effects you want and wanted the product to achieve
● Third, check and record if there will be government standards, regulations, and interferences, and other national and international businesses', governmental organizations', non-governmental organizations', committees', financial organizations', councils', agencies', banks', foundations', funds', alliances', groups', organizations', world platforms', economic forums', societies', unions', centers', centres', institutes', and associations' standards, regulations, and interferences
● Fourth, network and connect with people physically (by exposing yourself physically to them through knocking on their house doors, going to or creating conferences and meetings and speeches, and going to expos, summits, and tradeshows) or virtually (by informing people online through posting informational content online for free to any internet user to look at for free, advertising, and/or by calling people on the phone, and/or by physically mailing , and/or by emailing people)
● Fifth, enable people to purchase or rent your product.

For creating a business and organization, all you need to do is follow these steps:
● First, find the way the business and organization will work without government regulations and interference and interference from other businesses; so think about how the technologies will work to enable the business to succeed, think about the environment in the business and outside the business like geography
● Second, find the way the business and organization will work with government standards, regulations, and interferences, and other national and international businesses', governmental organizations', non-governmental organizations', committees', financial organizations', councils', agencies', banks', foundations', funds', alliances', groups', organizations', world platforms', economic forums', societies', unions', centers', centres', institutes', and associations' standards, regulations, and interferences, and with local community interference and regulations and with local businesses interference and regulations

● Third, network and connect with people physically (by exposing yourself physically to them through knocking on their house doors, going to or creating conferences and meetings and speeches, and going to expos, summits, and tradeshows) or virtually (by informing people online through posting informational content online for free to any internet user to look at for free, and/or by calling people on the phone, advertising, and/or by physically mailing , and/or by emailing people)
● Fourth, enable people to purchase or rent the products and services produced and are available in the business or organization.

1. Health and Safety for consumers and employees are number one priority then the development and creation of positively impactful technologies and products for supplying and enabling consumers to be independent is second priority
2. Consumer and Employee sustainable and positively impactful independence organization and Corporation: Will always produce information and materials and support employees and consumers or other individuals to be able to do things independently in a positively impactful way and sustainable way by themselves (like robotic chefs instead of restaurants, self-driving cars and product delivery drones instead of consumers having to do it themselves just to get our products, and having free access to all information about our organization's products (how it's made, what's in them, etc) to enable consumers to be able to make such products independently instead relying on us for creating such products)
3. Free limited amount of material products to all children or people under the age of 20, and the limited amount can increase through cryptorewardpoints
4. All software products and accurate and precise useful and helpful information will be available for free to everyone
5. Only Patterndiscoverercreatorimproversolvers, artificial intelligence, and robots will be allowed to take the leadership roles in my organization and corporation
6. I-pathy will always be mandatory. For example, I don't like to be unnecessarily or jokingly be shouted on (and no one else in the world would like such a thing to happen to them), so shouting as a

joke or for unnecessary reasons or for giving an order at a short distance or quiet area will be banned and anyone violating ipathy will be fired from my organization and corporation. Another example of ipathy violation is when employee intentionally hides positively impactful or helpful information from another employee or consumer to prevent that employee or consumer to accomplish a task in an easier/faster way

7. An app will be used for giving orders and for enabling all employees and consumers to have access to the same information as anyone so any of these employees can improve the way they work and so prospective employees are able to know what happens as an employee for the organization and corporation and how to prepare for the organization and corporation. This includes all financial information, all tutorials for accomplishing any task, all safety procedures, all maps, etc. for free and open to the public

8. All restrooms must have disinfecting wipes accessible to any toilet user

9. Everything below will be part **Vispthinkingpat-thinkflexsense Abbreviation Organization** or **Positively Impactful Organization** and **Vispthinkingpat-thinkflexsense Abbreviation Corporation** or **Positively Impactful Corporation**

10. Organization and Corporation will be based on vispthinkingpat-thinkflexsense religion and supplying consumers to be sustainably independent and be able to follow the religion's daily requirements

11. There will be only one requirement for joining/working/volunteering in any of my religion based organizations and corporations, and it is to follow Patterndiscoverycreationimprovementsolutionsrel. This is a requirement due to the organization allowing only the physically, mentally, morally, and environmentally best people in the world, and only the people who follow Patterndiscoverycreationimprovementsolutionsrel are the best physically, mentally, morally, and environmentally, and will ensure the Patterndiscoverycreationimprovementsolutionsrelic organizations and corporations do not stop and always stay being positively impactful to the employees, volunteers, and consumers.

Create the following:

- **Patterndiscoverycreationimprovementsolutionsrel or Vispthinkingpat, Thinkflexsense, and Speakingpat Religion Application and Media (includes it's own website)**
- **Patterndiscoverycreationimprovementsolutionsrel Organization and Foundation or Vispthinkingpat, thinkflexsense, and Speakingpat Religious Organization and Foundation** or **Positively Impactful Organization and Foundation** (non-profit organization; provides free education, information, and software)
- **Patterndiscoverycreationimprovementsolutionsrel Corporation or Vispthinkingpat, thinkflexsense, and Speakingpat Religious Corporation** or **Positively Impactful Corporation** (for-profit organization; provides free information and software; creates the technology and hardware to finance the non-profit organization; has a reward based system offering technology and hardware for a consumer that does good actions (consumer is rewarded with points for doing good actions - like creating and providing free information, software, construction services, repair services, medical services, research services, and cleaning services - that can be used to purchase the technology and other materials)). Overall, create products enabling a person to be able to do anything by themselves -can be a product that can be used at home or on his or her own or can be a portable product or can be a product that can do the task by itself while the owner of the product is at home (like a robot or independent autonomous drone importing and exporting goods for and from home). There will be restriction placed on the amount of items a child can take for free from Vispthinkingpat-Thinkflexsense-Patternology-Learningology Relgion based corporation called Positively Impactful Corporation. The amount can be increased by paying with cryptorewardpoints (reward points based on positively impactful actions of the person/material and effects/results of actions) a child has to increase the amount of items a child can take for free
- **Patternology Methodology Application and Media (will be part of organization and corporation):** applying, recording, and storing the patternology methodology and patternology

methodology statements, and accurate and/or precise patterns or non-accurate and/or non-precise patterns for future testing

● **Learning Methodology Application and Media (will be part of the corporation and organization and will contain "Vispthinkingpat-thinkflexsense or Suffix "Ology" Database"):** applying, recording, and storing the patternology methodology, patternology methodology statements, accurate and precise patterns, online and offline simulations for applying or testing, and more

● **Patternology Education Facilities**

● **Laboratories for Discovering and Creating Patterns**

● **Vispthinkingpat-thinkflexsense or Suffix "Ology" Database (will be part of Learning Methodology Application and Media):** contains simulations and animations with or without sounds (like oral sounds) and feeling effects (which can occur with clothing connected to unique technology for feeling effects); will contain everything categorized under the vispthinkingpat efficient structure (the words ending with "ology" in the religion's title or vispthinkingpat efficient structure or efficient vispthinkingpat methodology)

　　○ **Orderology Databse**
　　○ **Relationology Database**
　　　　■ **Logicology Database**
　　○ **Exercise-ology and Flex-ology Database (will be part of "Vispthinkingpat-thinkflexsense or Suffix Ology Database", which will be part of learning methodology application and media):** contain simulations and animations for evolving exercise, stimulating stationary exercise, technique exercise, flexing
　　○ **Vibrationology database (will be part of "Vispthinkingpat-thinkflexsense or Suffix Ology Database", which will be part of learning methodology application and media)** : will contain animations and simulations of different vibrational patterns
　　○ **Stationarymovementology   database (will be part of "Vispthinkingpat-thinkflexsense or Suffix Ology**

Database", which will be part of learning methodology application and media): contain simulations and animations

● **Accurate and precise patterns database and archive**

● **Vispenlogist Language and its software:** already developed an outline of the structure of efficiently combining vispthinkingpat into English language, numerical list format and structure, and logic together; I can combine code editor outlines to be used in its software for infinite horizontal spacing for continuous indentation for list

● **Visual with/without Sound Language** and its software (Vocal Anatomy Pronunciation language, visual language based on moving images, and visual language based on Still images; a computer language due to the high speed of computer functions); 2D/3D/4D/nD/holographic/physically-sensual (means you can feel the visual like a real object) still/moving visual letter: use vocal anatomy pronunciation visual; still/moving visual word; 2D/3D/4D/nD/holographic/physically-sensual still/moving visual phrase; 2D/3D/4D/nD/holographic/physically-sensual still/moving visual monosentence; 2D/3D/4D/nD/holographic/physically-sensual still/moving visual polysentences; 2D/3D/4D/nD/holographic/physically-sensual still/moving visual paragraph

  ○ Requires computer aided animations, geometry, mathematical and philosophical logic semantics/structures

● **Free Products for Supplying Daily Needs and for following religion's daily requirements** : free daily necessities for and any product (in a limited quantity like 1 laptop per child) produced by my organization and corporation for all children or people under the age of 20 and all of those following vispthinkingpat, thinkflexsense, soundpat religion.

  ○ Contains **Free Portable Positively Impactful Technologies, Computer, Internet, Web Hosting and Cloud Servicing Foundation** (will be part of Vispthinkingpat-thinkflexsense Positively Impactful Organization and Corporation offering free routers to everyone so they can fulfill the religion's daily requirements and learn about the religion). Contains **Free unlimited online storage or cloud service**

software and app service for people following vispthinkingpat… religion through Positively Impactful Organization's servers, so people following the religion can store all their discoveries, creative ideas and visuals, and recordings for free through Positively Impactful Organization. One of that organization's main purpose is to enable people to follow vispthinkingpat-thinkflexsense religion, and it is required to record a lot of information as a follower of this religion, so the unlimited online storage option will be free. **Free unlimited web hosting service**

● **Blockchain, Hashgraph, Ledger Technologies, Cryptocurrency, Database, Cryptorewardpoints, and Reward Center for Good or Averagely Positively Impactful Actions, Results, Effects, Solutions and Behaviors** (provides financial services and rewards to those who do positively impactful actions) (the amount of reward givenwill be based on the "reward index"; reward index will be based on the amount or quantity of positively impactful results for doing the positively impactful actions and will be separated into different categories: medical reward index, technological reward index, research reward index, information reward index, construction reward index, supply reward index, repair reward index, solution reward index, etc.). Use cryptorewardpoint(s) or cryptocurrency. For example, working in a positively impactful task and recording how you are working in an educational way then sharing to the world for free the records will give you more cryptorewardpoints than just working in a positively impactful task because cryptorewardpoints are based on the quantity of positively impactful results and more positively impactful results occur when working and educating than when just working. Those who educate for free or do good things for free will be rewarded more than a person who doesn't do the same thing for free because there are more postively impactful results for doing things for free, and a person who creates robots to do the same task as a person who does the same task as the robot will be rewarded more than the person who does the same task as the robot because more positive impactful results occur from the robot than the person doing the same task due to robots high accurate

and precise results and the other people involved in contributing to the process of making the robot will be rewarded more than the person doing the same task as the robot. There has to be a record to prove the good action being done and the software and materials used for recording the good action will be provided and created by the Bank for and Reward Center of Good Behavior; there will be cryptocurrency/money and cryptorewardpoints, and the cryptorewardpoints will be given to only free positvely impactful services and products while money will be given to non-free positively impactful services so it will be a bank offering money and a reward center offering cryptorewardpoints

○ Non-free Employee and employer cryptorewardpoints relationship: Practical business application type for cryptorewardpoints (for employment quests or "employee and employer cryptorewardpoints relationship"): a cryptorewardpoints user wants another cryptorewardpoints user to finish a certain task (such as repairing a car or cleaning or stacking an item or checking something) and sets a reward for accomplishing the task, and when the user records himself or herself finishing the task, that user will automatically be given the cryptorewardpoints set by the rewarder for accomplishing the task by machine learning analyzation or artificial intelligence analyzation or manually given the cryptorewardpoints set by the rewarder for accomplishing the task by the rewarder manually accepting transferring the set cryptorewardpoints

○ Non-free lender and borrower cryptorewardpoints relationship: Another type of practical business application for cryptorewardpoints (for service and product lender and owner lending to debtor or borrower or lessee through "lender and borrower cryptorewardpoints relationhip"; replaces leasing, paying monthly/annual/weekly bills, and renting): cryptorewardpoints user automatically rewarding the other user whenever the rewarder (when recorded) uses the other user's products, services, etc.

○ Free product, facility, and information giver and/or creator to consumer cryptorewardpoints relationship: /////////

● **I-Pathetical Justice** (justice system based on me/ person treating others the way I/person want/wants others to treat me/person): an international organization that teaches and enforces I-pathy and Vispthinkingpat, Thinkflexsense, and Soundpat religion all over the world to make sure everybody treats others like the way they want to be treated by them; motto "treat others the way I want them to treat me: be respected, be sustainably independent, and helped when needed to do positively impactful actions so be respectful, enable others to be sustainably independent, and help those in need to do positively impactful actions"

    ○ No one likes to be physically hurt (includes pain from violence, pain from being poisoned, pain from rape, and pain from forced starvation and hunger) by others, so don't hurt others unless the other person you want to physically hurt is physically hurting you, about to physically hurt you, and physically hurt you in the past in an unjustified way yet demands respect from you (that violates I-pathy when a person constantly physically abuses and uses someone to make the abuser's or bully's life easier and still demands respect from that person being abused and used). Only exceptions to this principle is when teaching someone else survival and martial arts to make that other person stronger, smarter, and faster

    ○ No one likes to be stolen from by others, so don't steal from others. Taking back what was stolen from you doesn't count as stealing back but counts as taking back what was yours

    ○ No one likes their positively impactful reputation and past actions tainted and distorted by verbal abuse, lies, and jokes made by others so don't do it to others.

    ○ No one likes to be restricted when they do good things or positively impactful actions to society

    ○ Everyone wants to be sustainably independent or be able to do good things or positively impactful actions for themselves and society on their own without being forced to rely on others to do good things or to have other people's permission just to do good things for society

● **Vispthinkingpat-thinkflexsense-patternology-learningology Religion Website**

● **"Guide to free educational websites, free positively impactful softwares and apps" website (part of corporation and organization)** . Website will contain videos of how to use and navigate each website, software, and app and a list of all the educational websites and free positively impactful softwares and apps

　　○ Contains **Free Educational Websites or Sites, Free Positively Impactful Softwares and Applications or Apps, Free Educational YouTube Accounts, Free and Openly Educational Instagram Accounts, Free and Openly Educational Twitter Accounts, Free and Openly Educational Facebook Accounts and Pages, Free Educational IRC Channels**

　　○ **Government Site Per Country, State, Local, Government Institute, Government Department, Government Center**

　　　　■ **Government Transportation Site**
　　　　■ **Government Laboratory Site**
　　　　■ **Government Geological Data Site**
　　　　■ **Government Energy Site**
　　　　■ **Government Bank Site**
　　　　■ **Government Trade/Commission Site**
　　　　■ **Government Health and Safety**

　　○ **University Sites offering free news, media, accurate and precise and useful information (also called educational information) and free software, simulations, web applications**

● **Online Patterndiscoverycreationimprovementsolutionsrel Store selling or leasing portable medicine producing equipment and technologies, portable laboratory equipment and technologies, portable calibration equipment and technologies, portable measuring equipment and technologies, portable computing technologies, portable sensor technologies, portable cleaning technologies, portable waste management technologies, portable medical equipments and technologies, portable farming equipments and**

technologies,portable energy production equipments and technologies, portable manufacturing equipments and technologies, portable automation transportation technologies, portable robotics technologies, portable cooking and refrigeration equipment and technologies, portably packaged or portable packaged and stored agricultural seeds, and other independence enabling, safe, portable products for abled, physically disabled, and mentally disabled consumers : Will be part of Patterndiscoverycreationimprovementsolutionsrelic Corporation and Organization, therefore every child or person must have free access to these equipments and cryptorewardpoints must be created and efficiently rewards people doing good things for free before this online store opens to utilize it.

● **"List of negative and positive effects of each item/products/behavior and the average effect (stated as either "averagely negatively impactful" or "averagely positively impactful") containing whether an item/product/behavior is averagely negatively impactful or positively impactful to the environment" Application and Media Initiative:** must apply Efficient Guiding Methodology

● **Junk/Useless/Unnecessary Products and Averagely Negatively Influential and Impactful Products Elimination and Prevention Act/Foundation/Initiative (motto "stop wasting earth's resources on useless products"):** eliminate and remove junk products like junk food and many useless luxury stuff (like "fancy" but useless items that are not helpful in people becoming sustainably independent) and eliminate and remove averagely negatively impactful products like cigarettes and carpets

● **Misinformation and Negatively Influential Behavior Communication Elimination and Prevention Initiative** : elimination and Prevention for misinformation goal is to eliminate and prevent non-accurate and precise patterns like fake news and non-accurate beliefs and statements (like "perfect beings exists" even though any being can always improve in anything; no limits); elimination and prevention of negatively influential communication goal is to eliminate and prevent negatively influential forms of

communication like rap songs supporting gangbanging and raping women

● **Recycling, Reusing, Cleaning and other Sustainable and Positively Impactful Techniques, Methods, Procedures, Exercising and Practicing Initiatives/Acts:** will contain robots for cleaning and recycling

● **"Children for Independent Living" Initiative/Act (part of vispthinkingpat-thinkflexsense organization and corporation):** goal is to enable as many children or all children (when possible; not "if" possible because there are no limits in this world and anything is possible) to live independently and sustainably/healthily and follow religion's requirements

● " **Vispthinkingpat-thinkflexsense Religion Followers' Independent Living" Initiative/Act/Law/Rule (part of vispthinkingpat-thinkflexsense organization and corporation)** : goal is to enable all vispthinkingpat-thinkflexsense religion's followers to live healthily, independently, and sustainably and follow the religion's daily requirements.

● **Universal Wishes, Ideas, Wants, Problems, Solutions, Needs, and Goals List Application and Media:** goal is to promote social consciousness exercise towards problems and hardships faced in current times by stating such problems and showing it to the public for the people to apply in the "asking phase or problem phase" during learning methodology and patternology methodology to come up with solutions to those problems

● **Free Accurate and Precise Information Communication Act/Intiative**

● **Free Positively Impactful Education in Online and Offline Environments/Simulations in Electronic Devices and Holograms, and in Practical Environments in Laboratories Act/Initiative**

● **"Positively Impactful Persons, Organizations, Products, and Businesses for Sustainably Supporting, Educating, and Supplying Abled and Disabled Consumers to be Independent" Act/Initiative or Abled and Disabled Consumer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility**

Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Independence Organizations, Products, Person, and Businesses Act/Initiative : like businesses building robotic chefs for homes and self driving and self-charging cars and autonomous drones that can pick up whatever the abled and disabled consumer wants and deliver it to the consumer

> ○ **Abled, Physically Disabled, and Mentally Disabled Consumer Creating, Developing, and Supplying Positively Impactful Products and Facilities Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Creation, Development, and Supplying of Positively Impactful Products and Facilities Independently Organizations, Products, Person, and Businesses**
> ○ **Abled, Physically Disabled, and Mentally Disabled Consumer Water, Nutritious Food, Nutrients, Biology, and Agriculture Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Water, Nutritious Food, Nutrients, Biology, and Agriculture Independence Organizations, Products, Person, and Businesses**
>> ■ **Abled, Physically Disabled, and Mentally Disabled Consumer Nutrient Production Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly**

Improving and Advancing Nutrient Production Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Aquaponics Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Aquaponics Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Genomics, Cloning, Sperm and Egg and Seed Incubation and Preservation, Gland Technology, Artificial Insemination, Reproductive Technology, Organism Artificial Formation and Growth Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Genomics, Cloning, Sperm and Egg and Seed Incubation and Preservation, Gland Technology, Artificial Insemination, Reproductive Technology, Organism Artificial Formation and Growth Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Household Composting, Household Fertilizing, Household Plant Vegetation Watering and Breathing and Stimulating and Feeding, Household Supergreens Vertical Farming and Household Herbal Gardening Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating,

Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Creation, Development, and Supplying of Positively Impactful Products and Facilities Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Regeneration Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Regeneration Independently Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Medical and Regenerative Stem Cell Production Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Medical and Regenerative Stem Cell Production Independently Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Autopiloting, Manualpiloting, Manned, and Unmanned Water, Air, Space, Planetary, and Ground Transportation Vehicle Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Autopiloting, Manualpiloting, Manned, and Unmanned

Water, Air, Space, Planetary, and Ground Transportation Vehicle Independence Organizations, Products, Person, and Businesses

- **Abled, Physically Disabled, and Mentally Disabled Consumer Unmanned Autonomous Systems for Water, Air, Space, Planetary, and Ground Transportation Vehicle Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Unmanned Autonomous Systems for Water, Air, Space, Planetary, and Ground Transportation Vehicle Independence Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Robots and Artificial Intelligence Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Robots and Artificial Intelligence Independence Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Assembling, Combining, Separating, and Disassembling Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Assembling, Combining, Separating, and Disassembling Independence Organizations, Products, Person, and Businesses**

- **Abled, Physically Disabled, and Mentally Disabled Consumer Welding, Joining, and Fastening Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Welding, Joining, and Fastening Independence Organizations, Products, Person, and Businesses**
- Abled, Physically Disabled, and Mentally Disabled Consumer Utilities Infrastructure and Construction Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Utilities Infrastructure and Construction Independence Organizations, Products, Person, and Businesses
- Abled, Physically Disabled, and Mentally Disabled Consumer Automation and Manual Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Automation and Manual Independence Organizations, Products, Person, and Businesses
- Abled, Physically Disabled, and Mentally Disabled Consumer Sensors, Monitors, Recorders, Storages, and Databases Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning,

Researching, and Constantly Improving and Advancing Sensors, Monitors, Recorders, Storages, and Databases Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Machines, Equipments, Items, Tools, Instruments, and Technology Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Machines, Equipments, Items, Tools, Instruments, and Technology Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Measurement, Simulation, and Software Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Measurements, Simulations, and Softwares Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Materialcare, Patterndiscoverercreatorimproversolvercare, Childcare, Animalcare, Plantcare, Bacteria-care, and Fungi-care for Preservation, Regeneration, Creation, Improvement, Evolution, and Growth Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Materialcare, Utopcare, Childcare, Animalcare, Plantcare,

Bacteria-care, and Fungi-care for Preservation, Regeneration, Creation, Improvement, Evolution, and Growth Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Body, Sensory, Bone, Muscle, Nerve, Skin, Seed, Cell, Tissue, and Organ Preservation, Regeneration, Creation, Improvement, Evolution, and Growth Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Body, Bone, Muscle, Nerve, Skin, Seed, Cell, Tissue, and Organ Preservation, Regeneration, Creation, Improvement, Evolution, and Growth Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Laboratories, Factories, Housing, and Living Shelter Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Laboratories, Factories, Housing and Living Shelter Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Physical Transportation/Portability/Movement/Change, Space Transportation/Portability/Movement/Change, Water Transportation/Portability/Movement/Change, Heat Transportation/Portability/Movement/Change, Air Transportation/Portability/Movement/Change, Pressure Transportation/Portability/Movement/Change, Vibration

Transportation/Portability/Movement/Change, Energy Transportation/Portability/Movement/Change, Force Transportation/Portability/Movement/Change, Chemical Transportation/Portability/Movement/Change, and Ground Transportation/Portability/Movement/Change, Stationary Movement, Connections, Mobile, Locomotive, Flight, Automotive, and Autonomous Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Physical Transportation/Portability/Movement/Change, Space Transportation/Portability/Movement/Change, Water Transportation/Portability/Movement/Change, Heat Transportation/Portability/Movement/Change, Air Transportation/Portability/Movement/Change, Pressure Transportation/Portability/Movement/Change, Vibration Transportation/Portability/Movement/Change, Energy Transportation/Portability/Movement/Change, Force Transportation/Portability/Movement/Change, Chemical Transportation/Portability/Movement/Change, and Ground Transportation/Portability/Movement/Change, Stationary Movement, Connections, Mobile, Locomotive, Flight, Automotive, and Autonomous Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Energy Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Energy Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Electrical Energy, Solar Energy, Nuclear

Energy, Fusion Energy, Wind Energy, Gravitational Energy, Hydrogen Energy, Manual and Autonomous Force Created Energy Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Electrical Energy, Solar Solar Energy, Nuclear Energy, Fusion Energy, Wind Energy, Gravitational Energy, Hydrogen Energy, Manual and Autonomous Force Created Energy Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Opening, Closing, Locking, Unlocking, Removing, Separating, Combining, Connecting, Shifting, and Transformer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Opening, Closing, Locking, Unlocking, Removing, Separating, Combining, Connecting, Shifting, and Transformer Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Copyright, Laboratories, Research, Experimentation, Testing, Education, Schools, Cryptorewardpoints, Free-based, Technology Transfer Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Copyright, Laboratories,

Research, Experimentation, Testing, Education, Schools, Cryptorewardpoints, Free-based, Technology Transfer Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Logistics Management, Supply Chain Management, and Commodity and Positively Impactful Products Management Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Logistics Management, Supply Chain Management, and Commodity and Positively Impactful Products Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Manufacturing, Designing, and Formation Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Manufacturing, Designing, and Formation Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Safety, Preservation, Defense, Protection, Security, and Cryptography Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Safety, Preservation, Defense, Protection, Security, and

Cryptography Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Shielding, Packaging, Storing, and Covering Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Shielding, Packaging, Storing, and Covering Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Explosive Ordnance Disposal Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Explosive Ordnance Disposal Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Existence, Medical, and Health Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Existence, Medical, and Health Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Mining, Vibrations, Structures, Matter Production and Transformation, Element Production and Transformation, Chemicals, Physicals, Minerals and

Materials Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Mining, Vibrations, Structures, Matter Production and Transformation, Element Production and Transformation, Chemicals, Physicals, Minerals and Materials Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Accurate and Precise Information, Preparation, Preparing, Organizing, Planning, Strategizing, Instructions, and Instructing Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Accurate and Precise Information, Preparations, Preparing, Organizing, Planning, Strategizing, Instructions, and Instructing Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Communication, Alarm, Emergency and Environment Broadcast, Display, Visualization, Sensualization, Programming, Identification, and Categorization Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Communication, Alarm, Emergency and Environment Broadcast, Visualization, Sensualization, Programming,

Identification, and Categorization Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Signal Sending, Receiving, and Processing and Sign and Alarm Communication Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Signal Sending, Receiving, and Processing and Sign Communication Independence Organizations, Products, Person, and Businesses

■ Abled, Physically Disabled, and Mentally Disabled Consumer Educational Animations, Edutainment, Educational Demonstrations, and Educational Simulations Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Educational Animations, Edutainment, Educational Demonstrations, and Educational Simulations Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Repair and Restoration Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Repair and Restoration Independence Organizations, Products, Person, and Businesses

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Construction, Demolition, Salvage, Rescue, and Recovery Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Construction, Demolition, Salvage, Rescue, and Recovery Independence Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Recycling, Cleaning, Disinfecting, and Reusing Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Recycling, Cleaning, Disinfecting, and Reusing Independence Organizations, Products, Person, and Businesses**

■ **Abled, Physically Disabled, and Mentally Disabled Consumer Decontamination, Toiletry, Latrines, Waste Management, Waste Transportation, Waste Processing, and Filtration Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Decontamination, Toiletry, Latrines, Waste Management, Waste Transportation, Waste Processing, and Filtration Independence Organizations, Products, Person, and Businesses**

○ **Abled, Physically Disabled, and Mentally Disabled Consumer Interior and Exterior Multiverse, Universe, Galaxy, Star, Black Hole, Space, Planet, Terrain, Asteroid,**

Atom, Element, Mineral, and Cell Exploration, Navigation, and Mapping Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Interior and Exterior Multiverse, Universe, Galaxy, Star, Black Hole, Space, Planet, Terrain, Asteroid, Atom, Element, Mineral, and Cell Exploration, Navigation, and Mapping Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Energy, Pressure, Forces, Vibration, Material, and Space History, Tracking, and Prediction Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Interior and Exterior Energy, Pressure, Forces, Vibration, Material, and Space History, Tracking, and Prediction Independence Organizations, Products, Person, and Businesses

○ Abled, Physically Disabled, and Mentally Disabled Consumer Microtech and Macrotech Independence Enabling, Safe, Portable, Repairable, Non-hazardous, Non-polluting, and Non-contaminating   Product and Facility Creating, Developing, and Supplying and Freely Sharing Accurate and Precise Information, Educating, Learning, Researching, and Constantly Improving and Advancing Macrotech and Microtech Independence Organizations, Products, Person, and Businesses

● Free and Open Source Software Initiative/Act
● Free Positively Impactful Results, Solutions, Actions, Products, etc. for Cryptorewardpoints Act/Initiative

● **Patterndiscoverercreatorimproversolver Executive Board and Patterndiscoverercreatorimproversolver Governing Board and Patterndiscoverercreatorimproversolver Board of Directors and Patterndiscoverercreatorimproversolver Managers Association Initiative/Act:** only non-sexual intercourse seeking individuals who are 100% addicted to only flexing and doing stimulating stationary exercise, who are one of the consciously and unconsciously smartest beings, who are one of the morally kindest beings, who are one of the physically strongest beings, and who are one of the physically fastest beings/organisms can govern and boss others, and only those striving to be Patterndiscoverercreatorimproversolvers are the best or fit in such categories, so Patterndiscoverercreatorimproversolvers are the only ones allowed to govern my organization and corporation

● **Patterndiscoverercreatorimproversolver Association (part of visp…-think… organization and corporation):** organization   for only Patterndiscoverercreatorimproversolvers for enabling Patterndiscoverercreatorimproversolvers to do good/positively impactful actions for free and show the action being done for free online (like free online live/non-live reality shows showing how Patterndiscoverercreatorimproversolvers do/create/discover positively impactful things to improve physically, morally, mentally, environmentally, etc.)

● **Patterndiscoverercreatorimproversolver based Artificial Intelligence and Robots:** AI will contains all the accurate and precise patterns known (including plant identification)

● **Free and open access measurer's-ology/measurement-ology/measuring-ology, science/scientific/scientist's, technology-ology/technical-ology/technician's-ology, machine-ology/mechanical-ology/mechanic's-ology, physical-ology, chemical-ology, engineering-ology/engineer's-ology, mathematics-ology/mathematical-ology/mathematician's-ology, Logicology/logician's-ology, metrology-ology/metrologist-ology, calibration-ology/calibrator-ology, medical-ology/medicine-ology/medic-ology/pharmacist-ology, and survival-ology/survivalist's-ology terminologies,**

methodologies, techniques, and accurate and precise patterns archive, application, and media

● **Children for Independence Law:** enforcing all products and science, technology, engineering, and mathematics education and information to be free for children or people under 20; children or people under 20 years old will meet their needs for free by law

● **Patterndiscoverycreationimprovementsolutionsrelic technical schools** , **childcares, hospitals, research or laboratory facilities, daycares, manufacturing facilities, etc.:** the corners in each room or the midpoint in each wall segment in each room (for squared, rectangular, circular rooms) will contain cameras and microphones being broadcasted live for free on the internet (with blurring technology for blurring those who do not want people to see them in the cameras)

   ○ For technical schools: all the educational materials will be available online for free, and the students will be issued technology for completing course homework. Also, the only time the students go to classroom is for the technical projects (like laboratory work, prototyping, classroom product testing, etc.). So, most rooms in the Patterndiscoverycreationimprovementsolutionsrelic technical schools will be chemistry, physics, astronomy, metrology, life sciences or biology, calibration, geometry, medical, mechanical laboratories, testing or application rooms, and simulation rooms for meeting technical standards for all students' technical needs and technical studies.

● **Edutainment Media**

   ○ **Create lectures, tutorials, documentaries, demonstrations, experiments, biographical and non-fiction stories, educational and accurate and precise animations and visuals and soundpat and simulations**

      ■ Documentaries lectures, tutorials, documentaries, demonstrations, experiments, biographical and non-fiction stories can be funny by being brutally honest and finding unique connections and funny or visually contradictory, conflicting, or opposing but true relation. For example, comparing different techniques and

procedures in a dramatic way, such as using a person using broom to clean versus a person using a vacuum to clean and the person using a vacuum smiles at the other angry person, so then a competition occurs with the other angry person tries to find better methods to get back at the smiling person to accomplish Cleaning results faster (such as buying and using a bunch of very accurate and precise robots to clean); I would create two versions for the show " **Modern Versus Ancient Methods: A Conflicting Narrative** " and " **Different Types of Methods, Solutions, and Products for Solving the Same Problem: A Conflicting and Competing Comparison** "

○ **Patterndiscoverycreationimprovementsolutionsrelic Musicians: creates songs and music with educational lyrics about patterns (like mechanics, reactions, effects, causes, orders, and relations of things) in rhythmical way heavily emphasizing educational military marching and chanting, daft punk style, musical/rhythmical breathing, beatboxing, alternative, and or rap structure in songs, and every song includes educational visual and sound animations.**

■ **"Force Intercourse" Album: lyrics about different types of forces and the order, relationship, mechanics, causes, and effects of these forces**

■ **Running song:** military marching style with "push down backwards…to move forwards" lyrics

■ **"Emergency Medicine" Album:**

■ **"Water Filtration" song:**

■ **"Mechanics of an M-15 weapon" song:**

■ **"Civil Engineering" album**

■ **"Explosive Ordnance Disposal Techniques" Album:**

■ **"Mr. Soundman" song:** lyrics " Mr.Soundman, give me a beat. Dum-dum-dum-dum. I didn't know that's the new beat creed. Dum-dum-dum-dum. Ohh, Mr.Soundman give me another beat!!"

- ■ " **If my body wants something bad for me" song:** lyrics "If my body. Wants something bad for me. I won't be happy. End of story."
- ■ " **End of my life" song:** lyrics "A time will come. When I have nothing left. Except my atoms, causes, and effects. And long after my life. Future smarter and dumber, weaker and stronger, kinder and meaner, and different species of living creatures will be my judge. Hating me for my caused problems' effects. If any. And appreciating me for my caused solutions' effects."

● **Products to create for this religion: must be portable, positively impactful, safe products**
  - ○ **Ice bullets:** used to put down fires
  - ○ **Ice ballistics:** used to put down fires
  - ○ Freeze ballistics: used to put down fires and deactivate explosives and nuclear chemicals
  - ○ **Autonomous, man-powered and electrically powered bird like flying wings backpack or suits or vehicle**
  - ○ **Vacuum backpack:**
  - ○ **Wearable sensors, remote controllers, recorders, computers, (solar powered and movement powered) chargers, solar powered and movement powered batteries, and monitors technology apparel:** Camera, microphone, speaker shirts (cam-mic-speaker-shirts), camera hats, and other wearable cameras, microphones, and speakers.
  - ○ **Sustainable Independence Vehicle or SIV:** Mining Facility, Products, technology, vehicles, and Equipments; Heavy Duty Facility, Products, technology, vehicles, and Equipments; Construction Facility, Products, technology, vehicles, and Equipments; Deconstruction and Disassembly Facility, Products, technology, vehicles, and Equipments; Repair Facility, Products, technology, vehicles, and Equipments; Robotics Facility, Products, technology, vehicles, and Equipments; Manufacturing Facility, Products, technology, vehicles, and Equipments; Air Handling Unit Facility, Products, technology, vehicles, and Equipments; Waste Management

Facility, Products, technology, vehicles, and Equipments; Safety Equipment Facility, Products, technology, vehicles, and Equipments; Emergency Exit Shuttle and Rescue Operations Facility, Products, technology, vehicles, and Equipments; Farming and Nutrient Producing and Agricultural Facility, Products, technology, vehicles, and Equipments (Nutrient Production Facility); Kitchen Appliances, Facility, Products, technology, vehicles, and Equipments; Water producing and filtering Facility, Products, technology, vehicles, and Equipments; Information Technology Facility, Products, technology, vehicles, and Equipments; Medical Facility, Products, technology, vehicles, and Equipments; Decontamination and Cleaning Facility, Products, technology, vehicles, and Equipments; Physics and Astronomy and Chemistry and Technology and Metrology and Biology and Geology and Callibration Laboratory Facility, Products, technology, vehicles, and Equipments; Expedition Facility, Products, technology, vehicles, and Equipments; Security Facility, Products, technology, vehicles, and Equipments; Refrigeration Facility, Products, technology, vehicles; Preservation Facility, Products, technology, vehicles; Heating Facility, Products, technology, vehicles; Cooling Facility, Products, technology, vehicles; Storage Facility, Products, technology, vehicles; Defense Facility, Products, technology, vehicles, and Equipments; and Housing Facility, Products, technology, vehicles, and Equipments combined into one portable, dynamic positioning, autonomous and manual options, self-driving capable vehicle on and inside ground, water, air, and space locations; this invention will enable people to be safe and have their items saved in a safe way that can't be destroyed by natural disasters like floods, tornadoes, earthquakes, hurricanes, etc. due to its universal portability and powerful shield technology

○ **2 screens, keyboardless laptop** : one screen displays input (allows you to type on a touchpad or draw or write) while the other screen displays output

○ **Holographic 3 dimensional and 4 dimensional device** : to enable people to learn, test, experiment, and simulate in 3 dimensional and 4 dimensional displays

○ **Cryptorewardpoints** : involves machine learning and judging or assessing based on sensory inputs from user sensors and based on machine utilizing an algorithm similar to Efficient Guiding Methodology when judging or assessing

○ **Physical, biological, and chemical microshape and macroshape transformer technolog** y: used for educational and practical applications

○ **Self-elevator or self-elevating or self-elevation technology:** allows workers to elevate upwards by themselves using the technology to accomplish things they could accomplish using a ladder; must be a better and 100% safer alternative than ladders to the point were acrophobic people can utilize this technology without any fear of falling

○ **Patterndiscoverercreatorimproversolver Guide and Bot:** Free   and open   source artificial intelligence and robot constantly learning accurate and precise patterns from sensory inputs and user's inputs

○ **Medical   robots, nursing robot,   and visual and auditory assistant robots with x-ray (must be safe to the patient when patient is naked and exposed), macroscopic, microscopic, telescopic, infrared night vision, and thermal infrared vision technology and sound and vocal recognition technology and echolocation, navigation, visual creation, diagram creation, and mapping technology**

○ **Animations and simulations so accurate that even a being with hair on its body covered with apparel or clothes, will make scratching noise whenever the being moves in the animation or simulation**

○ **Portable, robotic kitchen appliances: Self-Mobile or Self-portable robotic fridge, oven, smoothie makers, vegetable and fruit cutters, chefs, water filters, pots and pans**

○ **Childcare and teaching Robots**

○ **Self-folding technology through voice recognition command (technology will only fold to the user's voice)**
○ **Independence enabling, safe, portable, … non-sexual reproduction technology: technology that scans for harmful pathogens in sperm (like HIV and other STDs and STIs), gives a report of sperm, cleans the sperm, fertiles the sperm, and safely injects sperm into female host (women)**
○ **Simulation technology combining physical muscular sensors, visual sensors, and more sensors to the point were it is so accurate that you can physically train in them to top or experience any sports and Ironman competitions and technically train in them to top technical performance in engineering and scientific techniques and methods and apply tests and applications to measure anything capable of meeting current standards to stay safe, predict outcomes, and keep learning**
○ **Packable flight technology for individual transportation**
○ **Patterndiscoverycreationimprovementsolutionsrel competitions:** includes freerunning/parkour, breakdancing, mixed martial arts, ninja warrior competitions, mathematics bowl, science bowl, engineering competitions, construction/assembly and deconstruction/disassembly competitions (like building a basket or water filters or engines the fastest and testing the basket or water filter or engine for its applications and capabilities), carpentry competitions, robotic competitions, technology construction/manufacturing and applying/testing competitions (like building a car within a time limit and seeing which is the fastest, most durable, etc.), wilderness survival competitions, marathons (similar to Ironman competitions and Olympic triathlons), combining and connecting competitions (like hacking competitions, joining constructions/materials and testing them competitions, etc.), separating competitions (like mining competitions, filtration competitions, etc.), medical competitions, rescue operation competitions, transportation competitions (for example autonomous drones from different competitors -must show

design, construction/manufacturing phase, etc.- and the drones will be competed against each other in races like carrying and transporting products from one zone to another in the fastest and non-destructive or safest way possible), technique competitions (such as body movement technique competitions), movement methods, techniques, technologies, systems, processes competitions, method competitions, visualization competitions, logical reasoning competitions, reasoning competitions, measuring competitions, cleaning competitions, agricultural competitions, safety competitions (like which wire or rope can handle the most load and cars being driven in rough terrain or against objects to see how durable they are, flammability tests, melting point tests, waterproof tests, hackability tests, strength tests, electrical tests, radiation tests), security competitions (like cybersecurity competitions, stealing competitions, locking and unlocking competitions, securing competitions, defending competitions), /////

■ Every contestant/competitor will be given a tracking visual and sound recording drone for monitoring and broadcasting competitor and wearable sensor technologies for first person point of view of visuals and sound, especially hearing athlete's breathing technique;

○ **Muscle control and controller technology** : will be used for technology to manipulate or instruct the muscles in the body to master techniques and body movement or do body movements properly, and will be used to control other objects movements (like humanoid robots, simple transportation technology that can be controlled with fingers' muscles' movement)

○ **Voice visualization and recording technology** : Recording technology that can record users voice into writings and drawings

○ **Sound visualization and recording technology**

○ **Bionic suits enabling limbless people to have mechanical limbs in place of their missing limb**

○ **Autoscroll software:** can pause and continuously scroll based on set speed.

○ **Unmanned Autonomous Systems for Ground, Space, Water, and Air Transportation, Delivery, and Pick-up Vehicles**

○ **Lie and truth detection technology:** combine visual imaging (including thermal imaging to detect body heat trends in communicating lies), analyzing (including detecting common body language for communicating lies), scanning, machine learning, and recording technology; sound or speech or vocal language analyzing, scanning, machine learning, and recording technology; and polygraph technology to prevent lies from being spread, especially in court hearings and trials (like the Jogger Case forcing kids to unjustifiably suffer)

○ **Customer portable tracking device address (for customer package UAS drone delivery):** when living daily portably or in portable vehicle (like RV or Expedition vehicle), you can't order products online due to not having a housing address, so instead the drone will send the online ordered product package to the customer using the customer's portable tracking device address

○ **Public Owned for Innovation Natural Planetary Elements Deposits Mines** : every person can have free access to these mines for developing solutions and creating and testing better technologies, etc..

 ■ Must record everything you do or robot does in the mining, manufacturing, and testing phase and share it to the public for free

○ **Free   science, mathematics, engineering, drawings, science, combination (includes construction, manufacturing, electronics connecting/connectors), techniques, methods, technology, machine, design, and sensors news**

 ■ **Never will permit entertainment news, fake news, and non accurate and precise ordrels or order and relations**

○ **Medical robots:**

○ **Teaching robots**
○ **Mining robots**
○ **Construction and Assembly robots**
○ **Demolition and Disassembly robots**
○ **Transportation and delivery robots**
○ **Cleaning robots**
○ **Organizing robots**
○ **Farming robots**
○ **Caregiving, nursing, physical therapy, therapeutic robots**
○ **Healthcare robots**
○ **Waste management robots**
○ **Portable and Wearable flying technology: flying clothes, flying bags, flying sticks.**
○ **Rescue and recovery robots**
○ **Surgical robots**
○ **Portable quantum computers with touchpads and touchscreens for user interface: quantum laptops**
○ **Portable supercomputers with touchpads and touchscreens for user interface: supercomputing laptops**
○ **Energy manual production, construction, deconstruction, and repair portable robots**
○ **Fire resistant, shock resistant, and/or water resistant products (especially clothes), and these products require nanotechnology.**
○ **Portable and safe products capable of turning hair, feces, soil, dust, and tissues or napkins into biofuel or biomass energy sources.**
○ Phones containing laser cutting, free and continuously improving holographic imaging, free and continuously improving recording tools, free and continuously improving programming tools, free and continuously improving sharing and collaborating tools, free and continuously improving social media tools, measuring tools, free and continuously improving calculating tools, free and continuously improving simulation tools, free and continuously improving educational games and applications, free and continuously improving logic and

mathematical tools, free and continuously improving language tools, and all free and continuously improving educational content

○ **User Seating or Sitting Exoskeleton System** :

○ **Miniature, autonomous unmanned system, electrical and self-charging, and remote controlled versions of current heavy, useful, industrial machines or machinery** : for example, miniature, autonomous unmanned system, electrical and self-charging (must have solar charging capabilities in one of its self-charging capabities), and remote controlled versions of excavators, cranes, loaders, telehandlers, forklifts, and tractors that can do the job better.

○ **Artificial and Natural Hazard or Disaster Detecting Autonomous Unmanned Systems:** aid vehicles that can detect artificial hazards like bumps and holes on the ground and dangerous chemical leaks and emissions to the user into the vehicle's environment

○ **Safe and Stable Flying Board Containing Drone Like Movement:** can detect air pressure from winds, safe to use as an alternative for ladders when doing high up construction and cleaning work

○ **Repair robots able to repair any object or product and use freely available online tech guides and manuals for that object or product**

○ **Create an economic system in Ordreldiscoverycreationimprovementsolutionsreligion Organization enabling children to get free products at limited quantity, rewarding people for providing accurate educational content or information based on the effects of the information provided, and setting prices, profits, wages, and payments based on the accurate effects of such products and actions.**

○ **Autonomous robotic forklifts, which requires autonomous pumping mechanism based on attached sensors on forklifts capable of measuring forklift upwards and downward positions or elevation levels plus a scanner and camera for understanding what to pick up**

(which the scanner will accomplish) and what environment their in (which is what the camera will accomplish)

○ Single user and/or self portable household robotic kitchen (combines robotic chefs, robotic refrigerators, robotic ovens, robotic blender, robotic cooking utensils and kitchenware and kitchen appliances, robotic water filtration and storing, robotic dish cleaners or dishwashers, robotic food waste disposal and composting unit) capable of making, cooking, and blending soups, smoothies, sauces, stews, chilis, smoothies, salads, hummus, and guacamole; capable of detecting molded foods and storing foods, doing all refrigeration, oven, blender, cooking utensils, kitchenware, kitchen appliances, record and upload recipes and food related videos, water filtration and storing, apply all food safety procedures, dish cleaners or dishwashers, food waste disposal and composting unit

○ Toilets with robotic arm able to clean or disinfect the rim of the toilet under the toilet seat and toilet seat and brush the toilet hole and autonomous clorox or disinfectant liquid releaser cleans the hole in the toilet and water flushes

○ Robotic or bot able to categorize and record every and all websites or sites and applications and softwares information and categorize and rank freely educational information about something, organization website(s) transparency, positively impactful organizations and their websites (using causeffectism or efficient guiding methodology), negatively impactful organizations and their websites (using causeffectism or efficient guiding methodology), website security, independence enabling organizations and their sites, positively impactful dependence enabling organizations and their sites; called Autonomous Virtual Space and Information (includes all the internet, virtual files, sites, software, virtual simulations, virtual media, virtual images and videos,

List of Educational Sites (including rated and identified free and nonfree educational sites and business transparency):

List of Negatively Impactful Organizations (organizations selling and creatin mostly harmful products and services) and their Sites:
